Dear Jack:
Wishing to start the New Year off right, enclosed please find check for 1966 subscription to Las Vegas Israelite.

Your caption, "One man plus the truth constitutes a majority" is a very provocative statement. The only problem that comes to my mind when I reflect upon this remark is, "what is truth". In religion, philosophy, ethics, comparative cultures, etc., truth is a relative term and not an absolute. This is one of the reasons who so many societies, religions, neighbors, etc., fight with each other because to each group they believe they have the "truth" and the other persons "truth" is a sham or imitation or false. It seems to me that the only absolute or objective truth we can approach is a "pragmatic truth" as evidenced in technology, mathematics, engineering, science. If it works i.e. Television, radio, electricity, telephone, therefore it is probably true. If we did have some more "absolute values" then perhaps we would have more civic responsibility and human understanding and love and truly then, "one man plus the truth would constitute a majority."

Wishing you and yours a Joyful and Prosperous and healthy New Year and time to enjoy it.
Sincerely,
Martin Suranowitz

Dear Friend:
I am writing to inform you that the Organization of Woloziner in Israel has undertaken to publish a Memorial Volume pertaining to the City of Wolozin.

The publication will embrace a comprehensive, illustrated history of the City, the world-wide accomplishments of its famous Yeshiva, biographies and photographs of the Sages, Scholars, Rabbis and prominent persons identified therewith, a section listing the names of our martyred brethren, dedications, greetings and memorials.

This "Yiskor" book will be placed in the Memorial Hall of Mount Zion and in the Knesseth Library in Jerusalem.

The project requires the assistance of all the relatives and friends of Woloziner in the United States. Your active participation is essential to make certain the publication, which will serve as an enduring tribute to the martyred Woloziner and the Torah-True religious heritage that was spread far and wide from the renowned Yeshiva of Wolozin.

Dear Mr. Tell:
For the American Cancer Society may I thank you sincerely for the excellent Television interview you gave us last evening.

Naturally, Mr. Pat must be praised for his spirit of generosity in giving this time to organizations such as ours. But, in all sincerity, may I say that the Moderator of this program should also receive the thanks and appreciation of the Community.

It is my pleasure to meet many people in my position with the American Cancer Society. Very truthfully, last evening I met three of the finest people in our city: Father Toomey, Mr. Pat, and you. Without exaggeration, it was my honor to meet you. All of you are certainly a credit to Las Vegas.

Wishing you God's choicest blessings in the New Year, I am
Sincerely yours,

Proposed Sweepstakes

A state controlled "sweepstakes" lottery has been proposed by a group of Nevada citizens as a solution to the urgent need for a new source of state revenue, with subsequent relief from additional state taxes.

The lottery Petition is presently being circulated by the Silver State Sweepstakes, Ltd., a Nevada Corporation which received its charter from the Office of the Secretary of State of Nevada, April 27, 1965. The Corporation is headed by William F. "Billy" Parker, president, Oklahoma - born Nevada resident for the past 25 years. Parker, following World War II service in the U.S. Army, was a former rodeo contestant, a Nevada casino executive and businessman.

"Because of the imminent possibilities of higher, more burdensome taxes for Nevada residents, necessary for the support of our schools, health and welfare programs, state institutions, highway maintenance, and the ever increasing cost of government," Parker declared, "Nevadans are urgently in need of a new means of providing an additional source of revenue for the state. We want the opportunity to put our sensible, painless and voluntary program before the voters," he said.

Parker explained that the plan offered by SILVER STATE SWEEPSTAKES, LTD., would be state supervised and controlled, "and it will provide not only new jobs and the much needed money for the state," he added, "but, like the world famous Irish Sweepstakes,

this new industry will create a new tourist boom for Nevada, in giving a boost to the overall economy of business throughout the state."

The organization has opened offices at 1111 Las Vegas Blvd., So., Suite 230, Las Vegas, and preparations and supplies have been ordered to conduct a state-wide campaign to place the initiative on the ballot November 8, 1966.

Parker said the program presented by his organiza-

tion is an improvement over the New Hampshire Lottery which began operations last year, which turned over the state's educational fund \$2.7 million from 1964 lottery ticket sales.

He said that other states, including New York, are considering lottery legislation. As a means of helping finance state operations, New Yorkers will note on the constitutional amendment at the next general election. Backers of the New York plan say the state-wide lottery could yield 400 million annually.

New Medicare Law

On July 30, Congress passed a law-the Medicare Law - which adds a comprehensive scheme of health insurance for people aged 65 or older to the Social Security programs.

A great deal of publicity has been given to this action of Congress by television stations, newspapers, and other news outlets, and thousands of persons have filed their requests to be covered by this health insurance. However, many men and women aged 65 and

older have not yet investigated their right to health insurances under this bill.

If you are now 65 years of age or older, and you have never visited your Social Security office nor asked about your standing under this new law, we urgently suggest they you write your Social Security office in Las Vegas as soon as possible.

If the statement on the inquiry card below pertains to you, please fill it out and mail it.
