

WASTE

Kostman also mentioned a number of activities Student Government is planning this fall including a review of the candidates running for the Board of Regents. A group of student leaders will interview candidates and discuss their qualifications. The group will meet on October 5 and plans to issue a recommendation soon after that.

Also on tap for this fall is the adoption of a student bill of rights. Kostman said it was worked on over the summer and is now being reviewed by legal counsel. If given the go-ahead, it will be sent to the Regents Counsel and, Kostman hopes, approved by the regents in November.

Student Government also plans to distribute a "safe map" of the campus showing the areas to avoid at night and a handbook for students that addresses the issues of sexual assault, harassment and discrimination.

Kostman plans to give his State of the Campus speech next Wednesday at the Student Senate meeting outlining where he stands in relation to his campaign prom-

ises. He said he plans to fulfill them all.

On a strange note—Kostman had his car vandalized at 2:30 a.m. yesterday. Kostman said that he has gotten threatening telephone

calls since his second week in office. The callers threatened his life and property if he continued to back Maxson.

Save Money!

WORK SMARTER. NOT HARDER.

We're working smarter, too. So you don't have to work harder.

For us, it means an ongoing relationship with educators and professors, striving to understand what's

Like the TI-68, an advanced scientific that solves up to five simultaneous equations, performs complex numbers and offers formula programming.

Plus a whole lot more.

No matter what your major, no matter what the course, there's a TI scientific or business calculator that's right for you. Do the smart thing: make one of them a part of your professional personality now, and for the years to come.

You'll be on your way to working smarter. Instead of harder.

Try the entire line of TI scientific and business calculators at your local TI retailer.

The TI-36X SOLAR, a general purpose workhorse powered by ANYLITE™ solar cells so you never need batteries.

The BA II PLUS™ For business students, this is the one to get. It handles time-value-of-money and offers cash flow analysis for internal rate of return (IRR) and net present value (NPV).

needed to help them make math concepts come alive.

It means continually working with students like you, discovering firsthand what you expect from the calculator you select.

The result? Calculators that are highly recommended by your teachers and peers. Calculators that are perfectly matched to your major and your coursework.

The TI-81 is a perfect example. It offers the most comprehensive, easy-to-use graphing features available with extensive programming capabilities.

And there are others.
