More doctors recommend extra-strength HP.

More and more PhDs across the country are recommending Hewlett-Packard financial and scientific calculators to their students. And for some very strong reasons.

"The HP 48SX Scientific Expandable has powerful graphics tools that are remarkably helpful to students learning mathematical concepts. And with the equation solver feature, it's excellent for applying mathematics to engineering," according to Dr. William Rahmeyer, a professor of civil and environmental engineering at Utah State University.

"The HP Business Consultant II has an equation solver and extensive

math functions. These free the students from computational tedium so they can think and interact on a higher level," says Dr. Lee V. Stiff, a professor of math education at North Carolina State University.

So go check out the HP calculator line at your college bookstore or HP retailer. You'll agree, there's no faster relief from the pain of tough problems. HP calculators. The best for your success.
