CSNS Senate Censures

The CSNS Senate passed a three-part resolution on Thursday, May 1 censuring President Mike Clark and Election Committee Chairman Rona Shore. The third part called for the consideration by the next joint session of the invalidation of the April 25 and 26 elections.

President Clark was to be charged with shirking his Constitutional duties by not advising Miss Shore of election procedure. Allegedly, due to this negligence, the elections did not follow CSNS By-laws, ignorance of them being no excuse.

Clark was informed of the charges and was invited to the meet-

ing an hour before. However, he did not attend to defend himself.

The Senators did not feel they could censure on these grounds, without allowing for Clark's defense. So they censured him for lack of faith in the Senate, and disregarding of the system of checks and balances exemplified by his absence.

The action was taken because Clark could successfully avoid any further Senate meetings, thereby avoiding censure.

Censure of Election Committee Chairman Rona Shore was upheld on grounds that she "did not realize

nor fulfill her constitutional obligations, in that the election was not conducted according to the rules outlined in the CSNS By-laws."

The second reason was "That the Election Committee Chairman has refused to invalidate said election, though when questioned as to legality of it, she admitted that the election rules set down in the By-Laws WERE violated."

"She stated, 'Ask for my resignation, but don't ask me to invalidate this election'."

The last section of the resolution requested that a joint session be convened as soon as possible to consider the Judicial Board's decision concerning the validity of the April 25 and 26 election.

Student Body President Mike Clark is the only person who can call a joint session. An override of the judicial decision would require a two-thirds vote of the Session.

The first two sections were passed by a vote of 3-2-0, the third and final section, by a vote of 4-1-0.

The Senate took this stand as a result of lengthy discussion, not only from Senators, but from Judicial Board members and interested students present at the meeting.

Mr. Frederick Hetter, Mr. Robert Kaplan, and Mr. Eugene Dawson (left to right) burning their contracts at a recent AFT demonstration.

- Photo by Bob Leavitt

CSNS Election Over; Voting Results Given

CSNS elections are still being contested, and whether or not the balloting results here reported are final is not known at present. The winners of the April 26 and 26, and May 2 and 3 elections are:

Executive positions: President, Bill Terry; 1st Vice-President, John Daleske; 2nd Vice-President, Randy Frew; Secretary, Marie Christensen; Treasurer, Johnny Clark; Pep Commissioner, Val Stewart.

Legislative positions: Senior Senators, Bob Cummins and Mike Mullaey; Junior Senators, Mike Stuart and Mike West; Sophomore Senators, Dan Roman and Dan Pitts.

AWS positions: President, JoAnne Janes; Vice-President, Joni Hurst; Secretary, Judy Fleishman; Treasurer, Sharon Dillman.

Cotillion Queen results were also included on the second ballot. The Queen for 1968 is Marcia Anderson. The first runner-up is Rhonda Adams and second runner-up, by write-in ballot is Sigrid Moe.

Congratulations to all winners.

Business Offers Summer Courses

A large variety of undergraduate and graduate classes from economics to typewriting to management and corporation finance will highlight Nevada Southern University's School of Business Summer School starting June 10, according to school director Dr. William T. White.

General business courses will be held for a period of six weeks, through July 17, while classes in accounting, including elementary and intermediate accounting, auditing, tax accounting, and cost accounting, will be held for eight weeks, through August 12.

In addition, the Department of Hotel Management will offer several two and three week courses.

Registration for the school will take place on June 10. Further information about the summer sessions can be obtained from NSU's Office of Admissions in Frazier Hall or from Dr. White in Grant Hall. Phone inquiries can be made at 736-6111, ext. 243 or 362.

Judicial Board Rules On Election Validity

The CSNS Judicial Board came to a stalemate concerning the case presented to them by Chuck Crawford, contesting the April 25 and 26 elections. The decision announced on May 1 was 2 for the case, 2 against it and 1 abstention.

However, the Board met again on May 2 to remove the deadlock. The abstention was registered as a "no" vote, resulting in the announcement of a 3-2-0 vote, declaring the elections valid. Although five Board members were not present.

There is a resolution before the CSNS Senate questioning the decision change. Robert's Rules of Order, which according to the CSNS Constitution, the Judicial Board must operate under, states, "A member has the right to change his vote up to the time the vote is finally announced."

The resolution states, "The decision 2-2-1 was announced and was

general public knowledge before a change of vote was made. Unless there is a roll call vote, there is no change of votes."

It contends further that "An abstention may not be changed since it is considered present, but not voting."

This resolution will be decided upon at the next Senate meeting on Wednesday, May 8.

Judicial Board Chairman Chuck Jilbert stated that the members will have to meet again on the issue of election validity. There is still the matter of absentee ballots to decide.

Crawford's case states, among other points, that absentee ballots were not provided for students who would not be in town for the elections, and therefore their right to vote was violated. The board, as previously stated, has not made a decision on this issue yet.

Crawford Resigns

\$10,000 Granted For NSU Research

A \$10,000 research grant to Nevada Southern University has been approved by the National Institutes of Health, Senators Alan Bible and Howard Cannon announced today.

Bible and Cannon said the funds will finance the first year of a three-year study by the Desert Research Institute on the adaptation of man and animal to desert and mountain living.

The Nevada senators said the grant will become available June 1. Dr. David Dill is the project supervisor.

Chuck Crawford resigned last week as First Vice-President because he wanted no actions in his campaigning for Terry Lindberg to reflect on his office.

His resignation came after he had submitted the case to the Judicial Board contesting the elections.

After Crawford turned in his resignation, Mr. Lindberg decided not to run for re-election even if there would be one. Since there was no reason for Crawford's resignation, he asked Mike Clark, president of CSNS, for his resignation back. Mr. Clark decided to keep the resignation.

