**WITNESS FOUND AGAINST NAZI**

PARIS (WNS) -- Munich State Attorney Manfred Ludolph, who had promised to "re-open" the case against Klaus Barbie, former Gestapo commander of Lyons, if one living witness could be found to testify that he knew the Jews he deported from Lyons were doomed to die, has been presented with that witness.

A French delegation led by the President of the International League against Anti-Semitism (LICA), Jean Pierre-bloch, and Mrs. Beate Klarsfeld, noti-

fied Ludolph that Raymond Geissmann, a French lawyer, had made a written declaration stating he personally heard Barbie declare "whether shot to death or deported, the fate of the Jews

will be the same."

Barbie now lives in South America and it is expected that both West Germany and France will seek his extradition.

NEW YORK--Marie Syrkin, professor emeritus of Humanities at Brandeis University, has been appointed editor and S.Z. Abramov, of Jerusalem, has been appointed associate editor of the Herzl Press, it was announced by Dr. Emanuel Neumann, chairman of the Herzl Press.

**REDDY'S CONSUMER TIPS ON... AIR CONDITIONERS**

Take the heat off your budget this summer with Reddy's checklist for good air conditioner performance. Give Reddy good working conditions and give yourself a cool house at less cost!

- 1 Have your air conditioning equipment inspected and serviced at the beginning of the season. You could prevent an expensive repair bill later.
- 2 Outdoor sections of cooling equipment need space so Reddy can keep up a good air flow. Keep plants, walls or other obstructions away from them.
- 3 Leave space enough around return air grills inside the house. Air should be able to flow freely, or the compressor could be damaged.
- 4 Weatherstrip windows and doors, especially large glass ones. Keep them closed as much as possible.
- 5 Uninsulated ceilings can let in up to four times more heat than insulated ones do. The cost of insulation is usually recovered by lower cooling (and heating) costs.
- 6 Does your thermostat setting have to be as low as it is? 78 degrees is usually recommended as the ideal temperature for comfort and cost.
- 7 Once you decide on a setting, leave it there. If the entire family is away all day, however, you could raise the setting five degrees.
- 8 Reddy has to work extra hard to combat heat from direct sunlight. Awnings over windows provide the best protection from sun's rays. Drapes or venetian blinds also help. Keep them drawn during the sunniest part of the day.
- 9 Clean filters or replace filters at least once a month.
- 10 Use kitchen exhaust fans when cooking to get rid of excess heat and moisture. Clothes dryers should also have outside vents.
- 11 Study the manufacturer's instruction book -- this tells you most accurately how to efficiently run your cooling equipment.
