

"60 Minutes" Ed Bradley to give speech at UNLV

Ed Bradley - "60 Minutes" reporter to speak at UNLV on September 13 at Artemus Ham Hall.

By Bonar Tucker
Editor

Ed Bradley, CBS reporter and member of the "60 Minutes" reporting team, will open the Barrick Lecture Series 10th season with a speech entitled "60 Minutes with Ed Bradley."

Bradley's talk will be at 7:30 p.m. in the Artemus Ham Concert Hall at the University of Nevada, Las Vegas on Sept. 13.

In the early 1970s, Bradley was a CBS stringer in Saigon. Before that, he was a reporter in New York and also Philadelphia, his home.

Bradley then served as White House correspondent and anchorman for the "Sunday Evening News" on CBS. He next joined the "60 Minutes" crew.

The winner of numerous journalism awards, Bradley's achievements include several Emmy and Alfred DuPont - Columbia University awards.

Tickets are required but Bradley's talk is free. UNLV Performing Arts Center will have the tickets available beginning Sept. 8 at their box office.

The box office telephone is 739-3801. Hours are 10 a.m. to 6 p.m. weekdays and 10 a.m. to 4 p.m. Saturdays.

News In Brief

To whom it may concern

I hope you won't mind interrupting your hectic schedule to put a smile on the face of a little boy who is dying of cancer.

Craig is a ten year old boy who has a tumor and has a short time to live.

It is Craig's wish to be entered in the Guinness Book of

World Records as the individual having received the largest number of Get Well Cards.

Police radar not always accurate

A free report from the National Institute of Standards and Technology shows that police radar is not always accurate and speeders may not deserve their tickets. Many people caught speeding have used this report in court to beat their ticket or

get their fine reduced. It's worth a try.

Ask for the report called "Police Traffic Radar" from Law Enforcement Standards Laboratory, NIST, Bldg 224, Room B-16, Gaithersburg, MD 20899, 301-975-2757.

Liberal Arts Colleges to be replaced

NEW YORK (CPS) - Only 212 "private liberal arts colleges" remain in the United States, and they may soon be replaced by "professional colleges" that "cater to current student concerns with the job market," warned David Breneman, former president of Kalamazoo College in Michigan, in an article about to be published in The College Board Review magazine.

Breneman said such schools, which offer only bachelor of arts degrees and generally don't en-

roll more than 2,500 students, have been losing students to colleges that also offer advanced professional degrees.

"Only the liberal arts college," he said, "emphasizes and rewards good teaching above all else."

Recycling

a committee to check on the effectiveness of all programs.

"Part of recycling," informed Edson, "is creating an outlet for what you are saving. We think we can do a lot of good here."

Rob Rosenthal (KUNV general manager) submitted a proposal last year for UNLV student government to consider. This proposal cited the resources and manpower available to the stu-

dent government and their possibilities for use in recycling. These possibilities have got to take form.

UNLV student body President Joe Bunin said, "We are very interested in the whole idea of the environment and recycling and getting a program set up."

He cited a lack of communication regarding who would propose the plan as the reason for the delay and said he will look

into the matter.

"The subject of recycling generally brings little opposition but it does bring problems," said Mary Ann Carpenter, community outreach coordinator for the Environmental Protection Agency.

"I have seen a lot of interest generated at UNLV," stated Carpenter. "The problem is getting someone to institute some kind of plan."
