

# C.S.N.S. ELECTIONS ON MAY 6 and 7

By **CHUCK CRAWFORD**  
C.S.N.S. Editor

May 6 & 7 were named as the final dates for this year's C.S.N.S. elections by Tom Hribar, C.S.N.S. first vice-President. On these two days the thirteen student government offices will be filled for the 1965-66 academic year.

The offices of President, 1st and 2nd Vice-President, Secretary, Treasurer, and eight class senators comprise the positions to be competed for. Briefly the

necessary qualifications for the various positions are as follows: The President must have completed 60 credit hours with 45 having been completed on this campus. First Vice-President and the Treasurer must have completed 45 credit hours with 24 having been completed here. The second Vice-President and Secretary must have completed 15 of the necessary 28 credit hours at Nevada Southern. All officers must maintain a 2.2 grade average while in office

and must also carry at least eight credits while in office.

Petitions for the various offices must be filed by April 23 at 4:00 p.m. and may be picked up any time after today. Official campaigning begins on April 26 with a campaign dance in Frazier patio on May 1, which begins at 8:00 p.m. At this function, the major candidates for executive offices will address the student body and enumerate their platforms.

Campaigning will be topped off with the REBEL YELL's special election issue which will be on the stands April 28. In this issue, summaries of the candidates' platforms will appear along with pictures of the major hopefuls.

Voting begins at 9:00 a.m. on Thursday, May 6 and will last until 5:00 p.m. on Friday, May 7th. The place of voting has not yet been announced.

It is hoped that this election will bring out the greatest number of voters and the most spirited campaign in Nevada Southern's history.

"Next year is going to be one of the most important yet for Nevada Southern University. It is imperative that qualified people seek and win C.S.N.S. offices, otherwise a year of importance might turn out to be a year of mediocrity," states Hribar.

**NEARS FINISH** — This shot of the new social science complex was taken in early April. The building is set for a late May opening. (R-Y Photo)

### Social Science Complex

## \$1.2 Million Building Set in May

By **JACK ABELL**

Nevada Southern's campus "skyline" receives a grand boost late next month when the new social science complex is completed. The \$1.2 million structure is not set to be officially dedicated by the Board of Regents and civic leaders until the fall semester of 1965, but faculty members will be moving into the building during the summer months. It is expected to take nearly three months before the entire complex is completely furnished, and staffed.

The tri-building plant is architecturally unique. It features 30 separate classrooms on three floors, a separate lecture hall which seats 400 comfortably, and an office wing with nearly 60 offices for faculty and secretarial work.

However, there are many additional features which, when combined, make the social science building the most unusual structure on the N.S.U. campus. The third floor of the classroom facility will contain a large room designed to be

used as a psychology lab. The lower level of the large classroom building includes numerous offices, a separate faculty lounge, and another lecture hall with a capacity of 200. In addition, the office of the new Chancellor is situated on the first level.

The entire complex features the most up-to-date electrical lighting system, and has an over-all originality of design. Students will be able to lounge in a shaded mall area in the center of the classroom building. Directly in the center of this structure is a unique atrium which opens the building on all three floors to the sky. Each of the three floors in the classroom complex also features a balcony on the north end giving a splendid view of the campus.

Another useful feature of the structure is the large "plaza-like" mall which is situated in the front of the complex. This area will have benches for students and can be used as study forum.

The faculty offices, while

often being described as "small," are much more modern than those in other buildings, and feature built-in furnishings.

Part of the regular construction cost of the building includes landscaping. The building will be outfitted with both shrubs and lawn in the area immediately around its perimeter.

The social science complex is a welcome addition to the booming Nevada Southern campus. Indeed, it will feel the weight of use in the fall when N.S.U. welcomes a record 2,300 collegians to classes.

### COTILLION STAGED ON MAY 7

Nevada Southern's annual Confederate Cotillion has been scheduled for Friday, May 7, at the Las Vegas Elks Lodge on Las Vegas Blvd. North.

The dance this year is being staged by Sigma Gamma men's fraternity, and financed by C.S.N.S. The formal will tentatively feature Dave Burton's Orchestra, and the theme for the event is "Les Avenues Des Paris," "The Streets of Paris".

In addition, the C.S.N.S. election results will be disclosed at the dance. All students, who retain a C.S.N.S. Activity Card, are eligible to attend the affair free.

### 100 DEMONSTRATE

## Students Register New Protest Over Dormitory

Nearly 100 N.S.U. students, led by C.S.N.S. President Bill Daley carried signs and yelled slogans in a demonstration held on Friday, April 2 at the sight of the still-to-be-built first dormitory at Nevada Southern.

The impromptu event was reportedly precipitated by the continued drag on the date for ground breaking and starting of work on the residence facility. Daley told the crowd which included some faculty members that Neil Humphrey, Vice President of Finance for the University of Nevada, told him that ground breaking would take place on April 1, 1965. "They had the money for this dorm two years ago," he continued, "... and it does not look like they broke ground yesterday."

The "service" included a mock ground breaking ceremony in which Daley, C.S.N.S. 1st Vice President Tom Hribar, and other student leaders participated. The entire demonstration lasted 20 minutes at the site just south of the social science building, the planned location of the new dormitory.

After talking with J.W. De Fevre, Supt. of Buildings and Grounds on campus, the REBEL YELL learned that the revised date for the start of construction on the building will be around June 5. This date is reportedly the fifth deadline set on construction.

Daley stressed the fact that the overwhelming spontaneous support given to the short-notice protest movement indicates that a majority of students identify with the cause which includes an over-all drive for a more equitable allocation of funds be-

tween N.S.U. and Reno. There have been unconfirmed reports that Daley and C.S.N.S. leaders are planning some sort of action against the Board of Regents which meets on the Nevada Southern campus on May 6.

## Yell Plans Special Election Coverage

The REBEL YELL is planning a special election section for the April 28 issue of the publication. The purpose of the section will be to afford candidates an open forum for their views, and to help familiarize the voters with those seeking office.

However, those candidates wishing coverage in this special issue have been asked to submit the following to the REBEL YELL office no later than 12 noon next Monday, APRIL 19: A small, recent photo, and a 50 WORD statement of views. Those candidates not submitting the materials will not be given coverage in the special section.