There is no First Vice-President now. Mr. Clark will have to appoint a new First V.P. with the approval of the Senate and Executive Committee.

Random Selection of Teachers Give Opinions of AFT, Picket

(Editor's Note: After the American Federation of Teachers picket, a REBEL YELL reporter interviewed a random selection of teachers on campus and found many varying views of the AFT. The following are just a few.)

Dr. Robert Kaplan, philosophy, said, "The AFT is the best hope NSU has to achieve a satisfactory relationship between the administration and the faculty. At the present time, NSU is organized like a feudal hierarchy in which all the power is from the top down. Consequently, the administration has all the power and uses it for its own interest and not for the faculty. This may be the only school like this in the U.S. The function of the union would be to create a balance of powers in which all interested groups would be represented."

"There is a tested and proven system in the American form of government and business. The purpose of the picket was to demonstrate to the administration that the union is a force on this campus that must be recognized and dealt with. The administration ignored the union's plea to talk and the result was a great deal of publicity that both the union and administration would have preferred to avoid. The union would prefer to talk the problems to the administration rather than being forced to appeal to the public."

"The administration made no overtures of the union to discuss problems either before or after the demonstration. I will continue to live in Las Vegas and intend to sup-

port myself with part-time jobs which leave me with the free time, that teaching has not provided, to pursue my interests in the study and writing of philosophy. I have never sought nor accepted a teaching position in another university."

Dr. John D. Lindberg, Assistant Professor of German and Chairman of the Foreign Language Department, does not belong to the AFT. "I don't approve of its tactics and procedures and I feel that my professional interests are adequately preserved by the American Association of University Professors. Furthermore, I don't believe at present there are any issues on which the administration has not been willing to act on. I disapprove of the picket; a university is a place of study and this should be preserved."

Dr. Robert Pearsall, Chairman of the English Department, also does not belong to the AFT. "I approve of most of the objectives of the AFT, but the picket was amateurish and vague."

Dr. Richard Byrns, Director of the School of Humanities, said, "In general, I am in favor of any activist faculty group because the faculty needs an organ, that gives them a strong voice in education policies whether that be the AFT or the AAUP. The AFT is going about some desirable objectives in some undesirable ways. I felt the picket wasn't too effective because the public has to look at too many demonstrations and they lose effectiveness. I thought it was a pleasant operation." Dr. Byrns doesn't belong to the AFT.

Mr. Allen Weitzel, Instructor of Speech, does not belong to AFT. "I endorse the goals of the AFT. I

think the picket has inspired a healthy controversy."

Dr. Paul Burns, Chairman of the Department of History, is an ex-AFT member. "I believe in the rights of organization to pursue goals. The picket was conducted well. The contract burning was both meaningful and meaningless because they weren't going to return next year."

Dr. Howard Chase, Chairman of the Music Department, is also a non-member. "A teacher's organization is essential to get a consensus of opinion and a direction of goals for teachers. The picket was conducted in an orderly manner."

Dr. Ralph Roske, Director of the School of Social Science, said, "Teachers need to be in some kind of organization. They need more members to be of any significance. The picket is not the best way to handle this problem because it closes doors that would have been open. Some of the goals of AFT are great but a goal of better instruction is needed." Dr. Roske is not a member.

Dr. Frederick Hetter, Assistant Professor of Political Science, is a member of AFT. "It is the only effective means of achieving representation and influence for teaching personnel. It brought popular attention to the personnel and university and the community in general. As a result, the people of this county and state now know of some of the problems and can decide what they want in their university."

Mr. Herman Van Betten, Instructor in English, is a non-member as yet. "I am in sympathy with some of their causes but not all. The picket was successful but the issues were not too clear."

LOST — One Student Body President

By RITA HADDAD

CSNS President Mike Clark has indeed been a quiet, behind-the-scenes man this year. Yet it seems he has slipped so far behind the student government scenes that he has apparently lost sight of the obligations encompassed by the position of importance he is assumed to occupy until June, 1968.

Perhaps the masses were seldom aware of Clark's presence last semester, when much of his time was devoted to playing the executive role. As it should be, concern for student affairs and general university problems were the central themes of that role.

However, as the old semester passed, with it passed this characterization. Stands were not taken one way or the other on issues of great importance, such as removal of a GPA requirement for CSNS officers and administrative interference in student union affairs. No statement was issued by the chief executive concerning the AFT or Choice '68, among others.

The REBEL YELL squirmed under the thumb of "creeping administration" last semester, yet we saw no champion defending freedom of the press.

The obligations of the presidency are numerous and the responsibilities, countless, but realization of this should have taken place at the beginning of the year. When we needed a firm executive stand, we had none.

Since the elections of April 25 and 26, CSNS has been in limbo. Name-calling and accusations have brought about irreparable damage to personal feelings of so many who have worked the whole year long, not for themselves, but for CSNS.

Senators receive \$7.50 a month, hardly an enticing sum, yet these people have given of time and conscience for just that sum. Upon closer inspection, however, it becomes obvious that a sense of duty and deep personal convictions are the real motives.

The president's salary is \$110 a

month. President Clark states he also feels conviction concerning the government, though perhaps it was not so blatantly exhibited. But if this is true, we ask him now not to lose sight of what we are all working for.

We ask him not to close his eyes and mind to the views of others, which is the height of ignorance. If he can see his way clear of the low calibre of politics being used lately, he may see the mockery being made of his position and all of CSNS.

We have waited for executive action all year, and when it is finally taken, it makes a bad joke of CSNS, its Constitution, and everything it stands for.

Sides have been chosen, and battles have ensued, but is this the purpose of government? Are the branches of CSNS to remain split by a credibility gap caused by opinion differences?

