

## Colleges shuffled

Students returning to UNLV from the summer hiatus may notice the college they were registered in during the spring semester may not be the one they are assigned to now.

While most students were busy with earning tuition through summer jobs, or taking a much-needed va-

cation, administration was busy with reorganizing the college assignments at UNLV.

Administrators maintain the reorganization will have virtually no effect on students. Read Tuesday's *Rebel Yell* for a look at the restructuring and how the students really fit in.

## Gold

from pg. 1

Harrigan said she was encouraged by the support she received from fans. "The crowd was in on every play. If there was a down point in the game, they would pick us up," Harrigan said.

The road to gold wasn't entirely a smooth ride for the Americans. After their victory over Taiwan, Australia defeated Team USA in bracket play. The loss was unexpected based on the Americans' 110-1 record in international play since 1986.

The US squad recovered

from the loss and triumphed in the semi-finals, downing China 3-1 in the finals to win gold.

Harrigan's popularity didn't diminish with the closing ceremonies of the Olympics. Countless Las Vegans recently honored the softball star in a ceremony at the Fremont Street Experience.

According to Harrigan, her popularity has not changed her. She's focussing on getting her life back to normal but will remain active with softball locally.

Harrigan plans to open a pitching school in Vegas, she said.

## MASCOT OPPORTUNITY

Local agency is looking for enthusiastic individuals interested in performing as its mascot. The mascot makes many appearances throughout Las Vegas for both educational programs and media events. Those looking for a fun and exciting job are urged to call Ryan Arnold at 258-7197.