## Calendar

- April 14—C.S.N.S. Election Petitions In Circulation
- April 14—C.S.N.S. Dance, Pre-Vacation Social, Gym Foyer, 8 p.m., Talent Show
- April 15-23—Easter Vacation.
- April 23—Election Petitions Due
- April 23—Campus Cinema: Film, "The Confessions of Felix Krull," 3 and 8 p.m.
- April 26—Election Campaign Begins
- April 28—Special Rebel Yell Election Issue
- April 29—Lecture W. Siri, 8 p.m., Gym
- May 1—Campaign Dance
- May 3—Lecture: Byron E. Eshelman, "Myth of the Law Abiding Citizen," Gym, 8 p.m.
- May 6-7—C.S.N.S. Elections

## A NOTE

from  
**JACK ABELL**

In a Letter to the Editor appearing in this issue of the REBEL YELL, an angry student (it's about time) demands that the editor of this paper explain a few issues to him. While some of his demands are rather brash and verbally over-done, most were points well-taken.

To demand #1, sir, let me say that the dorms are now due to start around June 5. Bids go out this month. Not more than one month ago, an influential financial officer in Reno, Mr. Humphrey, insured Mr. Daley that they would begin on April 1 or near then! As for our name, as soon as Governor Sawyer signs the bill, we will officially be Nevada Southern University.

Demand #2; what has happened to the \$52,000 for landscaping for N.S.U.? It has been tabled like all the other funds for this campus.

Demand #3; while demonstrating is often helpful, one that would take the form of a "riot" as you suggest would hurt our cause more than aid it. I don't feel that you can say that the moral caliber of all N.S.U. students has proven itself simply because you feel you have proven yours. Demonstrate? Perhaps, but at least wait and see what your student leaders are planning next month. It may surprise you. Indeed, it is an intelligent move.

Demand #4; I have nothing to say on N.S.U. fraternities, sir. If I have been harsh with Sigma Gamma, it is due to my short temper and the ignorance of some of that fraternity's "leaders."

Demand #5; as far as changing the name of Maryland Parkway to University Parkway, my view has always been affirmative as I have already told the City Planning Commission.

Demand #6; the Muckrakers are two "broad," GODOT has come and gone, and typographical errors in the YELL are courtesy of both me and the printer. The internal climate of the REBEL YELL staff is my problem, not yours, sir.

I hope these short sentence fragments will satisfy your desire for "answers." I envy your drive!

## LETTERS TO THE EDITOR

DEAR SIR,

I should like to comment on the attractive pattern formed by the peeling paint in Room 102 of the Science-Tech Building. Surely something can be done about this, or is the Building and Grounds Dept. too busy maintaining our lovely landscaping?

DOUG DUCHIN

DEAR SIR:

I've had it—I have been attending this university for nearly two years, and I have a few questions I would like answered in the most short, concise, manner.

#1... What ever happened to the preliminary plans that were submitted to some state office for approval in regard to dormitories? If you believe everything in our city papers, you

(Continued on Page 4)

### NAT BASSING'S

## Momentous Trivia

For many years higher education has been specializing, but how about the one outside of Chicago. The institution is called Hamburger University. It is a training school of a national chain of hamburger stands. Patty shaping 245, Bun toasting 102, Onion Rings 354, or French fries 124, might be come of the classes offered. Ah, is not education designed for all?

★

It's interesting to note that when the Man From UNCLE left us there was an uproar. Meet the Press or CBS Reports didn't receive a grunt. That was a devilish scheme to pit Science in Action against College Bowl.

★

It happened in an English church. After sitting through many minutes of a very dry sermon, one man got to his feet, exclaimed that he was bored and walked out. Most of the congregation followed him. Did you ever get that feeling?

★

If you know how to ventilate some of the Grant Hall lecture rooms, write the Rebel Yell, Box 1493, Plentywod, Montana.

★

In one section of Speech 111, all he wanted to talk about in three minutes was the Neolithic Revolution.

★

B & G Department: You planted them, so water them.

★

Let's face it, NSU is a step-child of U of N and until we become of age we will have to make do with whatever we can get.

★

To answer numerous requests, we take this space to recite the Nevada Fish and Game Commission's regulations concerning bullfrogs. "A current fishing license is required to take bullfrogs. Bullfrogs may be taken with hands, hook and arrow, hook and line, gig or spear and may be taken at any hour of the day or night during the open season. No firearms may be used for taking frogs. Limits: 10 daily." Your Rebel Yell is glad to be of service.

★

A riddle, stolen from an area junior high school: If April showers bring May flowers, what do May flowers bring? Ready? O. . . Pilgrims (sic).

### BOB JENSEN

## IN A REBEL'S EYE

Bureaucracy has advanced a little further at NSU. On April 2nd, the C.S.N.S. Executive Committee sanctioned a sub-committee called the "Student Center Committee." Undoubtedly this new organ will become known as the "SCC."

It is the rather ambitious task of the SCC to coalesce university and community toward the goal of acquiring a student center for NSU. This may appear to be a simple end for this neophyte committee to work towards. It is just as simple as wanting to land on the moon. These ends may be simple but the means by which to accomplish them are just a bit more complicated.

We cannot get to the moon by climbing mountains or by renting airplanes or by fanciful thinking. It takes a long-range plan of many related and co-ordinated feats to realize the end of lunar exploration. It will also take such a plan to get a student center at NSU. The SCC has such a plan.

The plan involves co-operation. If the Student Center is to be for the student body, it is fair that it should be built through the efforts of the student body. It is more than fair. It is the only way that it can be built.

Now don't reach into your pockets and produce a monetary donation to the SCC! That's not what I meant. True, money from any source would be beneficial and greatly appreciated, but who would expect blood from a turnip? The best donation that students can make to the Student Center movement is to become a part of it. The time and talents of every REBEL will be the motive force of the SCC.

Compare building a student center to ants building a nest. Two ants can carry a considerable amount of sand out of the nest site in two weeks. Two-thousand ants can carry out 1,000 times as much sand in the same amount of time. The comparison is not mathematical, however. It is one of time. The original two ants may persist and get the nest built for the entire colony to move into but look how much faster the entire colony can do the job!

Don't go running off to the Student Center site and start carrying sand away! Getting to the moon and making ant piles are mentioned for the sole purpose of showing some of the problems facing the SCC. Such comparisons are not realistic because the ends and means are different. The only thing that compares with building a student center is building a student center. Student centers are simply not a result of men trying to get to the moon or of ants building a nest.

Since the SCC is embarking into a previously uncharted area, ideas and suggestions and time are being solicited with the fervor and determination of the United Fund in pursuit of a paycheck.

It is all too well understood that most of you do not know the functions of a student center. As an individual, if you fall into this category, find out what the value of a student center will be to you and to NSU. Then, leave your ideas and suggestions in Gr. 114 on a piece of paper labeled "SCC." If you have no ideas to submit, leave your name, address and telephone number there. After all, everyone is equally important in this project. Have a happy Easter.