A joint session has been requested by the Senate. It is the only way the Judicial Board decision of election validity can be discussed and it is the only body that can give lifetime memberships. Mike Clark, Bruce Heskett, and Chuck Crawford are the nominees.

Mike Clark, if you read this, think for a moment of the person you claim to be. Think of the platform you promised one year ago, of CSNS, what you are doing to it, and what you will remember when you leave.

You claimed to me that you have no trouble sleeping at night, in reference to disputes which have arisen since the first election.

Apparently you are making yourself oblivious to those closest to you in this government.

Don't turn a deaf ear to us; we are doing what we unquestionably believe to be right and what you pledged to do upon assuming the presidency of this confederation:

We are upholding the document that creates and maintains us, the CSNS CONSTITUTION.

Letter to the Editor

Dear Dr. Kaplan,

The purpose of this letter is to express to Dr. Eugene Dawson, Mr. Fred Hetter, and yourself my feelings about yesterday's contract burning.

Having taken four classes from you and one from Dr. Dawson, I can say that the burning was for me a sorrowful occasion. Together with the unreasonable and, as yet, unexplainable dismissal of Mr. Serpa and Mr. Pukas, it means that NSU has lost several of our finest faculty members, (and, controversial or not, these men provided the academic diversity which I have always felt is essential if our university is really to be worthy of the name).

Since the administration is consistently silent concerning the grievances of both students and faculty, the most I can do is assure you that I will continue to support the A.F.T. or any similar organization which demands that administrative silence be broken and that the rights of faculty and students be immediately acknowledged.

I know now that there is more than one Herbert Diamante.

Hopefully,
BRUCE ADAMS,
friend and student

Small Ideas Hinder Growth

By PAM PHILLIPS

(Ed. Note: Any relationship to any persons living or dead is based on "If the boot fits, wear it.")

Once upon a time, for instance, a man named Baffle (or Smith or Jones) walked down a rough gravel pathway. All of a sudden he stopped in his tracks and sat on the ground in a most uncomfortable position. He sat there blocking the path for a while, and several people passed by. They walked around him or over him, excusing themselves as best they could, preferring not to get too involved in talking with him.

Eventually along came another man who sat down with Baffle and listened to him talking; another soon joined them, and before long the path was crowded with a conglomeration of fat, thin, and middle-sized bodies. Eventually, they were also spread for some distance on the lawn; they were not so easy now to circumvent as Baffle had been when he was alone.

The word spread rapidly, and before too long, everybody wanted to know what it was Baffle was saying. Some decided to go and fined out for themselves, but others listened only to what they could hear via the grapevine. They were the ones who walked a different path; anyway it was paved and far more simple to walk on.

Baffle and his friends continued to sit on the path, though many Important People asked them to move discreetly (and not so discreetly). But none of them really felt like moving, for by now they felt quite caught up in sitting there. And some people Just Stood around and Just Watched, for they were Always interested in Just Standing Around and Just Watching.

And some people came and took pictures for they thought it was all very amusing; and the word was spread to their friends, who discussed it over their dry martinis.

And Baffle continued to sit on the path; and his friends stayed with him, and very great once in a while another human being would join them.

But the world is very BIG, and Baffle was just a small man, and when a strong enough wind came along, Baffle and his friends were dispersed in the BIGNESS to places that were BIGGER. And they left behind them the smallness, and the smell of burned and charred paper could not cover the Stink.

AEP Goes National

By DAVID T. KATZMAN

Jerry Gordon, a spokesman for Nu Sigma Chapter of Alpha Epsilon Pi Fraternity has announced formal affiliation with the national organization which will be celebrated with a banquet dinner to be held on Sunday, 7:00 P.M. at Caesar's Palace.

Gordon also said that Saturday evening a private party will be held at the newly purchased fraternity house, 1569 E. Flamingo Rd., and entertainment was expected to be provided by the Free Circus and a small jazz combo.

Approximately 200 friends, guests, and brothers from Southern California and Northern Arizona are expected to attend the week-end festivities.

Local alumni to be honored at the banquet include Dr. Joel Adler, optometrist, engineer Ray Kalter, NSU lab technician Ray Kopf, accountant Jeff Silver, and attorney Leonard Gang who will be toastmaster.

Prior to the banquet dinner eight new actives will be formally initiated. They are Steve Berck, Chuck Collins, Bob Dickinson, Roy Doig, Bob Jasper, David Katzman, Ron Skurow, and Mike Melnick.

The initiation ceremonies will mark one year since Alpha Epsilon Pi became a colony of its national counterpart. Mr. Harold Berman, Supreme Lieutenant Master from Phoenix, Arizona, will be awarding the national charter to the group.

Other members of the fraternity are Jerry Gordon, Ron Hayworth, Larry Brown, Dave London, Wayne Gorcey, John Kline, Larry Baum, Henry Pepper, and Stu Kopelman.

Epilogue To Publish

Because of the addition of pages to this year's *Epilogue*, it will be possible to accept selections from anyone who has pictures of the school, campus activities or otherwise concerning NSU.

Pictures must be black and white, 8x10 glossy, and of high quality.

According to editor Hal Whipple, pictures submitted and included in the book cannot be returned, but photo credit will be given for each photo used.

Pictures should be submitted to the *Epilogue* office, TH 116.

Society Initiates 41

Nevada Southern University's newly formed Phi Lambda Alpha Honor Society initiated 41 students recently.

Limiting its membership to first and second year students, Phi Lambda Alpha is unique among university honor societies as selection may occur from among two-year associate degree majors as well as from regular university majors.

Membership in Phi Lambda Alpha requires that a student maintained a "B" average or better for all grades accumulated.

