But, in one sentence . . .

ISRAEL'S LIFE DEPENDS ON IT!

It's as simple as \$1,120,000,000. That's what the Six-Day War cost Israel. But it didn't stop there. To maintain an alert for continued peace, Israel must pay and pay and pay.

Besides defense needs, Israel must take care of her people's human needs. Until June, Israel carried two-thirds of this human burden herself. Obviously, Israel cannot maintain this ratio. Trying to do both jobs means that the emergency still exists—even more so.

That's why **we** in America **must** give to the Israel Emergency Fund (IEF).

New immigration to Israel will continue, earlier immigrants must be absorbed. Health, education, housing and youth services must not suffer.

At the same time, we must increase our "regular" contribution to **COMBINED JEWISH APPEAL (CJA)** to help local, national and overseas agencies serving 500,000 Jews in 30 nations.

Wishing will not make it so. Only **you** can make all this come true. We urge you . . .
