

GUNDERSON FOR SUPREME COURT

In a statement issued to all news media today, E.M. "Al" Gunderson, candidate for the Nevada Supreme Court, charged that his opponent had just fired the "opening gun" in a mud-slinging attack upon Gunderson.

AL

"In the attack on me," said Gunderson, "experienced political observers will discern a familiar pattern that has been employed in previous elections - that is, publication of a derogatory and misleading editorial in the Elko Daily Free Press, and then reprinting the editorial as paid ads in other parts of the state."

"Until now," Gunderson continued, "I have based my campaign upon a positive appeal for recognition by the voters, ignoring minor efforts to libel me. I have refused to make negative considerations

an issue in the campaign, although I am quite certain it would have been advantageous for me to do so. Now, it appears I am left no choice in the matter. I am deeply sorry it should come

to this, in a Supreme Court race."

In conclusion, Gunderson stated:

"I call the public to take note of the opening gun of my opponent's paid media attack on me. I further call upon all news media to make full disclosure of all facts relating to the recent Nevada Supreme Court case of Ponderosa Timber & Clearing Co. v. Emrich, in which my opponent betrayed his fellow defense counsel.

If I am elected Assemblyman I will make every effort to introduce legislation to aid the youth of the state of Nevada and not to ask private citizens of Clark County (as I have been doing for the past 10 years) to support a recreational program for Spring Mountain Youth Camp, Elko, Caliente, Child Haven and Detention Center.

Are our Veterans the forgotten Americans? Veterans on fixed incomes know how inflation has eaten away their buying power. President Nixon's current attempts to curb inflation should restore some of this lost buying power.

Recomputation for retired military men will be one of the first things I plan to support if elected to the U.S. Senate.

In Nevada, Veterans need immediate relief in the area of medical care. I will fight for the establishment of local out-patient clinics for Veterans requiring medical aid.

Why, during the past 12 years, has our nation not been able to do more about helping the men who have given so much for our country?