## ★ EDITORIAL ★

TO BE SURE, the ridiculously conservative support given to the recent Yale Russian Chorus concert of 3/25/65 was appalling by any interpretation. This paper recognizes three major sources of guilt for what was, in essence, an extreme embarrassment to N.S.U. as a cultural institution, as well as a direct insult to a world-renowned music group that was "marvelous, inspiring, artistically brash, and uniquely Russian in musical character".

FIRST, the blame for an attendance of 100 people at this event must be given to the students of the university. No indictment is in order, just pity, for the real "college education" is one which shows an integration of study, social and CULTURAL activity.

TO THE FACULTY of this institution goes the first annual REBEL YELL "As a Whole, We Could Care Less Award". There were only five faculty members out of a possible 75 or 80 that could have attended.

FINALLY, there must be a special award given to those within C.S.N.S. publicity organs who, while knowing of the concert for more than one week, could not come up with any large-scale news coverage or a slip-leaf program of some kind.

TO THE audience that did come, one must say thank you for a highly receptive mod. To those on this campus who rant and rave over the stunted growth of this university, the REBEL YELL included, let it be known that we still have yet to show any concerted cultural impetus behind our demands. The overall support of this concert proved this indubitably!

AT THIS TIME, the REBEL YELL would like to go on record as supporting the library's new fine system. It will force responsible students out of our current "poor" ones, and will afford the library staff an added source of revenue for needed workers and additional resources.

THE ONLY FURTHER addition to library policy that this publication would urge is a more strict code of conduct to be used against so-called "mature college students" who use the library as a place for discussion, truly sandbox games, and personal pranks.

EVERYONE AT N.S.U. realizes that there is no student union on this campus yet. However, does this legalize juvenile conduct out of post-high school youth. There is no person who enjoys listening to the clarion call of a librarian every ten minutes begging groups of college men to shut their mouths.

A SUGGESTION; nothing would make the real students at this school feel better than to see some of these shams booted out of the library on their butts once. Don't let them fool you with the cry, "If you want quiet, why don't you get us a student union?" They are the same ones who would sit by and not help on any project, and when and if a student union were completed would be in the library anyway. What would they be doing? Acting like they always do, for they are juveniles.

A FINAL NOTE must be interjected here on the upcoming C.S.N.S. elections on May 6 and 7. Petitions are out now, they may be obtained in the student government room, and they are due in on April 23. The REBEL YELL urges a record slate of candidates, and support at the poles. This election is of extreme import because of the tremendous growth at this school now, and the expected role of student government in the future. For once, let it be known that the students here really care about the operation of C.S.N.S. government being FUNCTIONAL.

### Vote No On B & G Drivers

The PLAIN fact of life on this campus is that while Buildings and Grounds has called for strict student driving rules, there are members of the department that have less of an understanding for a comprehensive driving code than most college students.

THIS INSERT was prompted by the fact that certain B & G workers show little reasoning

in the way they drive both electric and gasoline-powered vehicles on campus. Students are often driven at with carts, and this paper would like to know why pick-up trucks can't be kept off the sidewalks, especially during rain storms.

THE ISSUE is simple, B & G drivers need some access routes around campus, and some inter-department driving regulations.

**ATTENTION CANDIDATES!**  
**PETITIONS NOW OUT**  
**DUE IN ON APRIL 23**

# THE CAMPUS SCENE . . . .

## GYM FOYER, 8 P.M.

### Talent Show Tonight

The annual Talent Show will be held tonight at 8 p.m. in the foyer of the gymnasium. The event this year is being staged along with an official C.S.N.S. Dance prior to the Easter Vacation.

Prizes for the event will be awarded for the best performances in the following categories:

individual, duo, trio, and group acts. Competition between clubs, sororities, and faculty acts are also welcome.

The judging will be done by professionals this year, and the dance will feature live entertainment by the rounders, and free refreshments. Admission to C.S.N.S. students is free also.

## NU SIGMA Upsilon

The past two weeks have been especially active for members of Nu Sigma Upsilon. On Thursday, March 25, we prepared and served dinner to the members of the Yale Russian Choir which had performed in the gym earlier in the evening. We received words of thanks and appreciation for our efforts and it was a most enjoyable evening.

Out of curiosity, several of our executive members drove out to Boulder City on Saturday, March 27, to cheer on a hardy group of I.K.s who made the Teddy Roosevelt Physical Fitness Hike from Nevada Southern out to the Boulder City Park. We served them lunch in a scenic spot near Lake Mead. Later that afternoon, we drove them back to town as they were unable to walk.

On Saturday, April 3, Nu Sigma Upsilon challenged the I.K.s to a bowling match. It is uncertain who won, as we had a great handicap, but we acknowledge the I.K.s as the

winners. Congrats to them! We also wish to challenge Alpha Omega to a bowling match at a date which is convenient to them.

At our last meeting, a representative member of appa Alpha Theta Sorority and Tom Hribar were our guest speakers. It was an interesting and entertaining evening. Plans for our fashion show are still pending and we plan to present an act in the talent show.

In closing, we wish to commend whoever it was on the REBEL YELL staff that sororities' columns in the last issue of the REBEL YELL. Ha-ha.

## I. K. NEWS

By TOM WINGFIELD

The I.K.'s Christmas tree is gone. It has been looking progressively worse for the past month. Our last attempt to save it was last week when we gathered up all of the spare dogs in the neighborhood and let them fertilize it at midnight on Monday. After this plan failed we gave it up as a lost cause. Last week it was taken to the hospital in a large white cattle wagon. It was pronounced dead on arrival. An autopsy will be performed next week to determine the cause of its death. Its body will lie in state for about a week after which time funeral services will be conducted in the desert behind the school somewhere. It will probably be disposed of by cremation. The flag will be flown at half-mast for two days.

On April 3 the I.K.'s were engaged in a bowling tournament with Nu Sigma Upsilon. A party which was scheduled afterwards did not come off due to

## NEW SHOW IN GALLERY

### KOSTKA ABSTRACTIONIST WORKS NOW ON EXHIBIT

Currently, the Nevada Southern University Art Gallery is featuring an exhibition of paintings by Robert Anton Kostka, the noted American abstractionist from Illinois. The display which runs through April 23 is highlighted by 20 of Kostka's works.

The current show was preceded by a special print sale on April 4 of over 600 reproductions of famous works from the Ferdin and Roten Galleries.

Next, the gallery is scheduled to feature a unique show of original prints by Rocky Mountain artists entitled "Juniper Prints." The opening reception for this exhibit is set for Sunday, April 25.

Information regarding Red Eagle Chapter's presentation of the 1966 I.K. national convention will be available next week. In closing I would like to extend my wishes to everyone for a happy Easter vacation.

