

# O'CALLAGHAN WILL SPEAK HERE

Governor Mike O'Callaghan will be the guest of the University of Nevada, Las Vegas for a discussion of current issues and a question

and answer session on Thursday, January 20th, from 1:00-3:00 p.m. in the Moyer Student Union Building (open to the public at no cost.)

## UNLV -

## WORLD'S SANDWICH CAPITAL

Next month the University of Nevada, Las Vegas will become the sandwich capital of the world.

That's when hundreds of sandwiches of all description will be prepared, tasted and categorized as part of a nationwide contest sponsored by the National Restaurant Association.

The College of Hotel Administration here has been selected to perform the preliminary judging of the competition which last year motivated 600 sandwich makers to submit their favorite recipes.

Jerry Vallen, hotel college director, said panels of students and faculty will first screen all of the recipes, eliminating those that are similar to existing models. The preparation stage will then begin in the UNLV Dining Commons.

Vallen predicted that from 250 to 400 sandwiches will be mustered on the assembly line from almost as many exotic ingredients. Taste teams will sample each entry, carefully evaluating its appearance, flavor, originality and ease of eating.

Recipes of the tastiest 20 sandwiches will be forwarded to Chicago where the restaurant association will conduct its "intermediate" sandwich judging.

Then on July 26, the final winners will be announced and prizes awarded at a grant coronations luncheon in New York City.

## DEANS HONOR LIST

A total of 225 students were named to the fall semester Dean's Honor List at the University of Nevada, Las Vegas.

The list of students, who represent the top five per cent academically at UNLV, include 46 scholars who achieved perfect "straight A" grades.

To be placed on the honor roll, a student must complete a minimum of 15 semester credit hours while maintaining at least a 3.5 grade point average. A 4.0 represents "A" grades.

Thirty-seven Las Vegas residents received "straight A" honors. They are Bruce, Asher, Helga Brown, William Brown, Sueann Burt, Gregg Carter, Diana Cooley, Corryn Crosby, Lynette Davis, Mary Dibble, Glenn Faber, Robbie Ferrin, Michael Foss, Barbara Friedl, Richard Harvey.

Kathleen Haugen, Deborah Hecht, Connie Jo Jackson, Barbara Jasper, Margaret Keller, Thomas Kordus, Paschal Langham, Carol Marshall, Joann McPherson, Charles Mercer, Linda Milam, Marsha Morgan, Joyce Nelson, Margaret O'Hara, Patty Ray.

Matthew Rollins, John Sawyer, Charles Smee, Diane Stanga, Raymond Tuck, John Vining, Patricia Williams, Phyllis Zagortz.

Other Clark County residents with perfect grades are Roland Boggioni, Jan Christian, Douglas Hafen, and James Schaub.

Out of state students with 4.0 averages are Deborah Kurinshy, June Leshner, Theresa Smith, Michael Stanfield, and Pham Thai Thu.

Las Vegas students having grade point averages of 3.5 or better are Anna Adams, Steve Ainsworth, Lee Allen, Kathleen Atchley, Diane Auffrey, Gail Austin, Eugene Bach, Jacqueline Banner, Cynthia Berry, Stella Bialac.

Patricia Black, Rhonda Blair, Sandra Blake, Harold Blakely, Jose Botello, Scott Bradley, Winston Burbank, Judith Butler, Nathan Byers, Edgar Cantillo, Marcia Carlson, Meridee Carlson.

James Chadler, Wing Wah Chung, Ronald Collins, Adrienne Cox, Wayne Cox, Thomas Crine, James Cunningham, Lana Day, Constance Dewees, Anne Kilorio, Barbara Don, Denise Donoso, Louis Dubois, Kurt Dykma, Mary Erhardt, Herberta Ewing, Laquetta Farnsworth, Terrance Fehner, Gary Foremaster, Patricia Fox.

Nancy Fraizer, Blair Friedman, Dave Galigner, Richard Garman,

Phillip Citelman, Claudette Goodman, Veva Graves, Ronnie Greenblatt, Kathryn Hamm, Dennis Haning.

Pamela Hardin, John Hawkins, Marc Hechter, Willivere Hinton, Christine Hodgkins, Glenn Hodson, Jean Hofmeister, Isabell Holman, Dawn Haltan, Linda Horn, Michael Howey, Robert Huggins.

Kathleen Humphries, Carolyn Hunady, Joni Hurst, Betty Ives, Nancy Jackson, Paul Jean, Elizabeth Johnson, Robert Johnson, Michael Kelley, Thomas Kenne, Kerry Kindig, Glennon King, Linda Kinn.

Ross Kriske, Simon Kubala, Valerie Kubiak, Carol Landreth, Michael Lassiter, Jerry Lee, Jeffrey Lewis, Florence McClure, Rhonda McLaughlin, Margaret Merfy.

Gregory Miles, Lesli Moffitt, Betty Monteiro, Kathy Montgomery, Franklyn Morrow, Sandra Mushkin, Randy Neilson, Joyce Nelson, Stanley Nishimura, Jill Novak.

Lavonne Odegaard, Cynthia Odell Thomas Odisho, William Payne, Lyle Penrod, Christie Ann Plegni, Paul Ponto, Katy Radnoti, Christopher Rieke, David Rivers, James Romaggi, Karen Roop.

George Rosenbaum, Edward Rowen, Shirley Satterfield, Barbara Schaad, Bonnie Schultz, Richard Scott, Tina Shaffer, Richard Slick, Loretta Smyth, David Snyder, Karla Spence.

Mary Stephens, Pamela Stvens, Carla Stever, Daniel Stukas, Billy Taylor, Patsy Taylor, Harvey Thompson, John Tofano, Mark Toscher, Antonia Tzelalis, Elizabeth Van Winkle, Richard Verdow, Charles Vernon, Melvin Weasa, Sandra Weinstein, Yvonne Wert, Dennis Whipple.

Christian Wichers, Jo-Elaine Williams, Lark Williams, Richard Zamarchi, Johnny Zero, Michael Zervas.

Other Nevada residents receiving high grades are Bruce Bebb, Lorna Blount, Clarence Brandvik, Peggy Bunting, Michael Connolly, Timothy Coleman, Willie Coleman, Ronald Counce, Andra Crawford, Marilyn Davenport, Donna Florence, Barbara Hoyt, John Martin, Ronald Myers, Rosario Sanchez, Karen Singleton, Phil Stout, Ronald Talkington, Richard Winget, Susan Wright.

Non residents included on the list are Marie Abeyta, Peter Berens, Loyd Piercy, Terrence Weber.

# Editorial comment

To the Editor:

Recently the University Regents brought into play the consideration of having ROTC installed into the curriculum of this campus. But before this student body allows such action to take place, I think it should be closely scrutinized by all who have consciences of what such 'military intervention' would perhaps mean to this institution.

Some of us still retain the mental scars of the event of May 4, 1970 and if that wasn't enough to make your blood curdle, then how about the military surveillance programs of students, professors, and high government officials that was brought to the American peoples attention just last year. Of course some will look upon these military intrusions of both life and liberty as being isolated incidents, but the unfortunate fact still remains that they did happen. The unfortunate fact still remains that the military complex being what it is, is not content with just waging an endless and unjust war; its' plans also call for the intervention of military personnel upon campuses that have only 'truth' at its foundations.

The establishment of ROTC upon this campus cannot act or have any positive effects upon gaining the understanding that will help this student body defeat the causes of injustice, poverty, discrimination, and especially war; instead, act as a catalyst for future military enterprises upon its grounds in the forms of C.I.A. and S.S. training and even surveillance of its student body and faculty.

