

REDS KILLED

LONDON (WNS) --- A British reporter who has just returned from Cairo has written in the London Daily Express that unconfirmed reports indicate that between 10 and 35 Russian military advisers in Egypt were killed during recent Israeli air attacks near Port Said.

Donald Seaman wrote that the Soviet Embassy in Cairo has maintained quiet on alleged Russian casualties. But the reports were the first of their kind since Moscow began to re-arm Egypt after the June, 1967 war.

JEWISH DEPTH

LOS ANGELES (WNS) -- The new School of Jewish Service, the only school of its kind in the nation, has opened in Los Angeles with an entering first class of 19 students.

The program of the school, which was developed by the Hebrew Union College-Jewish Institute of Religion, the Reform seminary, is to add Jewish depth to social work and to help nourish a sense of Jewish community pride and cohesiveness.

HUC's California branch is operating the school with classes being held at the University of Southern California campus. A second summer session will be held in 1970 and students com-

pleting the two-semester program will receive a degree in Jewish communal studies. A master's degree program in the field is also planned.

The first five weeks of studies are devoted to course content with the final three week focusing on practices in Jewish communal agencies.

UN PROPOSALS

UNITED NATIONS (WNS)- Secretary General U Thant has proposed four measures for the protection of United Nations cease-fire observers along the Suez Canal and has asked Israel and Egypt to agree to them.

The measures are: A UN patrol boat to ply the waters of the Suez Canal and thus provide access to the UN observation posts (a proposal rejected by both sides in the past); Establishment of "safe perimeters" around the observation posts, (Israel has largely observed this in practice and has not stationed guns or garrisons near the posts on the east bank but the Egyptians have placed batteries relatively close to the observation posts in the hope that the Israelis would not return their fire for fear of hitting the UN posts); Strengthening of the UN posts (Israelis have said it is will-

ing to build stronger posts for observers on its side of the canal but Egyptian gunners have prevented the necessary construction work); And the end of the exclusively Egyptian practice of sniping at the UN observation posts.

D. C. EXPLOSION

WASHINGTON (WNS) -- The explosion that virtually destroyed Congregation Sha-

are Tikvah, a Conservative synagogue in the Washington suburb of Oxen Hill, St. George's County, Maryland, was being investigated by Federal agents and Army experts. They are trying to determine the type of explosive that caused an estimated \$200,000 damage to the two-year-old structure which may have to be entirely rebuilt.

DONATES 1st AID STATION

A dream long-nurtured in the heart of Mrs. Rose Rudman Snyder of Beverly Hills, California, came true when she proudly announced her gift of a room in a Magen David Adom First-Aid Station soon to rise in the port city of Haifa, Israel.

The room she sponsored in the medical facility of Israel's Red Cross Service will bear the names of her late father and husband, Peter Rudman and Louis Snyder.

Mrs. Snyder described her gift as "paying back to humanity in some measure for the many kindnesses I was privileged to enjoy throughout the years."

The gift was arranged through American Red Mogen Dovid for Israel which in this country serves as the support and supply wing of Magen David Adom.

Its National Chairman,

Congressman Emanuel Celler, said in acknowledgment of the gift: "It is the proverbial Women in Valor like the wonderful Mrs. Snyder who keep our cause alive and functioning in behalf of our needy brothers and sisters of Israel. With this gift, she has inscribed the names of her loved ones forever in the annals of Israel's struggle for a healthier, brighter future."

The Haifa Station will incorporate the latest medical and scientific discoveries as it takes its place in Magen David Adom's network of First-Aid Installations, blood banks and ambulances all geared to meet the emergency medical needs of Israel's 2-1/2 million people in cities, towns and border settlements.

American Red Mogen Dovid seeks additional support for Magen David Adom underground medical stations now being constructed in strategic areas of the embattled nation of Israel.

Those wishing to assist this vital cause may obtain information by contacting: American Red Mogen David, for Israel, 50 West 57th Street, New York, N.Y. 10019
