THE BUILDER

Mike Maslow, the president of Maslow Construction Corporation, has been associated with the building industry in every capacity for a quarter century. The creation of DESERT HILLS is the realization of a lifelong dream to provide the finest homes possible at a price everyone can afford. Mike Maslow's careful consideration and study of the area, his experience in the building industry has brought about several innovations in the building of DESERT HILLS! His thoroughness in research and ever-increasing demands for quality housing at prices more in line with incomes in the area, has resulted in the lifetime masonry constructed home at DESERT HILLS, incorporating the finest architectural design, quality material and workmanship. Mike Maslow's foresight and realization of accomplishment has brought the builder and DESERT HILLS the 1961 regional award of American Home Magazine for homes of "best design, efficiency of floor-plan, and workmanship for the money" These same standards of excellence have been incorporated in the new DESERT HILLS home."