If we the students of this campus allow military encroachment upon it without offering opposition, then we those same students have no right to call ourselves the 'seekers of truth', but instead the perpetrators of hypocrisy. We must arrive at our tolerance threshold on this issue of military curriculum upon or

of military curriculum upon our campus, and allow our consciences to penetrate the following regents who voted in favor of making ROTC a possible future reality upon our campus:

Paul D. McDermott, Vice Chairman, 320 S. 3rd St. L. V. 89101 (382-1111)

Fred M. Anderson, 275 Hill St., Reno, (322-2161)

Molly Knudtsen, Grass Valley Ranch, Austin 89310, (964-2566)

Louis Lombardi, 190 Mill St., Reno 89501 (322-2101)

William W. Morris, 319 S. 3rd St. L. V. 89101

Mel Steninger, Elko Free Press, Elko 89801 (738-3118)

Proctor Hug, Jr., P.O. Box 2311, Reno 89505 (329-6131)

John Tofano

By Bill Laporte

At a meeting in Reno on Dec. 11, the Board of Regents clearly illustrated the extent of their responsiveness to student and faculty appeals. Both faculty and student senates at UNR voted in favor of a proposal to change military science from a required to a voluntary course. When the Regents met, this proposal was submitted for their approval.

In attendance at the meeting were several military and ex-military officers who were more than happy to say a few words in behalf of ROTC. They told of the glorious heritage and contributions that the program has made to America. They also mentioned how the My Lai incident could have been avoided if Calley had graduated from ROTC. After the gung-ho bullshit had died down, Regent Fred Anderson motioned to keep ROTC mandatory at UNR and also to look into it at UNLV. The vote was 7-2 in favor of these motions (Regents Thompson and Bilbray opposed).

The sad thing about this decision is the fact that seven half-assed politicians have the power to completely ignore a very reasonable request by faculty and students on matters of curriculum. The people who are directly involved and subject to such decisions (i.e. students and faculty) have nothing to say on the matter. Whatever your political views are in regard to ROTC, a student should never be FORCED to take such a course. Requirements such as English, are at least beneficial enough to merit their requirement. If a good majority of students and faculty, on any campus, oppose ROTC, it should be dropped. A university shouldn't serve the military as a training camp for the future soldier.

The Board of Regents have given little or no consideration to such programs as financial aids and ethnic studies which are badly in need of funding. Yet, ROTC seems to have a certain priority to the Regents. Maybe when Col. Hill was making his speech at the meeting, it sparked a flame in the old bastards' heads, and they remembered their old WWI & II days, and how great they looked in their uniforms, and how they served their country, and how they won the war singlehandedly etc., etc.

Numerous incidents, centered around ROTC, have occurred on many campuses in the last few years. UNR is no exception. If an "educated individual" is characterized by some use of reason, then a military alternative is detrimental to the whole idea of education. The Regents might have a little more on their hands than they expect if they persist with such assinine disregard for students and faculty. There's a lot of voting power on the University of Nevada campuses, and it ought to be exercised when the Regents come up for re-election.

Proposals, opposing any form of ROTC at UNLV, will soon be submitted to both student and faculty senates. Petitions will also be circulated. What effect these will have on the Regents remains to be seen, but the fact is that all of us who oppose the ROTC program must take what action is necessary to stop this thing before it gets started. Hopefully the Regents will get the point that they may very well be playing with fire, and that student and faculty appeals deserve a little more of their precious consideration.

## ROTC at UNLV ?

To the Editor:

The recent move by the Board of Regents to institute an ROTC program on our campus is totally out of touch with reality. I don't see how they can be serious about it.

The ROTC program has been the focal point for a good portion of the major campus unrest in the last few years. How the Regents can ignore this is beyond me.

If they institute the ROTC program here I wonder how long it will be before the National Guard will have to come on this campus. I wonder how long it will take for the tear gas to burn our noses and eyes.

The Regents have rejected the ideas of both the faculty and student senates at UNR. Both bodies recommended that the mandatory ROTC program be dropped at Reno. Undaunted by the views of their constituents, the Regents blundered ahead.

A motion for mandatory ROTC at Reno was introduced by Regent Fred Anderson. This motion passed 7-2 even though the faculty and students were against it.

Then Mr. Anderson moved to look into the possibility of having a ROTC program at UNLV. I can not support this action and urge the students at UNLV to do whatever is necessary to prevent ROTC from coming on this campus.

These are trying times. Times in which anything connected with the military isn't acceptable. Military spending, military research and military training should be taken care of, not on the university campus, but at the many and various military institutions across the land.

A university should be a forum for learning and exchanging of ideas. It should not be a place where one learns to tote a rifle. It should not be a place where one learns how to kill a man 256 different ways without making a noise.

We as students cannot allow the Regents to get away with this move. We cannot allow the Regents to run roughshod over our ideals like this. It seems the students have plenty of power on this campus - as long as their views agree with the Regents. This cannot go on.

Mr. Anderson's proposal cannot be allowed to go through. We do not need ROTC on this campus in any form. What are we going to do about it?

Mike Malone.

## BS FROM DC

Rep. Walter S. Baring, D-Nev., announced recently that the 1971 Year-book of Agriculture is now available in his Washington, D.C. office.

Written requests for free copies from Nevada residents are being taken on a first come, first served basis for the book which is entitled, "A Good Life for More People."

... Legislation introduced by Rep. Walter S. Baring in the closing days of the 1971 session of Congress, included a bill designed to halt the flow of dangerous drugs from France.

Baring said the traffic in these drugs from France is increasing according to some of the latest U.S. reports on heroin seized at our borders found in such smuggling devices as automobiles shipped from France. ... The Administration seems to place a higher priority on multiple warheads and Azores bases than child care for working mothers or food for the jobless.

Mr. Nixon vetoed the \$2 billion child care program, because of "the limited resources of the Federal budget and the growing demands of the Federal taxpayer."

Yet the Washington Post reported the same day, "Barring any last minute changes by the White House, the new military budget for fiscal 1973 is expected to be \$2 to \$3 billion higher than this year's."

Reprinted from Washington Watch by Tristram Coffin ... An amendment by Senator Alan Bible, D-Nevada, authorizing a resumption of FBI fingerprint identification services to state and local government agencies has won full congressional approval.

The Bible measure was given final approval as Congress completed action on a supplemental appropriation bill and sent it to the White House.

The FBI service was limited by a recent court decision holding there was no statutory authority to supply criminal identification records to any agency that was not directly involved in law enforcement.

In sponsoring the amendment, Bible noted many state and local regulatory agencies, including Nevada's gaming control, were required by law to investigate criminal backgrounds of license and employment applicants.

Bible's efforts broun

Bible's efforts brought a letter of appreciation from FBI Director J. Edgar Hoover.

"Upon approval by Congress," Hoover said, "this will permit us to resume the handling of non-federal applicant fingerprints submitted by contributors for licensing and employment, which the (court) case ruling prevents us from doing at this time."

Last year, Bible was instrumental in securing supplemental funds for the FBI after a personnel shortage forced a curtailment in the service.

# Speaking Out

EDDE REIDICH

Edde's column does not appear this week because Edde is taking a well deserved and extended vacation. He will be back next week to resume his efforts to blow your mind. Be patient.

## LITTLE MAN ON CAMPUS

"HOW'S ABOUT SHOWIN' US A COPY OF THE REQUIRED TEXT FOR THIS COURSE? WE AIN'T GONNA CARRY ROUND NO HEAVY BOOK!"

# ENVIRONMENT

## Join car pool - save

Interested in ecology? You say sure, but what can I do? Interested in getting something for nothing? You say where do I get it and when?

The Moyer Student Union is offering you the chance; for free, to do something for your environment. The S.U. is sponsoring a car pool.

Nothing to buy. All you do is check the map on the Snack Bar bulletin board. Once you have completed this hard task all you do is fill out a card in the tray next to the bulletin board. Find your area on the map and fill our the card. Now is that so hard.

The cards will have all the info that is needed; may area number, need ride or riders, arrival times and leaving times etc. All you need to do is get motivated and check the board.

Once you have filled out a card, you can periodically check back to see if you can get it together. So do it today. Join the pool. Cut down on the automobile emissions in the Vegas Valley and save money too, by sharing gas expenses with someone else.

