Where Are They ?

In 1923, a very important meeting was held at the Edgewater Beach Hotel in Chicago. Attending this meeting were nine of the world's most successful financiers. Those present were: The president of the largest independent steel company; The president of the largest utility company; The president of the largest gas company; The greatest wheat speculator; The president of the New York Stock Exchange; A member of the president's cabinet; The greatest "bear" in Wall Street; Head of the world's greatest monopoly; President of the Bank of International Settlements.

Certainly we must admit that here were gathered a group of the world's most successful men. At least, men who had found the secret of "making money."

Twenty-five years later let's see where these men are:

The president of the largest independent steel company - Charles Schwab - died a bankrupt and lived on borrowed money for five years before his death.

The president of the greatest utility company - Samuel Insull - died a fugitive from justice and penniless in a foreign land.

The president of the largest gas company - Howard Hopson - is now insane.

The greatest wheat speculator - Arthur Cutten - died abroad - insolvent.

The president of the New York Stock Exchange - Richard Whitney - was recently released from Sing Sing Penitentiary.

The member of the president's cabinet - Albert Fall was pardoned from prison so he could die at home.

The greatest "bear" in Wall Street - Jesse Livermore - died a suicide.

The head of the greatest monopoly - Ivar Krueger - died a suicide.

The president of the Bank of International Settlements - Leon Fraser - died a suicide.

Promoted At Southwest Gas

Robert A. Hall has been promoted to Division Manager for the Southern Nevada region of Southwest Gas Corporation, John L. Holleran, executive vice-president of the utility announced. Prior to his promotion, Hall was District Manager for Southwest Gas in the Las Vegas area.

Holleran stated that this move is part of a current realignment to streamline the utility's management operations in its three-state serving area. He said that the recent expansion in Northern Nevada and Lake Tahoe, as well as continued growth in the Las Vegas area, California and Arizona has made necessary a reorganization in the company's operating management.

As Division Manager, Hall's responsibilities will include sales, customer service, construction, office and regional warehousing facilities in the Southern Nevada Division. Serving 23,000 customers, this represents the largest operating division of Southwest Gas Corporation.

Hall has 12 years experience in the gas utility field, joining Southwest Gas in 1961. He received his A.