Phi Lambda Alpha is sponsored

by NSU's chapter of Phi Kappa Phi national honor society as one of its projects to encourage outstanding scholarship on Nevada Southern campus.

Those initiated were:

Sophomores — Lynn Louise Anderson, Kathryn Sue Augspurger, Michael George Carlson, Linda Sue Cochran, Judith Ann Fleishman, Glenn James Gold, Claude T. Gooch, Gerald Martin Gordon, Beverly Jean Hall, Kenneth Wayne Hammer.

John L. Hollobaugh, Jo Ann Janes, Vickie Jolley, John Ernest

Lawson, Jeanne-Marie Libotte, David B. London, Vivian Diane McMahon, Henry Pepper, Carol Ann Pifer, William H. Shafer, Trudi Smolens, Margaret W. Starker, Steve Toy and George Vasconi.

Freshmen — Glenda Rae Beahm, Chris A. Beecroft Jr., Rheta Lyn Croxton, Arnie Lynn Cunningham, Gerald W. Davis Jr., Mary Ann Denney, Steven D. Forst, Rita Haddad, Joni M. Hurst, Douglas E. Jensen, Rex W. Lundberg, Kathleen H. Monda, Marvin Porter, Jeni M. Pryor, and Ursula Vasilko.

Associate Degree in Nursing — Doris M. Hinderliter, Carol Fay Harris, and Patricia May Cellini.

Police and Community Meet At Stardust Hotel May 10-11

A state-wide Institute on Police and Community Relations will be convened May 10-11 at the Stardust Hotel under the sponsorship of Nevada Southern University and local law enforcement agencies.

The institute is designed to aid better understanding in the working relationship between the general public and law enforcement officers.

It is being sponsored by Las Vegas Police Department, the State Community Development Act, the City of Las Vegas, and the NSU General & Technical Institute and Evening Division. Dr. Octavio J. Tocchio, professor of criminology

at Fresno (California) State College is program coordinator.

The police-community relations institute is open to the public at a nominal registration fee of \$1 per person. It will meet in the International West Room of the Stardust.

Local officials who will take part as panel moderators and group leaders are Lloyd Bell, Under-Sheriff, Clark County; N. L. Janise, Chief of Police, North Las Vegas; Lt. Harry Ketzenberger, Las Vegas Police Dept.; John T. Moran, Deputy Chief, Las Vegas Police Dept.; and Lt. Paul Wilkin, Sheriffs Dept., Clark County.

Physics Prof Speaks Here

Professor Geoffrey K. Walters, of Rice University's Department of Physics, Houston, Texas, will serve as a visiting lecturer at Nevada Southern University, Tuesday and Wednesday, May 14 and 15.

He will visit under the auspices of the American Association of Physics Teachers and the American Institute of Physics as part of a broad, nationwide program to stimulate interest in physics. The program is now in its eleventh year and is supported by the National Science Foundation.

Professor Walters will give lectures, hold informal meetings with students, and assist faculty members with curriculum and research problems. Professor H. Fechter, Chairman of the Department of Physics at Nevada Southern University, will be in charge of arrangements for Professor Walters' visit.

He joined the faculty at Rice in 1963 as professor of physics and in 1964 accepted the joint appointment as professor of physics and Space Science. At present, his principal research interests are in the application of the He³ polarization technique to nuclear physics problems and in the physics of the upper atmosphere and outer space.

Fike Speaks To YR Group

Lt. Governor Ed Fike was the main speaker for the Nevada Republicans and Young Republicans recently. "There is a real place for young people in politics today," he said. "This is one reason I would like to see the voting age lowered to eighteen. The average age in this country is 26 or 27, with a great age bloc in the 18-21 group. These people should be allowed a voice in government."

On the subject of open housing he said, "Why should we enact more legislation when we have sufficient laws today which are not being enforced? A more effective solution would be to educate the minority groups. This way they could economically afford better housing."

Assemblyman Zel Lowman represented, as Chairman, the Legisla-

tive Committee on Narcotics. He told of their plan to investigate the feasibility of legalizing marijuana, peyote, and LSD. "There are too many antiquated laws that should be wiped off the books. Our committee wants to evaluate our present laws and make a decision on their validity."

Any students wishing to become a member of the NSU YR's or to attend the State Convention may give \$1.00 in dues to Treasurer Holly Judge for proof of membership. "To gain as many votes as possible for this," Bob Cummins, President, said, "the more members we have, the more support we can gain for our campus."

Shown above are some of the marchers at the recent AFT demonstration and shown below is Mr. Eugene Dawson as he reads his contract before burning it. — Photos by BOB LEAVITT

K.S. Take Greek Week

Edging out Chi Sigma Chi by one point, Kappa Sigma Fraternity won top honors in the Second Annual Greek Week Activities. Kappa Sigma took nearly all of the first place awards from the skits to the tug-of-war. Alpha Delta Pi came in first for the sororities.

The big surprise was high jumper Mike Messner. Mike has only had about two weeks of experience but outjumped his teammates and the opposition.

Chi Sigma Chi had a number of firsts including baseball throw and fifty yard dash. One of the most exciting events was the tug-of-war between the Chi Sigs and the Delta Sigs. The Delta Sigs got off with a fast start but couldn't outlast the weight of the determined Chi Sigs.

Final standings:

- Kappa Sigma
- Chi Sigma Chi
- Delta Sigma Phi
- Alpha Epsilon Pi
- Alpha Tau Omega
- Alpha Delta Pi
- Phi Mu
- Delta Zeta

On Campus

with Max Shulman
(By the author of "Rally Round the Flag, Boys!", "Dobie Gillis," etc.)