## Tahoe land preserved

... Senator Alan Bible, D-Nev., announced agreement recently on the federal purchase of 10,452 acres of prime Lake Tahoe land in Nevada, "preserving most of the remaining undeveloped scenic shoreline."

Bible said the U.S. Forest Service signed a \$10.6 million purchase option contract for the land with New York financier Jack Dreyfus, capping nearly a year of negotiations for the former George Whittell Estate lands.

"This realizes a dream held by everyone who is dedicated to preserving and protecting the priceless scenic resources of this magnificent Sierra Mountain Lake," Bible said.

Bible said the Forest Service hoped to conclude the acquisition by the month's end, making it the largest single-owner purchase in the history of the National Forest System.

Bible introduced successful legislation last year authorizing the purchase and secured a major reprogramming of Land and Water Conservation Fund allocations to finance it. He also sponsored a bill authorizing a federal study to determine the best means of managing the area's scenic and recreation resources.

He noted the Bureau of Outdoor Recreation has a comprehensive report pending that will contain recommendation for the best management of all the public lands in the Lake Tahoe Basin.

## Ecology Briefs

In case the Nevada Cement Company didn't know what pollution was, it knows now. The company has been ordered by a district court judge to pay out \$2 million in damages to 85 residents of the small town of Fernley, Nev.

Judge Richard Waters said on November 24 that the company "knew that for every day of full operation, 27,000 pounds of dust and dirt were being expelled over the area. Yet never once did it shut down or offer to shut down the monstrous excretion it was spewing forth. It was deliberate, wanton destruction of the property of others."

The company, which argued that it was not the exclusive cause of the dust, has been ordered to pay \$5000 to each complainant and \$1.4 million in punitive damages. It expects to appeal the case to the Supreme Court.

The Ford Motor Company has agreed to pay \$10,000 in civil penalties to the federal government because it shipped over 200,000 cars and trucks to dealers before they were certified by the Environmental Protection Agency.

Under the Clean Air Act, automobile manufacturers must have an EPA certification for all of their vehicles, stating that they conform to antipollution standards. Because procedures were changed in November, 1970, EPA agreed to issue conditional certificates if certain test data was submitted. Ford, however, shipped 207,500 vehicles without any certification whatsoever.

The automotive giant bargained well with the Department of Justice in the case; under provisions of the Act, Ford could have been fined \$10,000 per vehicle, or a total of \$2,075,000,000.

Few Americans will forget the collision of two oil tankers under the Golden Gate Bridge in San Francisco on January 18, 1971, and the massive 840,000-gallon oil spill which resulted.

Now, insult has been added to injury. On November 5, the Standard Oil Company of California, owner of both the ships, was fined \$2500 for the incident, after pleading "no contest" to violating the 1899 Refuse Act. That represents a fine of 0.3 cents per gallon spilled.

Tiny Craigsville, Virginia (pop. 978) hopes to turn trash into profits. The town is scheduled to begin operations next month to turn "urban ore" from Washington, D.C., Baltimore, and other nearby areas into reusable material. Future plans for the new industry include a daily turnover of 10,000 tons of garbage.

A Bureau of Outdoor Recreation pamphlet, "Selected Outdoor Recreation Statistics," is currently available from the office of the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 for \$1.25.

Three Japanese firms have jointly announced the development of an experimental automobile which is virtually pollution-free and silent. It is powered by a six-kilowatt, 200-volt zinc-air fuel battery system.

The three companies are the Sony Corporation, developer of the battery, Shinko Electric Co., Ltd. builders of the electric motor and control system, and Fuji Heavy Industries, Ltd.

Like the other non-polluting, silent electric cars which have been developed around the world, this one has some limitations: it has a maximum speed of 66 miles per hour, it can only operate for five hours (at 25 mph) before refueling, and it is not being built at present.

The just released results of a Louie Harris & Associates poll show that New York State residents by far consider pollution the most serious problem facing their communities and are will to contribute their funds to combat it. The figures show that the public places primary blame on industry for pollution but looks to government to reduce the problem.

The U.S. Chamber of Commerce the Boating Industry Association, and the Association of Engine and Boat Manufacturers are reported putting heavy pressure on the EPA to weaken EPA's proposed rules against flushing untreated human wastes from boats into our waterways

Continued on page 7

# MASON PROFFIT TO PERFORM

"We long to share with you and with the world, our sound and love for peace" - Mason Proffit

Beginning in Chicago with a country-rock style, the five-man combo started writing their own material and discovered a blue grass rock sound was natural, their OWN sound. They've taken those roots, aged and mellowed and sifted them through Rock. Mason Proffit has come up with their own brand of moonshine; and it's damned potent music of the Old West, flavored with ideas of the New.

In August of 1969 Mason Proffit developed its own music and its own interpretation of ideas. As Terry Talbot, lead singer and lyricist, explains, "Mason Proffit is a result of five different backgrounds, combined to form a sound based upon rock, country and folk.

Here, then, are the backgrounds. Aside from writing their lyrics and being the lead singer, Terry Talbot is also a guitarist in Mason Proffit. Born in Kansas City, Missouri, Terry, was reared in Oklahoma City, Little Rock and Indianapolis. Part of Terry's interest and musical ability can probably be traced to his family background. His father was a violinist in the Oklahoma Symphony Orchestra; his mother is a pianist. His grandfather, who was proficient on piano, guitar, harmonica, banjo, french horn, mandolin and fiddle, played throughout Oklahoma and Kansas. Terry's participation in music began in churches and continued

through his high school years in choirs and madrigal groups. He was also in a folk group with his sister, Tanni.

Without John Talbot Mason Proffit would be left with a lot of words and very little music. Besides being the musical half of the song-writing team, John, also does vocals. John patterned himself after his grandfather for, though he never heard him play, he heard a lot about him. As an instrumental he is obviously an important part of Mason Proffit, for he plays guitar, bass, banjo, steel guitar, mandolin, fiddle, cello, vil mandolin, fiddle, cello, viola, drums and some piano.

Tim Ayers was also in many rock groups with Terry and John before Mason Proffit was started. He is a native of Indianapolis. Tim says that one influence on his career in music was oddly enough, a music teacher who thought himself a fantastic trombone player. It seems to be an odd influence on someone who is one of Gene Autrye biggest fans. Tim now plays bass with Mason Proffit and has written one song, which no one ever mentions.

Art Nash, though born in Detroit now makes his home in Indianapolis. He is the drummer in Mason Proffit and his one comment on that is "Good drums help you play better." Art got his incentive from a friend who lived down the block. This friend had been playing drums for five years, still wasn't any good, and yet he got all the girls.

Art figured he didn't stand to lose much, since he could at least do that well. He obviously did better. Art never got the girls, but he became one hell of a drummer.

Ron Schuetter, newest member of Mason Proffit, is a vocalist as well as a guitarist. He was born in Indiana and also attended grammar school there. He graduated from Columbia Military Academy in Columbia, Tennessee and then went on to the University of Mississippi. Ron lives in Indianapolis as does the rest of the group.

Mason Proffit could be playing what they want for quite a long time, because what they play is certainly worth hearing - and then hearing again. When the music begins, you eyes are suddenly unimportant, for visual impact is a very minor part of Mason Proffit. Your ears, too, are insignificant, for you do not hear Mason Proffit with your ears, but with your body. You will find yourself moving with the music because something in you is a part of that music. It's a sound that was born, not in a studio, but in the human experience and cannot be separated from that.

Just as Mason Proffit has captured your body, it captures your mind. Their thoughts involve today's problems, and are therefore important to today. They are crucial to tomorrow.

To experience Mason Proffit is to stand with your eyes on the Nineteenth Century, your ears in the Twentieth, and your mind in the Twenty-first.

## In concert - MASON PROFFIT

# ODDS N ENDS

## Work by Warren

An article by the chairman of the anthropology-sociology department at the University of Nevada, Las Vegas appeared recently in a professional archeological journal.

