**Southwest Gas Sponsors**

Southwest Gas Corporation is again sponsoring for the 1967-68 school year a series of ten Screen News Digest educational films. The films are available to all Clark County high school and junior high classrooms. Honored by the Freedoms Foundation as "an outstanding contribution to a better understanding of the American way of life," the Screen News Digest films are made available without charge to local schools as a public service by Southwest Gas.

During the 1966-67 school year the monthly films were distributed to 20 schools, with several teachers in each school using the series for classroom study. An estimated 6,000 students saw each of the year's ten films. The current film, entitled "Middle East Upheaval," traces the roots of unrest that caused the conflict between Israel and Egypt in the summer of this year. Included with each film is a suggested outline for discussion, as well as a synopsis and test of the film contents.

Forthcoming presentations will cover headline happenings as they occur. Special feature films this year will be on the first flight in the Apollo program, the fiftieth anniversary of the Russian Revolution and a full-length, in-depth color study of the Federal government.

The Screen News Digest, the only current events film

program of its kind in the audio-visual field, is currently seen by more than five million students in 15,000 junior and senior high schools throughout the United States.

**PARADISE SPA**

In at least one part of Las Vegas liquid assets mean other than ready cash.

About three miles from the Strip and its considerable flow of money is a resort community whose liquid assets come in varying forms—all water, points our general manager Charles Martin.

Paradise Spa, a condominium community is located where it is because of one important fact: It is the site of deep natural mineral wells. These healthful waters flow into its health clubs and individual mineral baths. In addition the club provides both saunas and steam baths to draw the kinks out of tired muscles.

Also part of the health club complex are two large swimming pools plus a pitch and putt course, volleyball and tennis facilities.

Another unique liquid asset possessed by Paradise Spa is its huge man-made lake which winds through the community, a dramatic focal point for any desert resort. Providing a visual oasis for residents, at night it becomes an exciting adjunct as fire rings are lighted about its shore.
