

WHAT SENIORITY MEANS TO YOU...

Don't be fooled by claims that every Senator, veteran and freshman alike, speaks with the same voice for his state in Washington. Nevada's greatest power in the U.S. Congress is seniority. Alan Bible has 14 years of seniority, a strong voice gained only by years of continuous service.

Seniority has made him a close personal friend of our greatest statesmen. Through three administrations, Democratic and Republican alike — Eisenhower, Kennedy and Johnson — Bible gained the political maturity Nevada needs in the Senate for effective representation. His record of past solid accomplishment has laid the groundwork for a future of outstanding service to his state, a broad base a new senator could not attain for many years.

His seniority has brought him membership on the most powerful of all Senate committees — Appropriations, a post new senators get only after years of service. That committee seniority is one big reason why Nevada last year received \$200 million more in federal assistance than all federal taxes paid by Nevadans last year. This means more essential federal projects and more jobs: full funding for Nevada education programs, vital water projects, military construction, space research, parks and recreation, pollution. Today, Senator Bible is chairman, subcommittee chairman or member of 11 key congressional committees.

Keep Nevada's seniority with Bible — it affects your future!

Citizen's Committee
for Senator Bible.
C. D. Baker, Chairman.