FROM THE HALLS OF PROTOZOA

This column, normally a treasure house of twinkly quips and slapdash japey, has now been appearing in your campus newspaper for fourteen years, and if I have learned one thing in these fourteen long years, it is not to try to be funny in the last column of the semester. With final exams looming obscenely close, you don't want jokes; you want help.

So today, foregoing levity, I give you a quick cram course in the subject you are all flunking. I refer, of course, to biology.

Biology is divided into several phylla, or classes. First is the protozoa, or one-celled animal. Protozoa can be taught simple things like bringing in the newspaper, but when shopping for pets it is best to look for animals with at least two cells, or even four if your yard has a fence around it.

Another popular class of animals is the periphera—a shadowy category that borders often on the vegetable. Take, for example, the sponge. The sponge is definitely an animal. The wash-cloth, on the other hand, is definitely not.

Next we come to the arthropoda, or insects. Most people find insects unattractive, but actually there is exquisite beauty in the insect world if you trouble to look. Take, for instance, the lovely insect poems of William Cullen Sigafos—*Tumbling Along with the Tumbling Tumblebug* and *Fly Gently, Sweet Aphid and Gnats My Mother Caught Me*. Mr. Sigafos, alas, has been inactive since the invention of DDT.

Our next category is the mollusca—lobsters, shrimp, and the like. Lobsters are generally found under rocky projections on the ocean bottom. Shrimps are generally found in a circle around a small bowl containing cocktail sauce. Personna Super Stainless Steel Blades are generally found at any counter where Personna Super Stainless Steel Blades are sold.

I mention Personna Blades because the makers of Personna Blades pay me to write this column, and they are inclined to get edgy if I neglect to mention their product. Some get double edged and some single, for Personna Blades come both in double edge style and Injector style.

Mind you, it is no burden for me to mention Personna, for it is a blade that shaves quickly and cleanly, slickly and keenly, scratchlessly and matchlessly. It is a distinct pleasure to shave with Personna Blades and to write about them but sometimes, I confess, I find it difficult to work the commercial into a column. Some years ago, for example, I had the devil's own time working a Personna plug into a column about Alexander the Great. The way I finally managed it was to have Alexander say to the Oracle at Delphi, "Oracle, I have tasted all the world's pleasures, yet I am not content. Somehow I know there is a joy I have missed." To which the Oracle replied, "Yes, Alexander, there is such a joy—namely Personna Blades—but, alas for you, they will not be invented for another 2500 years." Whereupon Alexander fell into such a fit of weeping that Zeus finally took pity and turned him into a hydrant . . . Well sir, there is no question I sold a lot of Personnas with this ingenious commercial, but the gang down at the American Academy of Arts and Letters gave me a mighty good razzing, you may be sure.

But I digress. Back to biology and the most advanced phylum of all—the chordata, or vertebrates. There are two kinds of vertebrates: those with vertical backbones and those with horizontal. Generally it is easy to tell them apart. A fish, for instance, has a horizontal backbone, and a man has a vertical backbone. But what if you run into a fish that swims upright or a man who never gets out of the sack? How do you tell them apart? Science struggled with this sticky question for years before Sigafos of M.I.T. came up with his brilliant solution: offer the creature a pack of Personna Blades. If it is a fish, it will refuse. If it is homo sapiens, it will accept—and the more sapient, the quicker.

And now you know biology. And now, for the fourteenth time, aloha.

©1968, Max Shulman

The makers of Personna, The Electro-Coated blade, have enjoyed bringing you another year of Old Max. From us too, aloha.

Shown above are students representing the other side of the picket.

Nationals Initiate ATO

Saturday, April 27, saw the formal initiation of Nevada Southern University's Alpha Tau Omega as a chapter of the national fraternity.

Forty-three men were initiated individually during the morning and early afternoon and the chapter was given its charter in the late afternoon. National officers in attendance were Stewart Daniels, Worthy Grand Chief; Norman Ritchie, Executive Secretary; Dave Wheeler, Assistant Executive Secretary; and Wendell Tutt, Ritual Counselor.

Seven men each from the University of Arizona Epsilon Beta Chapter and Arizona State University Zeta Alpha Chapter formed the initiating teams.

Following the daytime activities was a banquet at the Aladdin Hotel. Cocktails, speeches, and dancing highlighted the evening festivities.

Sunday morning the initiates attended the church service of ATO Jerome Blankinship at the University Methodist Church.

We don't know the formula for success, but we do know the one for failure: TRY TO PLEASE EVERYONE!

Debate Team

The Nevada Southern Forensic Association has ended its activity schedule for the 1967-68 academic year. With a final debate tournament at Long Beach State last weekend, Coach Mike Wallinger's squad ended a season that saw an all-rookie team compete in nine major debate tournaments.

Forensic President Larry Trunkey led the team in number of rounds with 28 and number of wins with 17.

Approximately seven tournaments are in sight for next season, as an experienced squad takes the field to bring back some gold cups to NSU.

The SS Functions For YOU

In the course of events, a boy becomes a man in the eyes of the law. Because of this fact Uncle Sam has plans for him. Maybe not this year. Maybe not the next. But sometime it happens. Between the age of 18½ and the time he reaches 26, he is forced to check his mailbox with more interest everyday. Any day could be the day to get his "Draft Notice."

Ever ask yourself why? Why do you have to go? Why not wait to see how our war is developing, then begin drafting according to these reports?

Can you beat the draft? The answer is yes, no and maybe. The maybe section to this answer is a combination of luck and civil disobedience. Luck in that you don't receive the draft notice and civil disobedience in that if you do receive the notice and refuse to take the oath because of political convictions.

By not being able to beat the draft I mean just that. The high draft calls and the ever decreasing deferments are making it harder for American's youth to find a free lift of their own and putting their lives in jeopardy in the name of patriotism.

