

SUMMER JOBS

The Jewish Community Center is setting up a summer employment service for our youth. The purpose is to provide work experience as well as a source of income.

To achieve our goal we need your help now! We need members of the Temple community to

provide summer jobs. If you have any summer positions available, either within your business or at home, or can create such openings, please contact the Center Office immediately.

As part of our commitment to youth, we intend to create a limited number of jobs within the Center, i. e.

community service projects. While we would prefer to place a youth within your firm, we recognize that some placements are impossible. If you have no openings, we would appreciate any financial assistance that you can give to support the employment program.

As summer is fast approaching, may we gear from you soon so that we can begin to make placements immediately. If you have any questions, please feel free to call the Center Office, 384-5070.