## Sigma Gamma

By WARREN SMITH

Sigma Gamma Fraternity is pleased to announce that it is considering affiliation with a national fraternity in the very near future. In past weeks, we have entertained speakers from Tau appa Epsilon and others. Most recently, Mr. Mark Collins, an alumni from Kappa Sigma Fraternity, spoke to us concerning his fine organization, which is among the top ten in the nation. We wish to thank Mark and the others for displaying such an active interest in us.

Final arrangements are being made for the Confederate Cotillion, which is the Annual Spring Formal presented by Sigma Gamma Fraternity. The Cotillion is a traditional event in Nevada Southern's social calendar. We are also working on a scholarship fund to be announced at a later date.

One of our members hosted a party for the active chapter on April 3. Our pledge class sponsored a very eventful outing at Mt. Charleston the previous week. They have also embarked on a fund-raising project for the purpose of financing an upcoming ceremony for the actives. Members of the Beta pledge class are: en Ashton, Ron Barta, Arthur Brown, Phil Rothermel, Steve Cronk, and Ed Werner. Their officers are: Tom Bishop, President, Mel Horwitt, Vice-President, Peter Gutowski, Treasurer, Marty Friedal, Secretary, and Bill Schroder, Parliamentarian.

We regret to announce that Mr. Benny Hofman found himself unable to continue as president of the fraternity, but we are sure that David Gartenburg will continue in brother Hoffman's fine work.

In closing we wish to congratulate Dr. Bradley on receiving his Ph.D. and entering married life, both in the same month. Our sincere appreciation to Dr. Edwards, our new adviser, for his interest in Sigma Gamma.

## BAPTIST STUDENT UNION

The Baptist Student Union, an organization designed to serve as a spiritual link between the church and campus for the student, is sponsored by the Baptist churches in Clark County and the Lake Mead Baptist Association. The officers of this newly formed group are Frank Robertson, President; Phil Carter, Vice-President; Cynthia Staton, Secretary; Herman Westfall, campus advisor, and Horace Duke, B.S.U. director.

The Nevada Southern Chapter of B.S.U. meets every Friday at 12:00 in Fr 105 for devotion and discussion. The meetings are open to all interested Nevada Southern University students regardless of faith.

At the present time, we are planning to attend a Tri-state retreat in Prescott, Arizona on April 30-May 2. All interested students are invited to attend our meetings for more information or to contact Frank Robertson.

We are also making plans to buy land adjacent to the University which will house a two-story student building. We hope to have the first floor as a center for fellowship and business and the top floor as a dormitory which will house approximately twenty male students. We plan to have it open for the 1965-66 school year.

We are also making plans for our first annual Spring Banquet and Installation of Officers for the 1965-66 session. Tentative date set for this banquet is April 16. This will be open to high school seniors and interested NSU students.

We wish to take this opportunity to invite all of you to attend our meetings and to join us in fellowship.

## Model U.N. Committee At Claremont

Nevada Southern's Model United Nations Committee, headed by Professor Lapitan and student coordinator, Bill Daley, attended the Model United Nations Collegiate Meeting of the Western United States last week. The conference began on Wednesday evening, and concluded on Saturday night. N.S.U. represented the country of Hungary in the session.

Attending the event at Claremont College in Pomona, California were Bill Daley, Jackie Womble, Chuck Crawford, Joey "Jose" Peer, Roger Williams, Tracy Goetel, Donna Dent, Eliot Bold, and Pete Howels. Activities at this session included participation in functional committees designed to assimilate those of the actual United Nations.

## TWO LECTURES GIVEN

Two lectures highlighted the first half of April on campus. The first was presented by C.S.N.S., and featured Dr. Ralph Lapp on April 5 who spoke on science in a democratic society.

This Monday evening, the regular campus series continued with an address by Dr. Joseph Wood rutch on the topic "What Are Deserts Good For?" The Lecture was attended by over 200 listeners in the gymnasium.

There are currently two lectures left this season at N.S.U., one each from both series. C.S.N.S. will present Byron E.

Eshelman, the noted jurist, on May 3 to speak on "The Myth of the Law-Abiding Citizen." The next lecture on the regular campus lecture series calendar will be on Thursday, April 29 when Dr. William Siri, the well-known bio-physicist from the University of California, speaks on his experiences with Mount Everest in Asia. This particular address is a bonus lecture.

All lectures are held in the gymnasium at 8 p.m., and are free to C.S.N.S. student body card holders.

## Common Misconceptions Exploded

The Peace Corps, like many other governmental organizations, is plagued by a "knowledge problem." Many people, including a large number of college students, don't know what the Peace Corps is all about.

The misconceptions cover almost every phase of Peace Corps activity, but the truth about the work is simple and less menacing than most suppose. Here are the most commonly offered objections to joining the Peace Corps:

- I don't speak a foreign language. Although some knowledge of Spanish or French is desirable, it is by no means necessary. The Peace Corps teaches you what lingual skills you'll need.
- I'm not physically strong enough for the training program. There's a 79-year-old woman serving overseas. She hasn't done a push-up in years.
- I'm a liberal arts major. So are 70 per cent of all Volunteers.
- I'm a chemistry Ph.D. I can't afford to spend two years digging ditches somewhere when I have to advance my career. How about spending two years teaching chemistry in an overseas university?
- I can't afford it. Although the "hourly pay" is lousy by American standards, Volunteers receive an allowance to pay for clothing, food, housing, and incidental expenses and a readjustment which accrues at the rate of \$75 per month for each month of service, including training. You won't starve, either during service or for sometime after.
- I'll never make it through selection. The requirements are too tough. They are. But so are about 45 per cent of those college students who apply and are accepted.
- I'm a girl. As are 40 per cent of all Peace Corps Volunteers.
- I'm married. There are 580 married couples serving overseas. The Peace Corps just requires that the pair work in the same project and have no dependents under 18.
- I don't want to live alone in some remote jungle town. Don't. You can still join. Volunteers are placed in pairs, unless they want to be alone. Many work in cities, where they sometimes live better than they did at home. The mudhut image is just that, real to only a few.
- I have a girl friend. Take her with you. You can even serve together, if you can take it for two years. (Really.)
- You never hear from the Peace Corps after you apply. Often a request, sent in, for example, in March, that indicates you'll be ready in November is put aside while more urgent requests for June, July or August—are processed. In any event, you'll get a note within a month telling you what's being done.
- If you want to know more, use the coupon in this issue for free information.

This small boy is the child of a leper. He lives with his parents at a large leprosy colony on a hillside outside Addis Ababa, Ethiopia.