This brings me to the only sure way methods of beating the draft:

Hotel Program Popular Course

Donald Greenaway, Executive Vice President of the National Restaurant Association, applauded the NSU Hotel Administration Program on its "pronounced emphasis" on human relations in the restaurant industry during a recent visit to the NSU campus.

Greenaway, a long-time supporter of hotel-restaurant education and progressive trade associationism, spoke for an hour to a junior class in the expanding Hotel Program.

"With the importance of human relations as it is, I wonder why greater emphasis in this area is not as pronounced elsewhere as it seems to be at Nevada Southern University," Greenaway said. He then congratulated NSU on its plans to accommodate 250 Hotel Administration students during the 1968-69 academic year.

Greenaway emphasized the changing market place, the demographic changes, and the social changes of our culture to show the marketing orientation that has come over the restaurant industry. "The restaurant industry has become the darling of the stock market and the conglomerate because of the current market pace and fantastic potential of the next decade," he explained.

After itemizing the numerous areas in which the individual restaurateur must depend on the facilities of association strength, including governmental relations, travel promotion, research, sanitation, and education, Greenaway reminded students that "industry status begins internally in each hotel and restaurant man. It is here that individual and industry image begins!"

He explained that this status pre-occupation of the restaurant and hotel industry has helped produce the quarter-of-a-million presently vacant jobs, of which 25 per cent are in management, 25 per cent in supervisory positions, and the remaining 50 per cent in operative jobs.

by joining a branch of the armed services. Listed below are the officer program and enlistment programs designed for us, the college student. These programs offer the male college student an opportunity to complete his six year military obligation and his college education at the same time and go on active duty as a commissioned officer.

ARMY
Title of program: O.C.S.

Under this program are three initial branches that a candidate can choose from:

- a) Artillery (training at Ft. Sill, Oklahoma)
- b) Engineering (training at Ft. Belvoir, Georgia)
- c) Infantry (training at Ft. Benning, Georgia)

The training for each branch is for six weeks each summer for two summers. There are no further obligations to meet during the course of a candidate's school years.

In the O.C.S. program, the time spent during school counts towards the six year military obligation. After graduation, the newly commissioned officer has three years of obligated active duty. After these three years, the officer has eight years of duty in the Army Reserve. The reserve meets once a week for six hours.

The qualifications for this program are simple enough. Upon graduation the candidate must have a B.A. or B.S. in his chosen field, be physically and mentally firm and be between the ages of 18 and 30.

There is no financial help given to a candidate.

The Army hasn't forgotten the ladies reading this article either. An extensive program for nurses has been set up.

Qualifications are: an American citizen, between the ages of 20 and 30, and in a school offering a four year program in nursing.

Financial aid is offered for tuition purposes and each woman receives the same pay per month as they would if they were on active duty.

After graduation, the lady is commissioned as a 2nd lieutenant and may chose the hospital of her choice.

ARMY RESERVE

No program for signing officers or enlisted men.

AIR FORCE

This program is called O.T.S. Under this program are only two branches which are also qualifications.

- a) Engineering
- b) Scientific

To qualify, a candidate must have one of these two fields within his or her major or minor.

Only seniors and graduates may sign up for O.T.S. After signing up, a candidate receives a pay grade of staff sergeant. After graduation, the candidate receives extensive schooling and training in practical factors of the Air Force and is commissioned U.S.A.F.R. (U.S. Air Force Reserve).

AIR FORCE RESERVE

No program for college men.

On-the-Job Plus Books Success

Relating people-on-the-job to college textbook theory is one of the ways a Nevada Southern University professor is luring record numbers of students into a new program at NSU called "The Helping Services Program."

Under the guidance of Dr. Bernard Greenblatt, associate professor of Social Science and program director, Helping Services has grown to a class of 55 students in only one year since the program's inception.

A large part of the training these students receive has been brought into the program by local community agency guest speakers.

"The aim of this portion of the program is to make learning at the university more meaningful by relating theory in text books to people-on-the-job in the outside world," Dr. Greenblatt said.

With the several guest speakers,

the class becomes acquainted with the functions of the various social agencies in this area, the NSU social scientist said.

"Each class is an attempt to provide a unique setting for learning and helping services. In addition, each class member is involved in an individual project which brings him into direct contact with those particular people in our community who need help," Greenblatt said.

Among this year's guest speakers from helping-services-agencies have been James Carmany of Nevada State Welfare, Doyle Longhurst of Neighborhood Youth Corps, Helen Hutchinson of the We Care Program of Alcoholics Anonymous, Melvin Flanders of State Services to the Blind, George Gant of Manpower Development and Training Center, and Cy Ogulnick of the Las Vegas Childrens' Campus.

President Moyer Announces His Decision to Leave NSU

LAS VEGAS, Wed., May 1 — President Donald C. Moyer of Nevada Southern University has announced his resignation effective June 30.

"My decision to leave Nevada Southern University is a most difficult one and is made with much reluctance and regret," Dr. Moyer said.

"My tenure during the past three years at Nevada Southern has been most rewarding. The board, the faculty, the students and the community have given me the essential backing to bring about some development at NSU."

Dr. Moyer said that he might consider staying on through July and part of August to give the University ample time for selection of a successor if the Board of Regents requested.

President Moyer pointed out that a number of major projects are well underway and that his resignation should in no way affect their successful culmination. He referred specifically to the newly completed Campus Student Union Center, the new Chemistry building and the recent successful fund campaign and plans for a new Center for the Performing Arts.

Dr. Moyer said that he is not free at this time to comment on his future plans in any detail. However, he indicated he is leaving NSU for personal reasons which include the pursuit of a career in private business related to education and consulting.