"The Midvale Complex," by Dr. Claude N. Warren, was published in the fall edition of "Tebiva," the official journal of the Idaho State University Museum.

The article describes an excavation project directed by Dr. Warren in which artifacts of archeological significance were discovered. The site of the findings was in west central Idaho.

"The excavations at Midvale," said Warren, "Were an early part of Idaho's program in highway salvage archeology. The state salvages archeologic, paleontologic and historic sites which lie in the path of planned highway construction."

## Career Day

Sponsors of the second annual Career Day program in Las Vegas have contributed more than \$2700 to a scholarship fund for students at the University of Nevada, Las Vegas.

Seventy-three different businesses took part in this year's program as hosts to high school students who spent a day 'on the job' in the local firm of their choice. Under the Career Day plan, firms give \$40 to the scholarship fund for each student they wish to host for the day. Participating students are chosen by the principals at each of the eight Clark County high schools.

Organizations which sponsored students included hotels, banks, utilities companies, newspapers and numerous other commercial business.

The \$2,700 will be allotted to qualified students at UNLV in any major. The only stipulation is that the recipient be a graduate of a high school in Clark County.

Career Day Chairman Robert Sally, district manager of the 7-Eleven Food Stores, Inc., said the program was conceived originally in California by the 7-Eleven corporation and was immediately successful in assisting young people decide upon a career field, then helping them financially with their studies once they entered college.

For the second year in Las Vegas the participating high schoolers and the executives from the sponsoring companies attended a dinner banquet after spending the day together. This year's guest speaker at the recent Flamingo Hotel affair was Judge David Zenoff, chief justice of the Nevada Supreme Court.

The firms which contributed to the UNLV Scholarship Fund listed alphabetically: Anderson Dairy, Annenberg Advertising, Arden Farms, Bank of Nevada, Biddulph Auto Leasing & Sales, Better Living, Bob Glinski Motors, Cashman Cadillac, Cashman Equipment, Central Telephone, Chermac Builders, Coca Cola, D.I. Distinctive apparel, Deluca Import, Desert Inn.

Dolly Madison Cakes, Donrey Outdoor Advertising, Dunes Hotel and Country Club, El Cortez Hotel, First National Bank of Nevada, Flamingo Hotel, Fletcher Jones Chevrolet, Four Queens Hotel & Casino, Fremont Hotel, Frontier Fidelity Savings & Loan, Hacienda Hotel & Casino, KLAS TV, KORK Radio, KORK TV, KRAM Radio, Landmark Hotel, Las Vegas Dodge, Las Vegas Polar Ice.

Las Vegas Review Journal, Las Vegas Sun, Lee Office Supply, Mint Hotel, Nevada Beverage, Nevada Chip Sales, Nevada Power Company, Nevada Savings & Loan, Nevada State Bank, Pepsi Cola, Roach Distributing, Sahara Hotel, Sam Krug Chrysler Plymouth, Sands Hotel, 7-Eleven Food Stores District Office, 7-Eleven Food Stores #801, 803, 804, 808, 815, 821, 822, 841, 842, 844, 847.

7-up, Southwest Gas, Stardust Hotel, Thunderbird Hotel, Title Insurance and Trust, Tropicana Hotel, Union Plaza Hotel, Valley Bank of Nevada, Vegas Valley Candy, Von Tobel's, Wiesner Tire & Automotive, Wynn Distributing, Young Electric Sign.

## Zorn named

President University of Nevada, Las Vegas has been named a member of the committee on cultural affairs of the American Association of State Colleges and Universities.

The committee of college presidents will plan and supervise programs of the association among 287 state-supported colleges and regional universities in 46 states. Currently, President Zorn

serves on the organization's nominating committee and is the Nevada representative for the AASCU.

## Gronborg trips

The chairman of the art department at the University of Nevada, Las Vegas will travel to California this month for a meeting of professional artists.

Erik Gronborg will attend the annual gathering of the College Art Association which will be conducted Jan. 26-29 at the Hilton Hotel in San Francisco.

Gronborg will read a paper entitled, "The Contemporary Artist and Environmental Awareness," and will participate in a panel discussion on "Problems in Podunk: the artist and provincialism."

## H C Wells listed

Herbert C. Wells, a long time member of the engineering faculty at the University of Nevada, Las Vegas has been listed in the latest edition of the 'Dictionary of International Biography.'

The reference book printed in England, includes the names of leading educators, businessmen and scientists from throughout the world.

Wells, the first instructor of engineering at UNLV who later served as director and dean of the College of Science and Mathematics, is also listed in "Who's Who in the West" and "American Men of Science."

## UNLV's museum

An enlarged museum filled with new exhibits on Southern Nevada will be unveiled to members of the public this month at the University of Nevada, Las Vegas.

The collections of Indian artifacts, archeological and geologic displays will be on view at an inaugural reception from 2 until 4 p.m. on January 23. The museum is located across the street from the main campus.

Dr. Richard Brooks, acting museum director, said invitations will be extended to such friends of the museum as the Junior League, Inc. an organization of volunteer women who assisted in the creation of a museum society and have continued to support its operation; university officials and other community leaders. The public is welcome to attend.

In the fall, the Nevada Board of Regents transferred the operation of the museum from the Desert Research Institute to UNLV. Since then, staff members have been busily assembling display cases, painting the building's interior and

enlarging the operation into a second room.

Among the new exhibits:

-- Pictures and models of the mustang, famed wild horse of Nevada.

-- Artifacts found along the Old Spanish Trail in Southern Nevada from the time of the first travelers to the early occupation of Las Vegas.

-- Evidences of contact between white settlers and members of the Paiute Indian tribe.

-- Items such as guns and mining equipment used in Southern Nevada from the 1850's to the 1900's.

-- Ancient animals and plants from prehistoric Southern Nevada when part of the area was an inland sea.

-- Mammals such as bobcats, ground squirrels and elk found in Southern Nevada today.

-- Archeological materials which have been preserved through the cooperative efforts of the University and the U.S. Forest Service, the Los Angeles Water and Power Co., the National Park Service, the Bureau of Land Management and the State Highway Department.

All of these exhibits will stand alongside displays which the museum has featured in the past, such as the largest exhibit of live,

poisonous and harmless snakes, lizards, frogs, toads, tarantulas and scorpions; the three-dimensional replica of Indian life circa 1700 a.d.; and the case depicting proper archeological techniques as opposed to archeological vandalism.

All of the archeological material on display in the museum was uncovered either by UNLV field classes or members of the Nevada Archeological Survey.

The museum has remained open to the public throughout the remodeling period and estimates that between September and January more than 2,000 Clark County school children have toured the facility with their classmates and teachers.

Normal museum hours are 1 to 5 p.m. on weekdays, 11 a.m. until 5 p.m. on Saturdays and 1 to 5 p.m. on Sundays. Tours may be arranged during the morning hours by contacting the museum at 739-3381.

## Career placement

NOTE: For interview appointments with any of the following, see Miss Morris in CU-120 before January 21, 1972.

1. January 27 and 28 - UNITED STATES AIR FORCE will interview Senior students, male or female with any degree for Officer Training School after graduation.

# EXPANDING U

MEMORANDUM TO: Students, Faculty, and Staff  
 FROM: Brock Dixon, Dean of Administration

## ACCESS TO NEW HUMANITIES BUILDING

First the bad news: Some of your nearest and dearest parking lots have been closed for remodeling by the contractor who is working on the campus improvement project.

Now the good news: Three new temporary areas have been made available for use during this brief period of inconvenience. One is a large lot located north and northwest of the Chemistry Building with marked access from Harmon Avenue directly across from the Interim Office Building. Another is directly west of Tonopah Hall between the University Road corner and the dormitory. The third is a section of the existing permanent dormitory parking lot near University Road Spaces on all of these temporary lots will be unreserved and signs will guide you to them. Remember, five large parking lots--completely paved, lighted and landscaped--will provide ample space when the project is finished.