# ★ 101 Years After Gettysburg ★

EDITOR'S NOTE: This feature is reprinted from the Mar. 18, 1965 issue of the MANCHESTER GUARDIAN.

President Johnson's resounding challenge to the United States Senate on Monday night was a challenge also to his countrymen. The United States as a whole will be judged by its response to his words. They were meant to ring reproachfully in the ears of every American whose conscience has been troubled by Selma:

"Rarely are we met (the President said) with a challenge, not to our own growth or abundance, our welfare or security—but to the values and purpose and meaning of our nation. The issue of equal rights for American Negroes is such an issue, and should we defeat every enemy, double our wealth, conquer the stars, and

still be unequal to this issue then we will have failed as a people and a nation."

It has been, for the United States, an agonising confrontation and a long one. It is nine years since Rosa Parks refused to give up her seat on a bus in Montgomery, Alabama, and set in train the first major demonstration in support of civil rights for Negroes. It is eight years since Little Rock, Arkansas, became world famous before of the integration issue in the schools. Last year three civil rights workers died in Mississippi. This week it is Selma. To watchers abroad each year seemed to bring fresh proof that the American Civil War had been fought in vain, that the white Americans in the Southern States were resolved even now to make a mockery of Lincoln and his

high resolve "... that this nation under God shall have a new birth in freedom." It is a measure of America's distress that the message Lincoln delivered at Gettysburg in November, 1863, should have to be echoed by his successor in 1965.

This message, like the one at Gettysburg, must affect us all, not just America. The worries of the people of the United States have become in large measure the worries of the Western world. No one, least of all in Britain today, can feel complacent or detached about the issue of race. We have felt the breath of the problem now ourselves and have yet to face it with honesty. The President has put his own nation on trial in the name of its own constitution and of the cause that made the United States. We cannot escape the same challenge.

## FORENSIC MEET

### NSU Hosts 200 Orators In County Tournament

Nevada Southern played host to over 200 high school orators in the Clark County Forensic Meet held during last week. The university campus was used as the site of the individual speech events on last Friday with Rancho High School hosting the debate competition on the following day.

University hosting of the Friday events was co-ordinated through the office of Dr. Harris, Chairman of the Division of Fine Arts and Humanities at Nevada Southern. Headquarters for the tourney was the foyer of the gymnasium building.

C.S.N.S. handled refreshments through AWS, and Nu Sigma Upsilon sorority members acted as campus guides for the visi-

tors. In addition, a number of students from College of S. Utah acted as judges for the meet.

Those individual events in the tournament included original oratory, dramatic interpretation, oratorical interpretation, extemporaneous speaking, and poetry. Trophies were awarded for first, second, and third in each event. There were also sweepstakes trophies given for both the tourney and "out-of-state" championships.

Those schools attending from California were Needles High School, Pomona High School, and Burrough's of Los Angeles.

The university is expected to aid in the staging of the event on an increasing scale in the future.

## LETTERS TO THE EDITOR

(Continued from Page 2)

would think the dorms are already built and inhabited! The press in Las Vegas has a strange habit of total fact distortion... WHAT about the proposed name change of our educational institution? The papers say that the Assembly and Senate have approved the title change, then they contradict themselves. What are we? Univ. of Nevada, Southern Regional Division, at Las Vegas... or... Nevada Southern University? ... if so, why in the hell don't our building and grounds men get off their asses and change the letters (sun-bleached) on the front of our buildings?

#2... What happened to the funds from the sale of the President's first home? I thought N.S.U. was to get all \$52,000.00 to landscape our desolate homeland? Why is everything postponed up north, not only in Carson City, but also in Reno? No doubt the Board of Regents re-donated the money to the northern school in order to finance even more buildings on the Nevada campus, which are just about as necessary as a proposed sit-in demonstration here in Vegas! While we are on demonstrations, let me say this:

#3... The only way we are going to get any action out of anyone is to stage a full-scale riot, to be initiated at 3 or 4 busy intersections along our famed Strip. If we are not willing to risk a short lay-over in the pokey for what we believe is right, then our reputation will be even more aggravated. The moral caliber of our students (myself included) has proved itself already, time and time again. So why not risk being taken in—at any rate we will receive adverse publicity... that is something, fellow students. So many students have been in jail recently for drunkenness or some other "crime" that things really couldn't be worse. I say: "DEMONSTRATE, AND DO IT THIS WEEKEND AND THE NEXT UNTIL WE GET SOME RECOGNITION, just as we did when our team went to Seattle for the semi-finals."

#4... Are "I.K.'s" a fraternity or not? What's this I hear about Sigma Gamma going Kappa Sig? There really isn't an A.T.O. chapter on this campus is there? It seems that if there were it would make itself known, unless it's up to no good. And, no matter what anyone says, I like the Alpha Omega's. All of our organizations here are fairly well established, what we really need are more of them. Membership in a club, gang, sorority, or fraternity means nothing unless there is competition involved. Let's start more organizations, and let's get a little more EXCLU-

SIVE. Vanity, coupled with selected preferences are the keys to social success, as well as collegiate envy.

#5... Now let me hit on the proposed name change of Maryland Parkway. How can anyone rationally want to hold on to such a name as Maryland Pkwy.? It carries too much of an Eastern connotation; I have lived on this street for three years, and I have despised its sound ever since I moved here. Tell me, Rebels, doesn't "UNIVERSITY PARKWAY" or "UNIVERSITY AVENUE" sound a helluva' lot better than the other? I thought we had a petition; I thought it went before the planning commission; and I thought the sole objection was that the cost of changing publicity materials and addresses, etc. was too high. Well... what is going to happen if the commission approves the proposed name change of "Las Vegas Blvd." to the "Strip"? I think this metamorphosis will be five times as costly; however, the hotels will pay and pay good to have their issue passed. We want recognition, and a more pleasant sounding address cannot help but enhance this university's attractiveness.

#... who are the Muck-rakers? What does "ARISE! TRANSCEND ALL HEIGHTS! HE IS COMING!" mean? Who is it who makes these typographical errors in the "Yell"? I have a sneaking suspicion that the linotypists at Bonanza Printers know more than they are telling. And lastly, I thought Art Rader was no longer on your staff, what happened? Internal strife?

I sincerely appreciate this opportunity to express myself,  
HANK SALEEBEY  
Sophomore

DEAR SIR:  
In Mr. Bassing's "Momentous Trivia" column, he stated that we had a "magnificent Theatre. This treatre is equipped with a stage, projection booth, and elevated (sic) rows of auditorium type seats."

