To my friends and supporters . . .

**THANK YOU**  
for your votes and work during this election!

I am proud that you have returned me to the Miami Beach City Council . . . I am humble in the light of your tremendous vote of confidence . . .

I will continue to serve the interests of our City as I have done during the past 12 years, acting impartially on the strength of my convictions.

Now that the election is over, and the people have given the decision, I urge that the differences and heat of the campaign be forgotten. Let us remember the Golden Rule . . . let us work in harmony . . . let us strive for the continued program of our beautiful community.