The Parking and Traffic Committee has reserved the parking lot between the Gymnasium and the Science and Technology Building for the use of faculty and staff. Although this consolidation of reserved spaces does not provide as many faculty and staff spaces as were available in the lots which have been temporarily closed, remember that this, too, shall pass.

The Parking and Traffic Committee advises faculty, classified staff and students as well as the general public that there will be no parking in the lots under construction until the work is finished and they are released to us. This prohibition must be enforced even if it becomes necessary to tow away violators.

Policy suggestions with respect to parking matters should be addressed to the Dean of Administration who maintains liaison between the Parking and Traffic Committee and the campus community. If there is extraordinary justification for an appeal from a parking citation during this construction period, the normal routes of appeal are, of course, open.

The approximate dates for the opening of lots under construction are as follows:

- ★ Social Science parking lot, the week of January 18.
- ★ New lot north of the Theatre and Teacher Education Buildings, week of January 20.
- ★ Student Union parking lot, as soon as construction permits.
- ★ Lot west of University Road across from gymnasium, as soon as construction permits.
- ★ Grant Hall parking lot, as soon as construction permits.

Signs and notices will tell you which lots are available and security officers will be on hand to assist you in parking during this period of temporary difficulty. In the meantime, your patience, cooperation and continued good humor are urgently needed. The end result will be an expanded parking facility and a vastly improved environment.

The University has received approval from the State Planning Board to use classrooms on the first two floors of the Humanities Building for the start of second-semester instruction. However, access to these floors must be routed temporarily through certain entrances because of continuing construction of the building. In addition to the information below, signs will be posted at the site to guide your entry into the building.

**FIRST FLOOR.** If your classes meet in Room 126, 141, 142 or 144, you must enter the building through the door marked "Entrance A" on the map below.

**SECOND FLOOR.** Temporarily, there is one access only to all second floor classrooms (Rooms 201-218, 233-242, and 245). This is through the door marked "Entrance B."

NO ONE MAY ENTER THE HUMANITIES BUILDING FROM THE MARYLAND PARKWAY SIDE OF THE STRUCTURE WHILE CONSTRUCTION IS STILL IN PROGRESS.

**THIRD THROUGH SEVENTH FLOORS.** Faculty and staff will be able to move into the offices in the remainder of the building on a floor-by-floor basis as they are completed and approved for use by planning authorities. Terminal date of the construction contract for the entire building is February 1.

# Henry VIII on TV 10

## Ecology Briefs

Elvi Hale, who stars in the fourth episode of "The Six Wives of Henry VIII" on the Public Broadcasting Service Masterpiece Theatre series, began her career with the BBC - as a secretary in the music department.

Naturally, being a secretary in the music department was not what she had really wanted to do - she had tried, unsuccessfully, to get a job as a secretary in the drama department.

But it was real drama, not typing, that was her first interest.

And so, she left the typing pool, enrolled in the Old Vic School, and was seen by Sir Laurence Olivier, who directed her career for four years.

Now, she is back at the BBC. But now she's a star, appearing with Keith Michell in a 90-minute color dramatization of Henry VIII's marriage to Anne of Cleves which will be seen Sunday, Janu-

ary 23, at 9 p.m. and Wednesday, January 26, at 10 p.m.

The play is the story of Henry's fourth marriage, which was a diplomatic alliance with Germany against France. Henry and Anne carry on a courtship through ministers, and when the two finally meet, Anne proves too homely for Henry, and Henry too bawdy for Anne.

A turn in the political tide makes the alliance between England and Germany unnecessary, and fortunately for both, their marriage is annulled.

Ironically, Anne, who never returns to Germany, establishes herself in a castle in England and in later years becomes one of Henry's closest friends.

"Anne of Cleves" was written by Jean Morris, directed by John Glenister, and produced by Ronald Travers and Mark Shivas.

A \$10 million, 100,000 sq. ft. Federal laboratory has been opened in Ann Arbor, Michigan, to test auto emissions, examine emission control devices, and evaluate automotive power systems proposed as alternatives to the internal combustion engine. The new lab will provide the necessary EPA certification for all automobiles offered for U.S. sale as provided for in the Clean Air Act of 1970.

Charged with responsibility for the deterioration of the quality of the local water, Mayor Pietro Guglielmini of Civitavecchia, Italy, became the first Italian official arrested for what many saw as bureaucratic indifference to environmental quality. The mayor spend a night in jail at the order of a local magistrate. "We just leave the coastal waters alone," a local fisherman said. "The sea of Civitavecchia is impestato"-infested.

# Buckley Jr. voices opinion

William F. Buckley, Jr. and eight student activists will exchange opinions on the significance of the 18, 19, and 20-year-old vote on "Firing Line" Sunday, January 23, at 8 p.m. on Channel 10. It will be repeated Tuesday, January 25, at 10 p.m.

The 26th Amendment to the Constitution, ratified last summer, lowered the voting age to 18. More than 11 million potential new voters under 21 could cast their ballots in the 1972 Presidential election.

Some student activists and voter registration organizers optimisti-

cally predict that if sufficient numbers of the newly enfranchized young enroll, they could represent a major voting bloc - a bloc which could radically reject traditional political patterns and reorder national priorities. They point to the impact on national politics made by young people during the 1968 McCarthy campaign.

Skeptics disagree. Many observers believe that this new segment of the electorate will divide along roughly the same lines as the rest of the general voting public, but with an even lower level of participation. Only 61 percent of the

eligible voters of all ages went to the polls in 1968.

So far, young voters are registering 2 to 1 in the Democratic party. But according to a recent poll, the largest bloc - 42 percent - consider themselves political independents.

Whatever their persuasion, both Democrats and Republicans are actively engaged in wooing the newly enfranchized young.

Firing Line is a production of the Southern Educational Communication Association.

Producer-director: Warren Steibel.

# BS FROM DC

Continued from page 2

... America's progress in flight and space exploration must continue even though the public's honeymoon with these programs appears to be ending, Nevada Sen. Howard Cannon said here last night.

He called upon the aerospace industry and the federal government to adopt innovative techniques, including a new look at the space program, to meet the challenges of the present economic pinch and a cost conscious public.

Cannon, chairman of the prestigious Senate Aviation Subcommittee, made his remarks at a dinner honoring him for "outstanding services to U.S. aviation." He was presented with the Wright Brothers Memorial Trophy by the Natioal

Trophy by the National Aeronautic Association, whose previous award winners were such aviation pioneers as Charles Lindbergh, Lt. General James Doolittle and Dr. Hugh Dryden.

... Rep. Walter S. Baring, D-Nev., has put his support behind legislation to expand the economic and social opportunities in rural America. The bill is the Rural Job Development Act.

The major provisions in the bill include tax incentives in the form of a seven percent credit on machinery and real property, an accelerated depreciation allowance and a tax deduction equal to 50 percent of the wages paid to workers in training. This is designed to attract new enterprises to rural areas.

To qualify, the businesses would have to demonstrate that they would not be closing a comparable enterprise in another area and agree to hire at least 50 percent of the work force needed from among the residents of the area where the business locates.

Baring noted that Indian reservations would qualify.

... The Honorable Walter S. Baring was honored recently in the Service Award by the Board of Trustees of the non-partisan Americans for Constitutional Action.

ACA's Distinguished Service Award is bestowed every two years upon those legislators whose voting records in the Congress of the United States support legislation which serve to strengthen and defend the spirit and principles of the Constitution of the United States.

## Student problems -

### -Union theft

by Richard Juillerat

During a recent interview with Dean Black, Director of the Student Union, it was brought out that a lot of expenses made by the Student Union Board were unnecessary and caused by carelessness of the students. Over the past year, theft of furniture and equipment, and malicious damage including beer bottles thrown through windows, has cost the Student Union Board over \$9000.00 which could be used for more and better things. One of the main problems that has come in contact with the Board is the distribution of keys to too many of the wrong people. Plans are now in the making to have the building rekeyed for the second time, but with a limited amount of keys distributed. This will entail even more financing. A 24-hour surveillance is being planned at the present time with a stricter security system. The Board hopes to work together with the students on the

problem of carelessness helping the students realize that it is their money paying for these items.