We wish to make it quite clear that there is not theatre in the Social Science Building. It is a lecture hall. Under no stretch of the imagination can this room be called a theatre.

In Dr. Harris' office is the final blueprint for a theatre which cost the state approximately \$20,000 four years ago. We hope to have a new theatre approved for construction by 1967. Meanwhile, the large lecture hall will serve its purpose—to house students to hear lectures and to see movies.

Sincerely,  
PAUL C. HARRIS  
JERRY L. CRAWFORD

## Move of Polling Place Considered

C.S.N.S. election officials are now considering a suggestion by some campus leaders and numerous students who have urged moving the voting poll for the May elections to a central place on the university campus so as to afford voters greater access to the vote.

In the past, students have been forced to vote at the C.S.N.S. offices in Grant Hall. Don Malone, Elections Committee Chairman, is currently considering the proposal, and a pronouncement on the issue is expected early next week. It is expected to be approved.

## NEW BUSINESS FRAT FORMING

The first organizational meeting of the Nevada Southern University Commerce Club gathered at Grant Hall room 239 on April 4, 1965. It was decided that the club would bid the national organization of Alpha Kappa Psi for membership.

Officers elected pro tempore are John Lewis, president; Ed Bazar, vice president; Jerry Schurr, secretary; Bruce Luria, treasurer; and Mike McCullough, master of rituals. The club sponsor is Doctor Fischer.

Dr. Johnson, an alumnus of Alpha appa Psi, came to the meeting and gave background information on the organization, which is the nation's oldest National Greek Business Fraternity.

Next meeting will be at 7:00 p.m. in Grant Hall room 239, April 25th. Anyone desiring information about the club should contact one of the aforementioned people.

## CONSTRUCTION DUE SOON ON NEW RADIOLOGICAL COMPLEX

Work is set to begin soon on the Radiological Health Research Complex of the Public Health Service's current development west of the Science-Tech Building soon.

Equipment was scheduled to be moved into the construction zone this week; however, the rain has slowed operations. The complex is to be one of the most

modern of its kind west of the Mississippi, and the cost is expected to be near \$4.4 million.

The complex itself is actually four separate buildings which together will house research facilities as well as seminar classrooms which may be utilized by the bulging university science department.

The major construction contract has been awarded to Tiberti Construction Co., of Las Vegas. The complex is tentatively set for completion early next spring.

## CINEMA TO PRESENT GERMAN FILM

"THE CONFESSIONS OF FELIX KRULL"

Campus Cinema presents the German movie "THE CONFESSIONS OF FELIX KRULL" as its fifth in a series of outstanding films, this Friday, April 23.

The story, based on Thomas Mann's last novel has been brought to the screen with its charm intact. It is a testimonial to Mann's wit, gaiety, and robust quality of genius.

Join Horst Buchholz on a tour of the follies of man with a scoundrel at the helm of every adventure, beginning in Imperial Germany at the turn of the century to a Paris hotel, backstairs and "front."

Come see an astounding performance... daring and sophisticated... Horst Buchholz is charming, audacious, handsome, sly, unprincipled and unrepentant.

Campus Cinema is located in Grant Hall room 129. Showtimes Friday, April 23, are 3:00 p.m., 8:00 p.m., and a special 10:00 p.m. show. Tickets go on sale at 2:30 p.m., 7:30 p.m., and 9:30 p.m. Admission is \$1.00.

## OOPS, STUDY ROOM ARTICLE OUR MISTAKE

In the last issue of the REBEL YELL, there appeared a story which stated that the "Nevada Southern Library Committee" had revealed that there would be new study rooms established on campus.

It seems that the entire article was false, and took the form of a hoax. The REBEL YELL wishes to apologize to both the faculty and student library committees for an inconsistency in reporting.

# GODOT CLOSES RUN WELL-CAST DRAMA

By DIANE ARMSTRONG

The Nevada Southern Little Theatre is to be applauded for its outstanding efforts in the staging of Samuel Beckett's two-act tragi-comedy, "Waiting for Godot." The play is a unique type of drama from the movement called "The Theatre of the Absurd," which incorporates the theme of the existentialist: the absurdity of man's existence.

The production, thoughtfully dedicated to the memory of Dr. James R. Dickinson, was under the skillful direction of Dr. Jerry Crawford, and clearly shows the conscientious preparation of those on-stage and off-stage. The presentation also demonstrated the need for a modern theatre at N.S.U.; the Little Theatre should and must have the facilities that they deserve.

The parts were cast perfectly: Brodie Graves (Estragon) and Richard Volpe (Vladimir) are delightful bums, varying their talents in a display of mercurial emotions, alternating rapidly from vaudevillian hoofing and riotous humor to the depths of despair. Harry Hambley was a perfect Pozzo; he dominates even the audience, who cringes with each whiplash and sten-

torian command hurled at Lucky. Barry Fehler was convincingly grotesque as Lucky, the slave; he awed and frightened the audience with an oratorical scene and an unexpected onset. Robbie Hall effectively portrays a fawning shepherd boy.

The production was excellently staged, with startling special effects. The make-up added to the often ghostly effect created by the lighting. The lights changed with the mood, serving to create and then to relieve monotony in the sceneryless setting. The audience felt an active participation; they saw the humor in despair, and they too suffered the agony and tedium of waiting for Godot.

Who is Godot? Could he be God, or man's absurd, yet unconquerable hope, or even death? The solution is left to the individual, for Samuel Beckett asserts, "If I knew what was meant by Godot I would have said so in the play." The play begins and ends with a question mark; the answers are as varied as the evocative symbols used that mean something to almost everybody. Regardless of interpretation, Estragon and Vladimir remain as they were: waiting, waiting . . . for Godot never comes.

WAITING FOR GODOT completed a record run last week under the direction of Dr. Jerry Crawford. Shown above (l-r) are Brodie Graves as Estragon, Harry Hambley as Pozzo, Barry Fehler as Lucky, and Vladimir was played by Richard Valpe. (R-Y Photo)

## N.S.U. Newmanite Elected Regional President for '66

Recently Michael Barry, President of the Newman Club here, was elected Chairman of the Arizona-Southern Nevada Province at the annual Province convention held in Tucson, Arizona, on March 26, 27, and 28. Nominated by C.S.N.S. President Bill Daley and seconded

tinguished himself through his work in C.S.N.S., especially on the Publicity, Judicial, and Constitution Committees, and as a feature columnist with the REBEL YELL. In the Newman movement his credits are even more extensive. As treasurer of the local club he attended the National Newman Convention in New Orleans in 1963. At the 1964 National Convention in Milwaukee he served as a member of the National Resolutions Committee. This past year he worked as a member of the Province Executive Committee and held the Chairmanship of the Constitution Committee, also on the Province level. As Province Chairman he now heads the Province Executive Committee; in this capacity he recently attended the spring meeting of the National Newman Executive Council at Mankato, Minnesota.

