BUNKER
(Continued from Page 1)
tical Science.

Bunker is a hard working, dedicated member of the Morman Church. He assumed the role of counsellor to a Bishop at the young age of 27, and three years later became Bishop of the L. V. 15th Ward, one of the youngest ever to attain this high ranking post. He is the current President of the Bishop's Council of Southern Nevada, and head of the Bishop's Storehouse. In this latter capacity he is responsible for the actual, physical work necessary, which includes maintaining cordial relationship with the non-LDS community.

It was at a church affair he met his lovely wife, Carol Ann who was visiting Las Vegas from her home state of Arizona. She also was attending Brigham Young U. That was ten years ago. Now they are parents of Christopher 9, Kathleen 7, and Morgan, born on last Christmas Eve.

Richard's parents, Wendell and Marion Bunker settled in Las Vegas in 1921 when Fremont Street was but four blocks long. Dad, from St. Thomas, Nev. came here to work on the railroad. Mother's folks were from Silver City, Utah, now a ghost town. Papa Wendell was Las Vegas City Commissioner from 1949 to 1959. During most of his ma-

ture life, Richard has spent his free time working with young people. He has guided them, taught them, taken them on field trips and participated in their activities. He speaks their language and knows their problems. On occasion he will pop up in juvenile court to accept responsibility for release of a misguided youngster.

That is his main reason for seeking the office of city commissioner. He feels there is a lack of communication between present commissioners and the young.

In addition he is in favor of all city employees receiving increased wages to raise the level of each department. Bunker feels this can be attained without increasing taxes through the medium of a more equitable distribution of state income derived from Las Vegas.

Bunker is a down to earth, serious young man, presently employed as purchasing agent for Nev. Rock and Sand Corp.
