

HOW MUCH WE DEPEND ON UNRELIABLE SOURCES OF OIL DEPENDS ON YOU.

If you have two cars, using the more efficient one will help save us two million gallons of gas a day.

Using lower octane fuels will help save America two-and-a-half-million gallons of gas a day.

Driving just five miles per hour slower will help us save over two million gallons of gas a day.

Carpooling and using mass transportation will help save almost four million gallons of gas a day.

Maintaining the correct tire pressure will help save over two million gallons of gas a day.

It really is this easy. That's why President Bush hopes that, together, we can make America more fuel independent. **DO YOUR PART. DRIVE SMART.**
