

NEW YORK (WNS) -- Rabbi Israel Mowshowitz, chairman of the International Synagogue and chairman of the New York Board of Rabbi's International Affairs Committee, has charged that the British Overseas Airways Corp., removed his pre-arranged kosher meal from a London originated flight prior to landing at Cairo to avoid an "incident." The rabbi, who was on a flight from Ceylon to Singapore, said a stewardess showed him a flight menu stating this was a BOAC policy. He called the decision "ridiculous" in a letter to the airline and was awaiting a reply to his complaint. (BOAC said a letter of apology was sent.)

NEW YORK -- Over 50 computers made by the Elbit company of Israel are being exported to Britain this year.

For Shame

By Rabbi Samuel Silver

Diplomats change their tune so often that by the time you read this our Secretary of State may have taken a position different than the one he took when he "revealed" the U.S. position on the Middle East.

But the U.S. "position" is reprehensible. If Sec. Rogers feels we are justified in sending billions of dollars and thousands of lives into Vietnam to combat Communism, why can't we vigorously support Israel which is doing the same thing in the Mideast?

And how did you like the unctuous tones the Secretary took about his objections to any holding on to what it got by conquest? Therefore, Israel should return Jerusalem and the Golan Heights and Gaza to the Arabs who attacked her!

Would Secretary Rogers then propose that we return to North Vietnam what we have taken from her? Or would he suggest that we return Puerto Rico to Spain? Or Texas to Mexico?

Israel and the Arabs are not in the same category. Israel wants peace and order and the Arab leaders want murder and pillage. Israel represents democracy, and the Arab leaders represent autocracy. The worst enemies that the Arab masses have are their own leaders.

How dare a democratic nation like the United States take such a "neutral" position as between the humane (Israel) and the homicidal (Arab leaders)?

In so doing, we not only become Moscovards. We betray those democratic principles to which we as a nation and to which Secretary Rogers, as the servant of a great republic, ought to be strongly committed.

TEL AVIV (WNS) -- Maj. Gen. Israel Tal one of the front line commanders of Israeli armored forces during the Six-Dau War, has withdrawn his resignation from the Army and has returned to his post with the Defense Ministry. It is believed that the officer, a leading tank tactician and technician, is involved in developing equipment for the armored force's use during the next decade.

NEW YORK (WNS) -- The militant Defense League is again sponsoring its own eight-week seminar training camp which it calls "the proudest and most unique Jewish camp in America." The JDL announcement said Camp Jedel in Woodburne, N.Y., is for "young Jewish men who feel pride and strength in their people." The camp was open to men between 13 and 21.

NEW YORK -- A group of 100 people consisting mainly of professionals, businessmen and their families departed on the S. S. Anna Maria on April 6th to settle in Israel.

NEW YORK -- A major Mexican chemical company, Fertilizantes Fosfatados Mexicanos, the world's leading exporter of phosphoric acid, has bought a plant for the production of acid from the Israel Mining Industries.

NEW YORK -- The Israeli Company, Thermotron, producers of bakery equipment and ovens, has recently received an order from Argentina for \$100,000 worth of equipment.
