**Aquarius (Jan. 20- Feb. 18)**  
The most intriguing part of your day will be something that you eat. Avoid all fruits today. A professor will be wearing an article of clothing similar to one that you own. This is the best possible time for romantic involvement, so get a date. Your color for today is fuchsia.

**Pisces (Feb. 19- Mar. 20)**  
A large blue thing with green projectiles will severely alter your plans today. Your favorite pair of shoes needs to be cleaned. Anything that has to do with lace will spell disaster for you, especially lingerie. Your color for today is anything but blue or green.

**Aries (Mar. 21- Apr. 19)**  
Willpower is the key to success today, don't give in to anything unless you are genuinely sure that it is good for you physically, mentally, and emotionally. Renew an old hobby in your

spare time, now it will really pay off. Your color for today is beige.

**Taurus (Apr. 20- May 20)**  
Your favorite relative has something to tell you; however, they will only tell you if you ask them to. Do something about that unwanted body hair, it is really starting to get out of hand. A Leo is thinking about your plans for this weekend. Find this person and ask them why. Your color for today is turquoise.

**Gemini (May 21- Jun. 20)**  
It is completely, totally, and unavoidably imperative that you meet at least ten fellow students under the Gemini sign. Unfortunately, you will have to use the ever-popular "Hi! What's your sign?" Don't be shy about any of your concerns today; shyness won't take care of them. Your color for today is purplish-blue.

**Cancer (Jun. 21- Jul. 22)**  
Big white potatoes will have a severe influence on your very near future. Don't eat them; study how they relate to your life in general. Your love life takes a turn for the

better. A Pisces needs you. Your color for today is orange.

**Leo (Jul. 23- Aug. 22)**  
Admit that you love that special someone. Avoid anyone with more than three vowels in their name. Be extremely alert in class, this will have a positive affect on your performance. Get rid of any pastel colored notebooks, they are extremely bad luck. A very hyper Capricorn will cause you to drop something on the floor. Your color for today is lime-green.

**Virgo (Aug. 23- Sept. 22)**  
Aghhhhhh! The sign of the virgin...Ha! That's a joke. Well, it would be advisable for you to live the celibate life this week. Any "extra-curricular activities" of that sort should be avoided. Your color for today is magenta.

**Libra (Sept. 23- Oct. 22)**  
Watch out for birds flying above you today, your head is like a magnet for their little "birdie bombs." The one thing you absolutely must do today is to make time for family. Make that long awaited telephone call or write that overdue letter.

You're compatible sign for today is Sagittarius. Your color is orange.

**Scorpio (Oct. 23- Nov. 21)**  
Follow your heart. For too long you have allowed yourself to be swayed (by bad influences) on important decisions. A former friend is jealous and severely tarnishing your reputation. Give someone with low self-esteem a compliment; you will both feel a great deal better about yourselves. Your color for today is pink.

**Sagittarius (Nov. 22- Dec. 21)**  
A blast from the past is healthy this week. Watch a couple episodes of "Sesame Street," fond childhood memories will emerge. Avoid anyone under the Pisces sign who is carrying a blue thing with green projectiles. Give your loved one a small token, just to show that you care. Your color for today is grey.

**Capricorn (Dec. 22- Jan. 19)**  
Someone of a completely different world of beliefs is trying to befriend you. Keep an open mind and a closed mouth. Watch your step be-

cause the shoes you are wearing may be your own. This is your rule for the week. Your color for today is platinum.

When you party  
remember to...

Don't get wrecked. If you're not sober- or you're not sure- let someone else do the driving
