

OF THE STARS' ★

has been active in Boys Scout work.

Sig eats most anything Toni has for dinner but favors fried chicken and picnic foods. He doesn't smoke. He wears a gold ring and wrist watch.

Sig is a Korean Veteran. He spent little more than a year there.

From 1949 to 1953 he was a TV and radio announcer. In 1955 he went into the hotel business and became an assistant to G. David Schine at the Roney Plaza in Miami Beach, and later as sales manager.

He is happy what he is doing now and if he had to

do it all over again, he'd be where he is now at the Sahara Hotel.

He averages four meetings a day and 20 long distance calls.

Sig is very punctual. He keeps his promises. He never belittles his business or co-workers ("I have a job to do, but I'm also in business like anybody else.")

He favors shirts with French cuffs because he collects cufflinks. In clothes he likes the gray tones, because he looks best in them. He gives one the impression that he is overstocked with energy. ("I don't have to eat Wheaties or take vita-

mins.")

He believes in the simple philosophy, that in any profession one has to invest at least ten years in preparation and study before he could be considered a professional practitioner.

He is deeply in love with his Toni and Melissa Ann and his life is making them both happy. Such wonderful people are a treat to meet. (Ed Note: Amen, J. T.)