President Moyer indicated that with the immediate and unlimited opportunities in business in these modern times, he no longer can afford to remain in higher education

administration.

He again emphasized his belief that a change in the presidency will not in any way alter the progress in NSU's programs in research, degree offerings, expansion of the arts, new buildings, etc.

"I am now, and will always be, deeply grateful to the Las Vegas community for the support of NSU's programs, and especially for the most recent example of this support in achieving the goal of a Performing Arts Center," Moyer said. "The support of certain community leaders is the greatest I have ever experienced, and makes me very reluctant to leave."

Dr. Moyer said his final decision was reached only this past week and only after deep deliberation on his and his family's future.

Dr. Moyer came to Las Vegas as Chancellor of Nevada Southern University in 1965 after five years as president of Eastern New Mexico University in Portales, N.M. Before that, he was Executive Secretary of the New Mexico Board of Educational Finance.

At Eastern New Mexico University, President Moyer's efforts resulted in that school's enrollment doubling, and more than \$6 million in new buildings completed.

Dr. Moyer received his B.S. and M.S. degrees at University of Illinois (1942 and 1946), and his Ph.D. in Educational Administration from University of Chicago in 1954.

He married his wife, Jewel, in 1942, and they have two daughters, Ginger and Debbie.

Other accomplishments since Dr. Moyer was named Chancellor in 1965 include: enrollment at NSU has doubled; campus size has more

than doubled, under the NSU Land Foundation, growing from 191 acres to more than 400 acres; budget has nearly tripled, growing from little more than \$1.4 million annually to more than \$3.2 million; faculty size has doubled from 80 to 150; nearly \$4.5 million in buildings have been added, including \$1.5 million addition to library, \$1.2 million dormitory and dining commons, \$1.7 million campus student center, with nearly \$4 million more in buildings to begin construction soon, including a proposed \$1.5 million chemistry building, and a proposed \$2.3 million Center for the Performing Arts; first graduate degree programs were offered in 1966, and have now grown to 12 master's graduate programs, with many new baccalaureate degrees being added also; a ten-year Master Plan of programs and buildings has been completed, which will carry NSU from an enrollment of 3,800 at present to 17,500 students by 1978; the General & Technical Institute was founded at NSU in the past three years and now offers a variety of courses in electronics in radiology, nursing, law enforcement, fire science and many other technical programs; the school within the University have grown to an extent that they will be designated as colleges starting July 1, and heads of the colleges will become Deans; and established the Hotel Administration Department.

More AFT marchers are shown in the recent demonstration held on campus.

A D Pi Initiated

After five months of pledging, the Epsilon Rho chapter of Alpha Delta Pi charter members, charter alumnae and honorary initiates went through initiating activities last weekend.

One of the highlights of Friendship Week was Friday night when the initiates met with the Grand officers. The officers present were Grand President, Miss Maxine Blake; Grand Vice President of Collegiate Chapters, Mrs. Russell Allen; Grand Secretary, Mrs. V. Frank Jochems and Mrs. Berne Jacobsen, National Panhellenic Conference Delegate.

Miss Anne Ellington, traveling collegiate secretary and Mrs. Paul Hicks, Tau I Province President.

The Installation Banquet was held Saturday night after initiation in the morning and afternoon.

Awards and presents were given at the banquet. Awards announced were the best essay on "What Alpha Delta Pi means to me," Beverly Hall and second place to Linda Manning. The Scholarship Award for the highest grade point average went to Jeni Pryor. The Best All Around Pledge was Kathy Ratay.

A silver tea service was given to the new chapter by all A D Pi chapters in the U.S. and Canada. A gavel was presented to President Kathy Ratay. Kappa Sigma presented a plaque for the sorority. Phi Mu sent a bouquet of flowers to congratulate the new chapter and Bruce Heskett also presented a bouquet of flowers to the new chapter.

The charter members are Patricia Allen, Donna Bertola, Linda Clark, Sandra Cowan, Linda Cox, Linda Dopico, Helene Fiore, Connie Fortier, Renee Fortier, Beverly Hall Marilyn Hall, Linda Herrmann, Susan Hind, Gail Horch, Karen Jenson, Vicki Jolley, Linda Manning, Joy Marcheson, Linda Moore, Madelyn Naples, Jeni Pryor, Kathy Ratay, Frances Ruiz, Catherine Scherkenbach, Carole Smith, Linda Snyder, Lynnette Stednick, Carol Stefan, Nancy Stenger, Lana Tucci, Sharon Walter, Jackie Womble, Darlene Workman and Valerie Zupsan.

Charter Alumnae Initiates are Tracey Goetel Heskell, Armide Smith Kenerson and Valerie Moon.

DOMINIC CLARK — DICK FONTAINE

Rebs Split With Chapman; Finish Second

During last week, the Nevada Southern baseball squad won three-out-of-the-four games it played, improving their season total to 21-12. On April 29, the Rebels journeyed to Flagstaff, Ariz., and took both halves of a twinbill from Northern Arizona University 8-5, and 11-1. NSU split with Chapman College on Saturday, winning 8-4, and losing 11-2.

In the first NAU-NSU clash, Jerry Mendenhall, George Peraza and Rich Gonzales, combined to slug eight of NSU's nine hits. In the first inning Mendenhall doubled, Travis Bonneville and Harry Karn walked to load the bases and Mendenhall scored as John Huber was walked to reload the bases. After a pitching change, Rich Gonzales belted a towering triple to clear the bases. Gonzales' later scored on Reggie Stuler's sacrifice fly. John Lundquist (5-2) was the winning pitcher.

