

ISRAEL RETALIATES SEVENFOLD

TEL AVIV (WNS) -- Israel has stepped up its military action against Egypt as part of its pledge to strike back "sevenfold" for every Arab violation of the cease-fire.

The sevenfold pledge was voiced by Premier Golda Meir as she warned Arab States to either halt their violations of the cease fire or suffer strong Israeli retaliations.

Egyptian shelling along the Suez Canal and commando attacks across the waterway did not let up after Mrs. Meir's warning and strong Israeli action followed.

This included three commando raids which resulted in the deaths of 13 Egyptians and the capture of one. He was brought back to show to reporters and thereby answer an Cairo claim that there had been no Israeli raids.

Egyptian spokesmen had earlier denied an Israeli raid on a power line 137 miles inside the country. Israeli planes were then sent to bring back pictures showing the damage at the site and workmen repairing the facilities.

In addition, Israeli jets are now carrying out more aggressive patrolling missions. In one encounter with Egyptian fighters, the Israeli craft pursued a group of Russian-made Mig 21 inside Egypt and shot down four planes in a series of fierce dogfights. Both cannon-fire and air-to-air missiles were used by the Israeli pilots who reported that only two Egyptian pilots bailed out. All Israeli aircraft returned safely.

(Cairo claimed that it lost no planes and downed two Israeli fighters in the incident.)

U.S. VOTED FOR CENSURE

JERUSALEM (WNS) --- Public opinion backed official Israeli anger over the UN Security Council's unanimous vote last Thursday to censure Israel for its measures in the former Arab sector of Jerusalem designed to alter the city's status. Foreign Minister Abba Eban, who just returned from a visit to several African States, said the Council's latest action leaves it in a weakened moral position. It is the Security Council that did not lift a finger when

Israel was in mortal danger in 1967..... Information Minister Israel Galili said the Security Council's action is "The epitome of barrenness which cannot have any influence over the facts established by Israel."

The resolution was approved unanimously by the Council after it was modified in private negotiations to remove punitive proposals calling for an arms embargo and economic sanctions. The United States voted for the resolution.

FRENCH PLANES?

TEL AVIV (WNS) --The Israeli Army radio station and the daily newspaper Ha'aretz have both reported that France plans to lift its embargo on delivery of 50 Mirage V jet fighter bombers and spare parts to Israel.

It was reported that some spare parts for French-made military equipment had already been delivered to Israel. The planes costing more than \$50 million, have been paid for and all the Mirages are believed to have been built by the manufacturer Marcel Dassault.

The Army radio station report indicated that the embargo, originally ordered by former President Charles de Gaulle, as punishment for starting the Six-Day War and for a raid on Beirut Airport, will be reinstated after the 50 jets are delivered.

JERUSALEM PARK

JERUSALEM (WNS) --- An international committee of townplanners, architects & historians have endorsed plans to build a 600-acre park around the old walled city of Jerusalem. Mayor Teddy Kollek, who organized the committee, asked it to forget politics and consider that Jerusalem has had countless and different rulers over the last 3,000 years and that it had to be cared for regardless of the political situation.

The committee numbering 72 people from 21 countries, agreed on plans which would change the approaches to the old city and which would maintain it as a "living city," not as a stage setting. The Committee invited its "Moslem Brothers" to join them, but the Arabs declined.

2 ISRAELIS KILLED, 2 MIGS DOWN

TEL AVIV (WNS) -- An Israeli Army officer was killed and two others were wounded in a continuing Egyptian artillery attack along the Suez Canal. The fatality was Israel's second in 24 hours in the Canal Zone. A military spokesman said the Egyptian fire was concentrated south of Kanara and in the vicinity of Port Tewfik at the canal's southern access.

Jordanian guns, which were quiet while workmen repaired the East Ghor Irrigation canal near the cease-fire lines, resumed firing on Israeli positions in the northern Jordan Valley. The attackers used mortars and bazookas but were silenced by Israeli return fire. There were no Israeli casualties.

An Arab saboteur was killed in an encounter with an Israeli patrol near Khan Yunis in the southern Gaza

strip. One Israeli soldier was wounded.

Israeli jet fighters shot down two Egyptian MIG-21 jets in a new battle over the Sharm El Sheikh strongpoint at the entrance to the Gulf of Aqaba, according to Israeli forces. The downing of the two Mig's brought to 27 the number of Egyptian war planes destroyed by Israeli fighters since the June, 1967 Six-Day War. The battle was the third air clash in a week between Israeli and Egyptian fighters.

SOME PROTESTANTS ANTI-ISRAEL

PITTSBURGH (WNS) --- The National Jewish Community Relations Advisory Council has charged that some Protestant church groups whose policies are greatly influenced by its overseas missionary activities were among the "major vendors" of the notion that Israel is "inflexible and obdurate" about a Mideast peace settlement.

The NCRAC which represents nine national and 82 local Jewish organizations, attributed the "explicit and sometimes strident" pro-Arab anti-Israel sentiment of these Protestant groups to their upper-echelon administrative executives.

In other actions at the group's 25th annual conference, the 250 delegates not-

ed there was "widespread emotionalism" but "little general knowledge of the basic political, territorial and security issues between Israel and the Arabs" among the American public.

Soviet leaders were not insensitive to world public opinion concerning the situation of Jewish in Russia and the NCRAC urged the Jewish community to continue its public agitation on the issue, particularly for the fulfillment of Premier Alexi Kosygin's 1966 promise to allow Russian Jews to emigrate to be reunited with their families.
