## HOW TO STOP A THROBBING HEADACHE

NO ONE KNOWS EXACTLY WHAT CAUSES THEM. ONE MINUTE YOU'RE ALL PEACEFUL AND HAPPY, THE NEXT YOU FEEL LIKE HORNETS ARE FLYING AROUND INSIDE YOUR BRAIN--FOR NO EXPLICABLE REASON.

QUICKLY, BEFORE IT GETS ANY WORSE, YOU MUST FIND A QUIET ROOM. LOCK THE DOOR, PULL THE SHADES, UNPLUG THE PHONE, TURN OFF THE LIGHTS, AND GET COMFORTABLE.

TURN YOUR THOUGHTS INWARD. IGNORE ALL OUTSIDE STIMULI.

NOW BEGIN TO VISUALIZE YOUR PAIN. STAY WITH YOUR PAINFUL BRAIN IMAGE FOR SIXTY SECONDS.

THEN, VERY SLOWLY, BEGIN TO IMAGINE YOUR HEADACHE CHANGING INTO SOMETHING MILDLY PLEASANT, IF NOT DOWNRIGHT AMUSING.

TRY TO IGNORE YOUR PAIN DURING THIS STEP. TAKE IT NICE AND EASY. ENJOY THE HEALING PROCESS.

WITHIN FIVE MINUTES, YOU SHOULD FEEL MUCH BETTER.

PRESTO! YOUR THROBBING HEADACHE IS GONE! WASN'T THAT SIMPLE?

NOW RETURN TO THE REAL WORLD, HAPPY AND REFRESHED.

No Exit