Jeff Dick threw a sparkling two-hitter in the nightcap as the Rebs won handily 11-1. In the big fifth inning for NSU, Mendenhall singled, Karn was safe on an error, Bonneville walked to load the bases, Mendenhall scored as Gonzales walked to again load the bases, then "Parrot" Peraza smashed a double, scoring Karn and Bonneville, with runners at second and third and two outs, "Slugger" Stuler banged out a double scoring both Gonzales and Peraza. Dick's record after this win over NAU was 4-0.

Last Saturday Ralph Garcia defeated Chapman College for the second time this season by hurling a nifty four hitter, while NSU went through four Chapman pitchers. The big Rebel innings were the first and the fourth. In both frames the Rebs put four runs across the plate. In the blistering first, Karn singled, Bonneville and Huber walked to load the bags, then Mighty-mite Peraza sent a shot to center for a double, clearing the bases. Peraza crossed home on Bonnie Smith's single.

In the third frame, Peraza singled, advanced to second on a balk and tallied on Gonzales' double to left. Beltin' Bonnie Smith then sent the horsehide over 400 ft. to the PE building scoring himself and Gonzales. It was Smith's sixth circuit clout of the year. Stuler walked

went to second on Garcia's first base hit of the season, and crossed home on Mendenhall's single. Garcia walked six and fanned nine enroute to his fourth Conference victory. In league he finished 4-2.

The second game was not so bright for NSU as the Panthers slugged 14 hits, including six for extra bases. NSU tallies came in the second and fifth frames. In the second, "Slugger" Stuler connected for a single, went to second and then third on singles by Billy "The Bull" Anthony and Russ "The Thinker" Farrell. Stuler scored on Mendenhall's single. In the fifth, Karn was safe on an error, and scored on John "The Animal" Huber's crushing double with two outs.

NSU finished second in the Southern California Athletic Conference with a 6-6 record. The Rebels were second only to Chapman, who finished 9-3, two of their losses coming at the hands of Nevada Southern. Ralph "The Smoker" Garcia was the winner of both games, pitching 14 innings, giving up just eight hits (all singles), only three earned runs, walking seven, and striking out 18.

The Rebels close their season Saturday when they fly to Reno to meet the Wolfpack from the University of Nevada. Last year their double-header was rained out here in Las Vegas.

Gonzales Honored By Vegas Jaycees

Last Saturday, Richard Gonzales was honored by the Las Vegas Valley Jaycees' as Athlete-of-the-Month for the college division. Richard attended a luncheon on Sunday at the Ice Palace and was honored. Guest speaker at the luncheon was Bob Deering, Varsity baseball coach at NSU.

Past winners of the Athlete of the Month award were Curtis Watson, Jerry Chandler, and Elbert Miller, all of NSU. The Jaycees' Athlete of the Year will be honored at a June banquet, at which all previous nominees for the top award and their coaches will also be in attendance.

Golfers Now 17-3

Last Friday, the NSU linksters upped their season mark to 17-3 by white-washing Victor Valley College 24-0. Don Baranco was the leading Rebel golfer, carding an outstanding par-72 on the extremely rough Dunes course.

This Saturday, the Rebels tangle with the Rams again, and then on Monday, May 13, the always tough University of San Francisco linksters invade Nevada Southern for a two-day series.

Meet the REBELS

JEFF DICK
Age: 21 Height: 6'3"
Weight: 205

GEORGE PERAZA
Age: 21 Height: 5'4"
Weight: 140

The only undefeated Rebel hurler this season, "Talltimber" is currently sporting a perfect 5-0 record and an ERA of 2.00. Jeff is a converted outfielder, having lettered two years at Long Beach Jordan HS. In HS he was guided, coached, and influenced greatly by Paul Pettit, the first \$100,000 Bonus Baby in major league baseball. In the early 1950's, Paul was offered a contract with the Pittsburg Pirates.

Jeff is a sophomore here at NSU, majoring in Business Management. "Soul Music" is his favorite pastime, next to ball. He enjoys traveling, and has toured nearly all of the continental US in addition to visiting many border towns in Mexico while in the Marines.

A native of Mexico, Jorge was born, and lived 10 years, in Merida, Yucatan. He graduated from Hueneme HS in Oxnard, Calif., where he was starting shortstop for three years. Another Rebel, Russ Farrell, and George played together on the Ventura JC baseball teams for two seasons.

A junior, "Parrot," is a PE major with, you guessed it, a minor in Spanish. He hopes to become a HS baseball coach right here in Las Vegas. Mighty-mite George has banded out four homeruns this season, and numerous other extra-base hits, including a three-run double against Chapman College last Saturday. Anything that can be done outdoors is a hobby to George.

XEX Paces 'Mural Softball; ATO Aces Volleyball Title

Chi Sigma Chi took over sole possession of first place in intramural softball by smashing their way past the Intercollegiate Knights, 21-7, last Sunday.

Newly elected CSNS President Bill Terry was the winning pitcher as XEX upped their season mark to 3-0. The lose dropped the IK's from a tie for first place to the number three spot in the league with a 2-1 record.

In other action last Sunday, Kappa Sigma captured second place in the loop by slipping past Alpha Tau Omega 14-9. The winning hurler for KE was Eddie Ringgold. With the victory KE's record stands at 3-1, while ATO, now in fourth, is 2-2.

ALSO ON THE 'MURAL SCENE — Alpha Tau Omega won the intramural volleyball crown by tripping up Kappa Sigma, 2-0, last Sunday. Thus far on the intramural season, Chi Sigma Chi has garnered two first places (Football and Basketball) and ATO has won one.

TEAM	W	L
1. Chi Sigma Chi	3	0
2. Kappa Sigma	3	1
3. Intercollegiate Knights	2	1
4. Alpha Tau Omega	2	2
5. Spikers	0	2
6. Delta Sigma Phi	0	2
7. Alpha Epsilon Pi	0	2