An estimated growth to 6,500 students at UNLV is predicted with the opening of the new constructions. Our present facility is not large enough for this type of population. The Board is contemplating expanding the facility, but can't because the cost of damage is limiting funds. Some other steps being taken by Dean Black and his staff is programming for teenagers to stay away from and out of the building, to set an age limit of 16 and older. Though it is not only the juveniles that are spending the

unnecessary dollars but a conglomeration of the whole. "A lot of people just don't care" according to Dean Black. A publicity campaign will be started to keep the students informed on what is happening and to encourage the students to attend meetings of the Board and other committees, getting involved in what is happening. Though, student cooperation is needed in order to "save what's left of our union" emphasized Black. A new regulation for students being caught stealing or otherwise hindering Union property in any manner will be having to face the conduct board and chance being suspended from the University. If he is a non-student he will be reported to the Sheriff's Department for proper action. The problem with most students is that they see the Union as a large corporation and not as their building. The Board is working to change that image, but here again Dean Black is "talking pure student dollars." A more positive view is needed with broader programming. A purchase of four chairs at \$100.00 each was made recently for use in the information booth. To date we have three left, and two have been literally SLICED! After this experience it was decided to bring in functional yet destructive furniture and have the Union not look as attractive as the students would like it. The Board would like the students who do care to be conscious of the problems facing them now and help them solve these and work thoward perfection by year end.

# Here's all the I.D. you need to cash a Nevada State Bank personal check!

Why go through the "driver's license - voter's registration - credit card hassle" every time you want to cash a check? A Nevada State Bank Photo Check Guarantee Card is honored everywhere for up to \$150 in goods, cash or services.

In addition, cardholders qualify for a Nevada State Bank Ready ReserAccount which will add extra money to their checking account at those crucial times when it's really needed.

Open a personal Nevada State Bank checking account, then apply and qualify for your Photo Check Guarantee Card. If you're below legal age, you can still get one by opening a joint account with your parents.

## Announcements

### Cayce lecture

The Association for Research and Enlightenment sponsors a lecture by Dr. Gina Cerminara, February 3, 1972, Thursday at 7:30 p.m. in the Student Union Building of the University of Nevada, Las Vegas. "The Significance of Edgar Cayce in the 20th Century" is the title of her presentation, which is open to the public.

Reincarnation, the fascinating subject contemplated by many and intensively studied by Dr. Gina Cerminara as published in her remarkably popular books "Many Mansions," "The World Within," and "Many Lives, Many Loves" has been enhanced by investigation of the vast files of the American psychic, Edgar Cayce.

Dr. Cerminara received her degrees at the University of Wisconsin, where an academic survey in psychology resulted in a deep exploration of reincarnation and all its ramifications. After the fourth edition of "Many Mansions" in Japan (it is in its 18th printing in this country,) Dr. Cerminara was invited to give nine lectures in Japan last fall.

The several Cayce Study Groups in this city extend a cordial invitation to attend the February lecture and anticipate arrangements for a Medical Seminar on May 26 and 27th.

### Engineers meet

All engineering majors are reminded of the meeting of the student chapter of the National Society of Professional Engineers. The meeting will be held at 3:00 p.m. January 24, 1972 in Science-Tech room 204. This meeting is very important because officers will be elected. A film of interest to all engineers will be shown.

### Foreign students

The immigration and Nationality Act requires that every alien, regardless of immigration status, must report his address to the Commissioner of Immigration and Naturalization on an official Alien Address Report Card (Form I-53) during the month of January. Members of the UNLV community may obtain this card from and return it to Dr. Robert A. Stephens, Dean of Men and Foreign Student Adviser, in the Office of Student Personnel Services.

### ID validation

This Spring you must have a spring validation sticker on your I.D.'s for it to be valid for the spring semester. These stickers must be picked up by February 11. Pick up the stickers in CSUN office.

## VETERANS

As soon as you register and PAY YOUR FEES, immediately bring your GREEN Library receipt card to the Veterans Services Office in Student Personnel Services, and fill out a new Information Sheet, You MUST fill out a new Information Sheet in order to be paid for the Spring Semester. FAILURE TO DO SO BY JANUARY 28, 1972, will force the Veterans Services Office to cancel your V. A. benefits as of the end of the Fall Semester (December 22, 1971.)

### gort

Tell me, Gort... can you truly portend the future of War?

Hmm... I now see the distant future. I see numbers... I see statistics!

I see the Roman Army. The cost to kill one enemy is... 70¢. - Now I see a man named Napoleon. To kill one enemy soldier, it costs him \$3,000.

Next I see World War I. To destroy a single enemy: \$20,000. - I see a war known as World War II. To kill a man: \$50,000. The next war is... wait! That's odd!... it has no name, no statistics.

No statistics??  
No cost-per-kill??  
No World War III??

Hmm...  
No world.

The YELL has openings for writers, artists, ad salesmen, etc. Some of these are paying positions. Help to make your newspaper one to be proud of. See your name in print. Bolster your ego. Have something to put on your resumes. Many advantages. Do something for your school. Stop complaining and write about what bothers you. Contact the YELL office in the Student Union Building, room 304.

Over 3,000 attend

## Conference for new voters

Reprinted by permission — SAGEBRUSH — U N R  
by Pat Murphy

(Editor's note: Murphy was one of three Nevadan's who recently attended the National Emergency Conference for the New Voters in Chicago. This is a two-part series.)

In a land that's known as freedom  
How can such a thing be fair  
Won't you please come to Chicago  
For the help that we can bring

—Graham Nash

Over 3,000 young people from across America converged on the Chicago campus of Loyola University December 3, 4 and 5, to seriously evaluate how they can affect change within the American political system in the 1972 elections. Organized by the National Association of Student Governments and endorsed by one hundred student body presidents, the three day conference drew delegations from forty-seven states.

The purpose of the conference was to establish a national organization to provide leadership to young people interested in working within the present political system. The formation of the National Youth Caucus was a direct result of the efforts of those at the Chicago conference.

The Youth Caucus has representatives in most states who are now working to ensure young people an opportunity to seek a delegate position at the two national nominating conventions to be held this summer in Miami (Democratic) and San Diego (Republican).

Precinct work is seen as the best possible route to the national conventions. The Caucus urged its members to return home and begin to build a power base for young people in their precinct, county and state.

Many workshops were held during the conference covering the entire spectrum of the political arena. Voter registration, fund raising and delegate selection process were among the topics discussed in the workshops.

The delegates to the conference were young, largely white, middle class university students interested in the political process. There was a quality of unusual seriousness about the conference.

The typical political posters and advance men were there from the numerous Presidential aspirants cluttering the hall ways and walls with campaign material. However, the delegates seemed removed from the political hoopla of national candidates and devoted their efforts to the organizing of the Youth Caucus and the acceptance and implementation of proposals coming from their state, regional and special interest caucuses.

No official endorsement of any Presidential candidate was made by the group, but there were some definite indications of who they did not support. Of the current front runners for the Democratic nomination Henry "Scoop" Jackson and Senator Hubert Humphrey clearly did not have the support of the delegates there.

President Nixon and George Wallace were considered with equal dislike by the delegates.

There was an effort by a group at the conference to upset and confuse the proceedings as much as possible. Walkie talkies were employed by some of these people and several members of the press and conference directors were aware of their efforts.

Several of the people admitted they were

trying to disrupt things because of the negative opinions towards Senators Jackson and Humphrey which had been openly expressed by many delegates.

They stated they were trying to avoid having the conference come out with a public disapproval of the two Democratic Senators.

Numerous proposals, drafted by state and special interest caucuses, were presented from the floor of the General Assembly. After the reading of a proposal five minutes were granted to the proponents and the opponents of the resolutions and often very heated debates would occur.

