MALBIN

(Continued from Page 12)

why one shouldn't live to 120, and to all those who are incapacitated, I wish them that with the help of JDC/Malben, their pains will be eased and their lives will be more comfortable.

"To all of you here in this room and to us, to all of us, I also want to say, let us pray for the day when we will have only problems of absorption. I am sure that there are other places from which many, many Jews will come. We have proof. Large numbers of Russian Jews live with the hope of being here with us. Of course it will create problems, but all of us pray for that great day when Jews from Iraq and Egypt -- as they have done before -- should come here with all their problems and we should help them solve their problems. The more Jews we have, the easier it will be for us to solve the great problem of peace in Israel. When our American Jewish friends in the United States asked me if we can take it, I asked them in turn, can you take it? As long as you can take it, we can take it. We can take it together and together we will see the solution of the problem of peace between Israel and its neighbors.

"So, many congratulations on this birthday, and many, many happy returns. You may all be proud of a job well done."

CINCINNATI (WNS) -- The Hebrew Union College - Jewish Institute of Religion reported that 83 new students have enrolled in the institution's five-year course of study for the Reform rabbinate. Fifty are studying at the main center in Cincinnati, 18 at the New York school and 15 in California.

JERUSALEM (WNS) -- More than 30,000 tourists visited Israel during December, 1968 -- a 14 percent increase over the 1967 total. Minister of Tourism Moshe Kol reported.

NEW YORK (WNS) -- Hadassah, the Women's Zionist Organization of America, has undertaken a national volunteer program to train members for a variety of jobs in various domestic programs designed to fight poverty and hunger in the United States.