An organization experiencing the growing pains of our ever-expanding university, the NSU Newman Club just last year received recognition enough to warrant the addition of "Southern Nevada" to the Province name. One of the more active clubs in the Province, never before has N.S.U.'s capacity for leadership been so widely acknowledged. With this in mind we can confidently anticipate the beginning of something great—not only for Mike and Newman but also for Nevada Southern.

MIKE BARRY

by Phoenix College Newman Club President Jay Hawkins, Mike defeated Benny Ford, a U. of A. graduate student and past Province Internal Affairs Vice-President, to receive the office. Following the contest for Chairmanship, these officers were chosen to fill the remaining Province positions: Internal Affairs Vice-Chairman—Diane Carney, Phoenix College; External Affairs Vice-Chairman—Vicki Bach, Arizona State University, Tempe; Extension Vice-Chairman—Benny Ford, U. of A., Tucson; Treasurer—Terry Bahill, U. of A., Tucson; Recording Secretary—Janna Barstow, U. of A., Tucson; and Corresponding Secretary—Sandy Rydzewski, N.S.U., Las Vegas. Father Bayne of Arizona State College, Flagstaff, was chosen by the area chaplains to continue as Province chaplain for the coming year.

The Arizona-Southern Nevada Province is composed of 8 clubs—7 in Arizona and 1 in Nevada—ranging in size from the U. of A. in Tucson and A.S.U. in Tempe to N.S.U. here in Las Vegas. To date Mike is the first Province Chairman to come from N.S.U. A sociology major and one of the more active students on campus, Mike has dis-

NEVADA SOUTHERN "BIG-TIME"

Drakulich Shows Distaste Over Cage Press Reviews

Athletic Director, Chub Drakulich, in an informal discussion with REBEL YELL Editor Jack Abell, disclosed what could be described as "mild anger" over the current description of N.S.U. basketball as going "big-time" in 1966 by sports writers in the Las Vegas press recently.

It is Drakulich's contention that Nevada Southern did not plan on 1966 as the year to go "big," but rather that the trend has been for Rebel basketball to mature at such a pace so as to naturally cause a move toward more powerful teams. For example, explaining the situation, he noted, "Take the University of California at Riverside, they won't play us any more, because we are too strong for them. We've won nine in a row from them."

Another point brought up by Drakulich was that many of the teams the Rebels have on tap for next season are not making a specific trip to Nevada Southern, but merely "passing through on their way to another contest." Baylor University is a perfect example of such a situation next year.

In addition, he commented on the rushing of publication by writers of various games, some of which are not even confirmed. One local writer had the Rebels already set for an eastern swing with N.S.U. facing teams such as Buffalo, Niagra, and Kent State of Ohio. Actually, Nevada Southern is trying to decide on a trip east or one south. The problem is lining up three games in a row. Which ever section of the country can fill the order first will be the site of the trip in 1966.

Regardless of the arguments against "big-time" phraseology, the basic fact of "athletic life" at N.S.U. is that the Rebels are on the way to a mature cage program. "Big-time" basketball is literally defined as "playing major teams; not necessarily just having a large enrollment." Such schools as U.S.F., Loyola of Chicago, Evansville, and DePaul are examples of basketball powers with small campus enrollments.

Confirmed opponents for the Rebels at home for 1966 include Gonzaga, Baylor, University of Wisconsin (Milwaukee), Idaho State, Montana State, and University of Portland. The schedule is not yet finished. Regardless of Chub Drakulich's modesty, 1966 is a giant step in Nevada Southern basketball history.

SPORTS CALENDAR

- Apr. 17—BASEBALL — REBELS vs. University of Wyoming (2); 11 a.m., Cashman Field
Apr. 23—GOLF — REBELS vs. Mt. San Antonio College, at Pomona
Apr. 24—BASEBALL — REBELS vs. College of Southern Utah (2), at Cedar City, 11 a.m.
Apr. 26—GOLF — REBELS at Loyola of L.A.

SUPPORT SPRING ATHLETICS

THE INSIDE PITCH

By LARRY KEEVER and HARRY MALONEY

"Baseball is a game consisting of nine players. Just for the record, N.S.U. does play baseball."

Yes, it's baseball season at Nevada Southern and where have you been? The Rebels are off to what appears to be their finest season in the schools history with an impressive record. The victory fever at N.S.U. hasn't stopped with the closing of the basketball season, but the student support has. There is no admission fee, and the games are played at nearby Cashman field at convenient times. Saturday afternoon is a perfect time to support your team, so hurry on out.

Coach "Chub" Drakulich's power and speed tactics have paid sizable dividends throughout the early part of the season. With speed and lightning reflexes, the Rebel nine has marked the basepaths in an enigma of terrifying quickness. This speed is manifested in the alertness of such top base runners as Frendy De Jong and Dee Jeffers. The Rebels are stealing bases at a pace worthy of Jesse James envy.

Power to spare is the motto this year; the Rebels, having belted 10 home runs in the same period that last years squad accumulated only one. The fabled wrists of Ernie Banks and Hank Aaron are not alone. Don Knapp, N.S.U.'s rugged second baseman, has lashed out four home runs and Dee Jeffers has blasted 3, adding support to the "power fund".

This year's squad boasts eight .300 hitters. Leading the Rebel sluggers is Don Knapp, .375; from the Knapp family we are hopefully expecting a little Rebel second sacker within two months. Bruce Lane is hitting .350; Lane is the only left hander among the eight regulars, oh well, we can't all be perfect. Next is Steve Pribersky, .350; Steve spends his spare time in an unusual fashion, sky diving, which he picked up serving for the Marines. Al Caponetta follows at .347. Al, this years hatchet man, has recently given up his prized bachelorhood. Scrapy Dee Jeffers is hitting .333; it has been said that when Dee smiles there are no lights needed to brighten the field. Frendy De Jong is batting .318. He is this year's pretty boy. Dennis Duesing is hitting .303. Last year's opponents ridiculed Denny for his fielding finesse, but this year Dzy's bat has taken the sarcasm out of the opponents tongue. Russ Sanserino is right on the border with a .300 average. Russ reminds you of Brooks Robinson at third, except he has something over "Robbie"; Russ plays for the Rebels.

This season's pitching staff has performed superbly thus far on the mound. Bruce Berman is off o a great start. He has compiled a 4-1 record with his timely change of pace. Big Lee Syphus has been coming on strong since an early season injury, to chalk up a perfect 3-0 record. The man in the bull pen, Steve Overstreet (1-2) has developed fast and should be much stronger the remainder of the season.