The Nevada delegation, with the cooperation of those in the Southwest region, proposed the seating of two delegates representing the American Indians on the National Youth Caucus Steering Committee. The Indian representatives were seated on the Committee with no objections.

The conference indicated a strong stance on the withdrawal of troops from Indochina and stressed the importance of reordering our national priorities to attack, on a full scale basis, the problems of hunger, poverty, education and urban and environmental decay.

The delegates approached the endless caucuses and General Assembly meetings with a never ending enthusiasm. Attendance was high at all the meetings, even those which ran well into the early hours of the morning.

The schedule was flexible and the delegates took it upon themselves to set up their own caucuses during any of the free time between planned sessions. Caucuses were held in the cafeterias, hall ways, and in the lobbies of almost every available building on the immediate campus. The directors had anticipated a maximum of 2,300 students but by noon on Saturday there were over 3,800 delegates participating in the conference proceedings.

Meeting rooms and housing facilities were at a premium and many students slept in dormitory lounges, in cars and wherever else there was room.

Speakers of national prominence addressed the General Assembly meeting through-out the three days. Congresswoman Bella Abzug (D-NY), Julian Bond, Allan Lowenstein and the Reverend Jesse Jackson addressed the entire conference. Senator Alan Cranston, (D-Calif.) and Congressman Pete McCloskey (R-Calif.) also held press conferences previous to their speaking before the entire Assembly. Some of the speakers were very accessible to the delegates and spent considerable time in the small caucuses.

The series of day long workshops were conducted by experts in political organization. Some were taught by students who had previously handled registration drives, fund drives, delegate selection processes and the political power of special interest groups.

Considerable time was devoted to the formation of the National Youth Caucus and what its purpose should be. It is the hope of the conference directors that Youth Caucus members will return to their respective states and organize a state-wide Youth Caucus. The end result of that local Caucus to be the selection of youth delegates to the National Conventions in 1972.

The young people who convened in Chicago for three hectic days of political workshops and strategy sessions reached one obvious and imperative decision; in the summer of '72' they want to be on the floor inside the convention halls in Miami and San Diego—not on the streets outside.

## IRS initiates Centiphone system

The filing season is upon us and the Internal Revenue Service is trying to make it a little bit easier to file your income tax return.

Taxpayers living in outlying areas of Nevada can call the IRS office in Reno for tax information for the price of a local phone call.

In the Reno exchange, taxpayers should call the regular IRS number 784,5521, since it represents a local call. In the Las Vegas exchange area, taxpayers should call the southern Nevada office at 385,6291.

Taxpayers living outside these areas should call the IRS at : 1-(800)-992-5770, their new, toll-free Centiphone number.

"In the past," Warren Bates, District Director of the IRS for Nevada, stated, "taxpayers living outside of our larger cities were at a disadvantage in receiving our free tax assistance - a call to their nearest IRS office could cost them a dollar or more in long distance toll charges.

"But with our new Centiphone system, a call to our Reno office from anywhere in the state will be toll free. In addition to the obvious advantages to the taxpayer in terms

of cost, the system will allow the IRS to concentrate its taxpayer service personnel in key areas to provide broader service than was previously possible. Concentrating our personnel allows us to reduce the cost of running our operations since fewer people are now able to provide services over a wider geographic area."

Bates added that the IRS has been working on the Centiphone system for several years and said, "We recognized the need for the system when an analysis of our taxpayer service program showed that we could serve the public better by telephone than we could on a 'walk-in' basis.

"With the Centiphone system, taxpayers can call easily from their homes and not be inconvenienced by parking problems, possible

waits and then perhaps forgetting to bring along the necessary documents."

Bates added that in addition to tax questions, the IRS would also answer questions and take possible violations on the president's economic stabilization program on the Centiphone lines.

## Weinstein - Romanticist

An associate professor of English at the University of Nevada, Las Vegas has been invited to be a member of the Romanticism panel at this year's meeting of the Modern Language Association in Chicago.

Dr. Mark A. Weinstein and other members of the panel will hold discussions on the subject of "Imagination and Reality in Romantic fiction."

The Modern Language Association, meeting between Christmas and New Year's, is the world's largest and most prestigious organization of scholars in the field of modern languages and literatures and has more than 33,000 members.

The annual meetings attract sch-

olars from universities all over the world.

Dr. Weinstein is a well-known specialist in the area of Romantic poetry and fiction and has published widely in his field. His most recent article on this subject will appear in this month's issue of "The Wordsworth Circle," a literary journal.

A member of UNLV's faculty since 1970, Dr. Weinstein earned his bachelor's degree from Cornell University and his master's and doctoral degrees from Yale University. He is a member of Phi Beta Kappa honor society and is listed in the "Directory of American Scholars" and the "Dictionary of International Biography."

## Sabbaticals for UNLV five

Sabbatical leaves were granted to five University of Nevada, Las Vegas faculty members at last month's regular meeting of the Board of Regents.

Dr. Robert Davenport, acting dean of the College of Arts and Letters and associate professor of history, will devote the next fall term to research on Fremont Older (1856-1918), a San Francisco newspaper editor, for a biography he is writing.

Dr. Chad M. Murvosh, associate professor of biology, will develop the format for two books on biological research during the spring semester of 1973.

Dr. Harrie F. Hess, professor of psychology, will travel to international meetings in the field

of clinical psychology and publish a series of research papers related to child psychology and published to child psychology during the 1972-73 academic year.

Dr. Bert B. Babero, professor of biology, will undertake research investigations at the University of El Salvador and several other Central American locations during the spring semester of 1973.

Carl E. Wade, associate professor of economics, plans to pursue research relating to public utility and transportation pricing during the next academic year.

All applicants for sabbaticals were received and ranked by the campus' Sabbatical Leave Committee.

# UNLV TAMES WAVES

## Sports

Brilliant Bobby Florence sent out for some wood, lit his fire, and camped under the Pepperdine University basket for 37 points to spark the University of Nevada, Las Vegas, past the Waves, 92-83, for the Rebs' first West Coast Athletic Conference basketball win against two losses Thursday night at the Convention Center.

Florence, who didn't have a shot from more than four feet out the entire night as he shiftily shook up the small Wave front line, sat out the final 8:27 of the contest.

But it didn't matter, since the Rebels, now 5-7 on the season and 1-2 in conference play, had a 79-57 lead at the time.

Coleman, the 6-8 Reb transfer, came through with a rebirth of Rebel big men, scoring-wise as he canned 18 points and pulled off nine rebounds.

In the first two UNLV conference games, the four Reb big boys (Coleman, Toby Houston, Norman Knowles and Warren Walk) had combined for 13 points.

Baskerville, still slowed somewhat by a tender ankle ("He's about 80 per cent effective," says Bayer) didn't have a brilliant offensive night with five points but matched 16 rebounds.

Pepperdine started a lineup that featured only two men over 6-1 and was soundly thrashed on the boards, 69-40.

The first half was as streaky as a hand-painted Model T, with the Rebs outscoring the Waves 21-4 at one point to take a 41-26 lead only to go into hiding the last four-and-a-half minutes of the half.

Pepperdine, sparked by the long bombs of the hot-shot duo of William Averitt and Reggie Harris, smashed in 11 straight points to close the margin to 41-37 at halftime.

UNLV was content to let Averitt, the WCAC's leading scorer with a 30-point average, and Harris, right behind at 27, go ahead and shoot in the second half.

Harris responded with 24 points and Averitt had 18.

With the Rebs leading only 49-47 with just over 16 minutes to play, Florence poked in six points in the space of 50 seconds to send the Rebs winding on their way.

UNLV, which hit 48.7 per cent from the field and 60.2 from the line for the game, stormed out of the dressing room with Florence and Coleman leading the charge, and steadily pulled away to a pair of 23-point leads (77-55 and 81-59).

Then Coleman got hot, pouring in seven of the Rebels' next 16 points as they pulled safely away.

