

JEWS MUST BE CONSCIENCE OF "A MAD WORLD"

ATLANTA (WNS) -- Rabbi Emanuel Rackman of the Fifth Avenue Synagogue, New York, in a sermon delivered at a G.I. Sabbath Service, told communal leaders attending the Jewish Welfare Board biennial convention that Jews must be the conscience of the world. Stating that Jews have a responsibility for bringing sanity to "a mad world," Rabbi Rackman said it is the "eternal mission of the eternal people" to remind the world that it is mad. "We must," he said, "communicate this leadership to our youth that they shall not be deterred because of the smallness of their number from articulating this stance."

Herbert Millman, executive vice-president of the JWB announced the establishment of an International Jewish Program Materials Project co-sponsored by the Memorial Foundation for Jewish Culture, the

Zionist Organization Distribution Committee and the American Joint tee.

**ELECTRICITY
 HELPS CLEAN UP
 MORE POLLUTION
 THAN IT MAKES**

Electricity helps change throw-away cans and bottles into reusable materials at the Las Vegas Community Recycling Center. It helps reduce air pollution from factory smoke stacks. It's vital for water purification, sewage treatment, and to recycle waste of all kinds. That's a good trade. Meanwhile, we're trying to make it even better. This year, Nevada Power Company will spend over \$2,500,000 to control air pollution alone. Because we live here, too!