The eight starters can't afford to slack off any with this year's fine Rebel bench. The number one sub has been Jay Hill who has 4 for 5. Shelly Wright, Richard Bell, David Glascock, and Steve Tuchfarber have all showed fine potential. Joe Lupo, a Gorman product, who is ineligible this semester, is this year's manager. Local Rebel fans are beginning to wonder if Jerry Goyeneche isn't Casey Stengel's cousin.

Jerry has done a great job as assistant coach and undoubtedly will do a fine job in the future.

As many coaches struggle to improve their base ball program, "Chub" Drakulich and Jerry Goyeneche have succeeded in raising the caliber of baseball at Nevada Southern University. Just for the record, the Rebels are here to stay.

Nevada Southern Should Initiate Gymnastics

The recent NCAA National Gymnastic Championships held at Southern Illinois University two weeks ago, and presented by the NBC Television network last weekend (Sunday) carried with it a sharp point of interest, why no NCAA participation by Nevada Southern in GYMNASTICS?

The issue is not one of great import, but gymnastics is a growing sport, especially on the collegiate level, and N.S.U. could gain much recognition with very little monetary output by the athletic department.

Within the Southern Nevada region alone, there is a wide array of talent, and in collegiate competition in this sport, the size of the school is of secondary importance. San Fernando Valley State, for example, proved to be one of this year's strongest teams, and yet they are not a tremendously large institution.

It is only a suggestion, but Nevada Southern could build a unique clientel in this sport.

Rebel Yell SPORTS

UP RECORD TO 9-4

Baseballers Dump VAFB, Split With CSU Saturday

WIELOCHOWSKI UNDERGOES KNEE SURGERY

Ron Wielochowski, N.S.U.'s most defense-minded basketball star, underwent an operation at Southern Nevada Memorial Hospital late last month for an injured knee.

The injury, which kept Wielochowski from playing in the NCAA Far Western Regional Tourney, was hurt in the home game with Los Angeles State late in the season, and then, the following night was completely immobilized in a game against Montana State University.

Athletic spokesmen from N.S.U. stated that the knee will undergo summer treatments, and Wielochowski is expected to be ready for action next season which opens in December.

NEW SEATS

Playing Field Receives New Bleachers, Landscaping

The Building and Grounds Department, working in association with Athletic Director Club Drakulich, is currently constructing permanent bleachers for the playing field south of the gymnasium complex. The modern structures will be steel-reinforced.

The erection of the seating facilities is part of the modernization program underway at the baseball diamond, and is eventually scheduled to transform the field into a well-groomed athletic facility.

Three separate seating sections are being built, each 16 feet in length and thirteen feet high. They are expected to seat 300 persons for baseball games. The field itself is currently undergoing complete landscaping and modeling. All work is done by university athletic students and Buildings and Grounds.

Construction of the seats is expected to take three months.

GOLFERS BEAT ASC BY CLOSE MARGIN

On March 26 and 27 the Golf team hosted Arizona State College at the Tropicana Country Club. They dropped a very close match on Friday 19-17, but on Saturday dumped ASC 21-15. Van McCarlie carded the low score the second day with an excellent 75. Vandenberg AF was here for matches on April 2 and 3. The airmen won the first match 19-17 and the weather man won the Saturday match with rain.

The "team ladder" as Coach Ed Gregory calls it is: 1) Van McCarlie; 2) Jim Schwerin; 3) Rick Hollard; 4) Blaine Yoho; 5) Marshall Deutsch; 6) Ray Demman; 7) Jim Roberts. The only big change since the start of the season has been Yoho who jumped up 2 positions after the Vandenberg match.

Nevada Southern's baseballers concluded the first two weeks of April diamond action last Saturday at Cashman Field against the College of Southern Utah in a twin bill, splitting with the T-Birds. The Rebs won the opener 3-2, and lost the second contest, 14-7.

On April 2, the Rebels played host to Vandenberg Air Force Base in a single game, winning, 8-3. The second game of a two game series was called due to rain on April 3.

In last Saturday's contests, the third and fourth meetings between the two teams this season, Bruce Berman whiffed 13 CSU batters to outduel former Las Vegas High School pitching ace Hank Halverson in the opener.

The Rebels grabbed the win by scoring two runs in the bottom of the fourth. Dee Jefers tripled and was sacrificed home by Freddy de Jong with the tying run, then Dennis Duesing scored the winning run on a single by Bruce Lane.

CSU collected 14 hits in the second game off losing pitcher Lee Syphus and Steve Overstreet. Winning pitcher Dennis Osgood struck out five.

The split left NSU with a 9-4 season record. Berman is 5-1, Syphus 3-1.

N.S.U. hosts Wyoming in a doubleheader this Saturday, also at Cashman.

Saturday's line scores:

Table with 2 columns: Team, Score. Col. of Southern Utah 110-000 0-2 8-1, Nevada Southern 100-000 3-7 1. Halverson and Shannon, Berman and Jeffers. 3B—Jeffers and Duesing (NSU), 2B—Baekus (CSU), WP—Berman (5-1).

Table with 2 columns: Team, Score. Col. of Southern Utah 200-703 2-14 14 2, Nevada Southern 004-000 2-7 9 4. Osgood and Wood, Syphus, Overstreet (5) and Jeffers. 3B—Johnson (CSU), Lane (NSU); 2B—Johnson (CSU), WP—Osgood (1-1), LP—Syphus (3-1).

A.T.O.

The A.T.O. Club, a local fraternity, was organized on campus in February of this year. The Club is functioning as a social fraternity with objectives of good fellowship and university and community service. A.T.O. Club is especially interested in promoting a spirit of co-operation between the other campus social and service groups.

A.T.O. sponsored an outing at Lee's Canyon in February and a party with the Alpha Omega Sorority in March. The Club hopes to have at least two more social functions before the end of the semester.

The A.T.O. Club has proposed an intermural sports program for and with the University's other organizations. This project is in the planning stage at present. The A.T.O.'s have also pledge their support in the construction of an N.S.U. float for the Helldorado parade and other C.S.N.S. activities planned for the remainder of the school year.

A.T.O. meets every Tuesday night at 6:00 p.m. in Room 105 of the Science-Tech Building. Anyone wishing further information concerning A.T.O. may contact Rick Kohlmeier (878-2271), Joe Morrow (642-5518), Jim Cook (737-2049), or Jerry Goyeneche (735-5857).

EDITOR'S NOTE: This column appears here because it was too late for the page on THE CAMPUS SCENE.