UNLV held an 89-60 bulge with just 3:35 remaining, but the beaten Waves closed the gap with

nine straight points.

Bayer emptied the bench and actually had time to relax a bit and cross his legs as the Waves, now 5-6 overall and 1-2 in loop play, tried hopelessly to catch up.

A key to Florence's seemingly easy night of it under the hoop was the clever passing arm of guard Booker Washington, who was credited with 10 assists although scoring a season low nine points.

As a result of capitalizing on feeds and making some of his own breaks, Florence hit an amazing 16 of his 18 field goal attempts, and chipped in five more free ones in six tries.

Once again, UNLV will be going up against a tall front line, and Bayer would like to think a lower scoring game will be in order.

# BAKER PACES FROSH

Amazing Jim Baker poured in 48 points and hauled down 38 rebounds as the University of Nevada, Las Vegas, freshman whipped the Pepperdine frosh, 101-71, Thursday night at the Las Vegas Convention Center.

Tuesday night Baker, 6-9, scored 50 points and grabbed 30 rebounds against the University of Southern Utah freshmen.

UNLV outrebounded Pepperdine by a stunning 94-32, as 6-9 Don Weimer snagged 29 and 6-11 Dan Cunningham snatched 15 to back up Baker's effort.

Weimer tallied 28 points while Eddie Taylor scored 12.

Leading the losers was Rick Williams with 29, followed by Allan Jones with 20.

The Freshmen, after their third straight victory, are now 8-6 for the season.

Rick Williams was the leading rebounder for the losers, grabbing only six. UNLV shot .500 to Pepperdine's .443.

# REBELS CRUSH LOYOLA

Robert

Florence, who weaved his way underneath for 32 points, sparked a spirited University of Nevada, Las Vegas, basketball team to a 101-84 West Coast Athletic Conference victory over Loyola University here Saturday night.

Florence, only 6-4, also added 14 rebounds and his brilliant overall play garnered him WCAC Player of the Week honors. The award was given after the game by conference information director Bill Barron.

The Rebels trailed through the very early going, but they were paced by Florence and hard-charging Al Clise and scored 10 straight points in the space of three minutes to zoom ahead 29-19 with 6:42 left in the first half.

After that, Loyola could do no better than close the gap to a scary three points at 50-47 with 15:30 left in the game.

But the dazzling Florence, who was going up against 6-8 Steve Smith and 6-9 Robb Morgan,

cheerfully drew foul after foul and pulled off his familiar snazzy moves under the basket to spark the Rebs as they steadily pulled away.

Florence hit nine of his 14 field goals and 14 of 19 foul shots as the Rebs shot a respectable 48.6 per cent from the field a healthy 74.4 mark from the foul line.

The Rebels steadily widened the margin and held their biggest lead of the night, 95-75, with 1:20 left in the game.

Walk, who played only 16 minutes of the contest, was effectively under the bucket on both ends of the court, and added eight rebounds to his 13 points.

The Lions were paced by Smith, who had 22 points and 20 rebounds which bettered his season average of 20.0 points per game.

Loyola actually outrebounded the Rebels, picking off 50 boards to the UNLV's 53.

The Rebels, who flew back to Las Vegas directly after the

game will take today off from practice and will work out at the campus gym Monday in preparation for Tuesday's trip to Reno to tackle the University of Nevada, Reno, in a league game.

UNLV then returns to the Convention Center for a contest with Cal State Los Angeles Thursday night.

The Rebels, 2-2 in WCAC play and 6-7 overall, trail league-leading Santa Clara (4-0), University of San Francisco (3-0) which played a late game with St. Mary's Saturday and Seattle (3-1), loser Saturday to Santa Clara. Pepperdine (2-2) is tied for fourth place with the Rebs.

UNLV..... 48-55 - 101  
Loyola..... 30-46 - 84  
A - 1000.

Thurs. Jan. 20 L. A. State Jan. 19 12:00PM-4:30PM  
Jan. 20 9:00AM-6:30PM

**IMPORTANT**

**PLACE OF DISTRIBUTION** - North ticket office in front entrance Campus Gymnasium. Tickets are not available at games.

**IDENTIFICATION** - Present your **UNLV** I.D. to pick-up tickets. Your name must also appear on approved list.

## Intramural

Entry forms for men's volleyball and men's and women's badminton are now available in HPE 102.

Men's volleyball will begin Sunday, February 6 and last for five weeks through Sunday, March 5. Games will be scheduled between noon and 5 p.m. Entries are to be returned to Coach Doering by Wednesday, January 26 with a \$10 forfeiture fee which is refundable if your team doesn't forfeit any games. No entries will be accepted which are not fully completed on the proper entry form.

Round Robin competition will be held in badminton in men's and women's singles, men's and women's doubles and mixed doubles.

Competition will be held on Wednesday evenings from 7 - 10 p.m. beginning Wednesday, February 2 and ending Wednesday, March 1. Entries are to be returned with a \$1.00 forfeiture fee per entry. Therefore, a person entering three different events would pay a \$3.00 forfeiture fee.

CAMPUS EXT. 284**

## KOTSCHEVAR

One of the nation's most renowned hotel educators will be a visiting professor during the spring semester at the University of Nevada, Las Vegas.

Dr. Lendal Kotschevar will teach a full load of classes in the College of Hotel Administration, including courses in basic foods management service systems and individual student research.

Author of many basic texts used throughout the nation's hotel and restaurant schools, Dr. Kotschevar served as a member of the Michigan State University faculty for 10 years before entering the consulting field.

Kotschevar earned two bachelor and one master's degrees from the University of Washington. He received his doctorate from Columbia University.

"We believe," noted Jerome Vallen, director of the College of Hotel Administration, "that Dr. Kotschevar will make significant contributions to the curriculum and the student body."

The hotel faculty now includes eight full-time and ten part time instructors. Student enrollment reached 337 during the fall semester.

Dr. Kotschevar's position is being underwritten financially by the Nevada Resort Association.

## Las Vegas hosts math convention

About one third of all the college mathematics professors in the nation are assembled in Las Vegas presently for the combined annual conventions of the American Mathematical Society and the Mathematical Association of America. The meetings Jan. 16 through 21 in the Sahara Hotel were arranged by the mathematics department at the University of Nevada, Las Vegas.

Michael Golberg, a lecturer in mathematics at UNLV who is serving on the local arrangements committee, estimated that about 5,000 mathematicians would attend the six-day convention.

It is the first time, Golberg said, that either national organization has conducted its annual meeting in Las Vegas.

Highlighting the sessions for the A.M.S. is the awarding of the Frank Nelson Cole Prize, an honor bestowed by the society every five years to the person making the most significant contribution to algebra and the theory of numbers.

Later this week, the M.A.A. will announce the recipient of its annual Award for Distinguished Service to Mathematics which recognizes activities other than research which have significantly influenced the mathematics profession on a national scale.

This year's Josiah Willard Gibbs Lecture, named in honor of a leading American physicist of the late 1800's will be delivered by Dr.

Freeman J. Dyson of Princeton University.

Traditionally one of the most prestigious occasions in the realm of mathematics, the Gibbs Lectureship has been given in past years by such distinguished scientists as Prof. Albert Einstein and Prof. John von Neumann, one of the fathers of the modern computer.

Einstein's 1934 lecture, incidentally, was titled "An elementary proof of the theorem concerning the equivalence of mass and energy." Today, his "E=MC<sup>2</sup>" theory of relativity is one of the most famous equations in all the science.

Of particular interest to Nevada residents will be a full day session by the M.A.A. entitled "Players, Probabilities and Profits" during which mathematicians will explore such topics as "How to Gamble Successively," and "Games Mathematicians Play."

The mathematicians reviewed the "open university" system of mathematics education as it applies to the U.S. during one of the panels. The system, already adopted in England, allows students to earn a college degree by viewing public television and passing written examinations.

Other panels are exploring various aspects of modernizing mathematics education in the public schools and in college curriculums.
