**UNLV students get a chance to play hockey**

How many of you at UNLV consider yourself hockey fans? How many of you stay glued to the television during the Stanley Cup playoffs, leaving only to grab a bite to eat or re-

enact plays seen in the game? Now hockey can be enjoyed within the college community with the birth of UNLV Roller Hockey Club and UNLV's participation in the College In-line Hockey Association. The UNLV team will be playing against teams such as USC, Pepperdine, UCLA and UC Santa Barbara.

The goal of the UNLV Roller Hockey Club is not only to play the fast-paced sport of hockey, but to teach its club members a sound sense of business and organization. The club was organized, fund-

ed and is managed by UNLV students, and is not sponsored by the university.

The first game for UNLV was on Oct. 15 against El Camino Community College. Their next home game will be against USC on Friday, 10:30 a.m. at the Crystal Palace Skating Center on the corner of Decatur Boulevard and Tropicana Avenue. There is no charge to get. ## UNLV tennis player finishes second in ITA tournament

UNLV tennis players Roger Petterson and Luke Smith were busy on tennis courts this weekend as they competed in the ITA Men's All-American Championships at the University of Texas.

Petterson, ranked 18th nationally, lost 6-4, 6-2 to Stanford's Ryan Wolters in the singles finals.

However, Petterson had a great weekend, defeating several opponents from major tennis programs.

"Roger had four great wins, he should be ranked in the top three in singles," head coach Larry Easley said.

When Roger finished his sin-

gles play, he stayed on the court to play with fellow Rebel Luke Smith in doubles play.

This pair also made it to the finals, before being defeated 7-5, 7-5 to Justin Gimelstob and Srdjan Muskatirovic from UCLA.

"Neither Roger or Luke played this summer, so I was suprised how well they did," said Easley.

Both players will continue playing in preparation for the tennis season which begins in January.

## BE LESS PRODUCTIVE AT THE OFFICE.

The office has always been a place to get ahead. Unfortunately, it's also a place where a lot of natural resources start to fall behind. Take a look around the next time you're at work. See how many lights are left on when people leave. See how much paper is being wasted. How much

electricity is being used to run computers that are left on. Look at how much water is being wasted in the restrooms. And

how much solid waste is being thrown out in the trash cans. We bet it's a lot.

Now, here are some simple ways you can produce less waste at work.

When you're at the copier, only make the copies you need. Use both sides of the paper when writing a memo. Turn off your light when you leave. Use a lower watt bulb in your lamps. Drink your coffee or tea out of mugs instead of throwaway cups.

Set up a recycling bin for aluminum cans and one for bottles. And when you're in the bathroom brushing

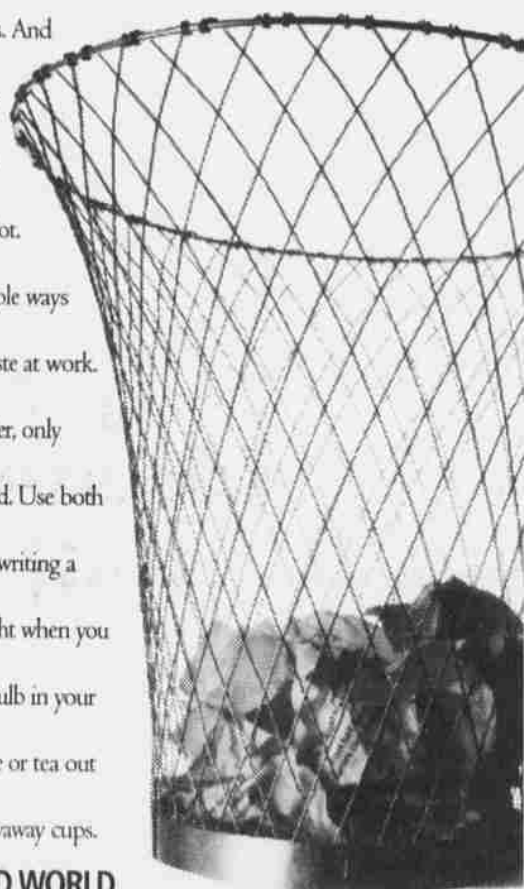

your teeth or washing your face, don't let the faucet run. Remember, if we use fewer resources

today, we'll save more for tomorrow.

Which would truly be a job well done.
