

NIXON ASKED TO CURB AIR TERROR

MONTICELLO, N.Y. (WNS) -- Rabbi Israel Miller, president of the American Zionist Federation, addressing 400 delegates attending the B'nai Zion convention here, called upon President Nixon and international aviation leaders to take "immediate and stringent steps to curb the rash of air terror which is now plaguing the Western World and especially Israel."

In separate cables to the Airline Pilots association, AFL-CIO and the London-based International Federation of Airline Pilots Associations, Rabbi Miller urged that pilots boycott all flights which do not undergo a thorough security check prior to take-off; they refuse to fly to or from any coun-

try from which acts of terror originate or which offer asylum to air terrorists; and that any member airline that does not comply with the first two regulations or whose country aids terrorism of any kind be expelled from the association.

In New York, Phil Baum, assistant executive director of the American Jewish Congress charged that Senator D. Browne, chairman of the Civil Aeronautics Board was "undermining" action by the Air Line Pilots Association to end air terrorism by boycotting countries that protect hijackers. Browne has said that "international diplomacy should be left to government officials."

LETTERS

Dear Jack Tell:

Congratulations on your emergence as a Panorama columnist--a well-deserved recognition of your unrelenting efforts in the field of honest journalism.

At this time also I want to express my thanks to you for the Las Vegas Israelite, which I not only find of great interest but because it is always a pleasureable exercise in nostalgia.

As you'll note in the enclosed my years in newspaper work were just about evenly divided between the metropolitan daily press and the Midwest weekly news-magazine, the American Jewish World.

Since my retirement in 1960 I have continued to contribute to the daily and weekly press here and in Minnesota in the cause of Israel and in the interests of Senator Hubert H. Humphrey, with whom I have been associated as research-advisory reporter since his pre-mayoral days in Minneapolis.

Good luck in all your future endeavors.

Sincerely,
Fred H. Weinberg
(Los Angeles)

(ED. NOTE: Fred Weinberg, former Duluth News-Tribune managing editor, received the 1971 American Jewish Press Distinguished Service Award for his 26 years as managing editor of American Jewish World in Minneapolis. We are flattered he appreciates our offerings. J.T.)

Dear Mr. Tell:

I have one of your newspapers, from 1968, when I was in Las Vegas on vacation.

I would like the latest edition, as I will be in Vegas for the 4th of July. I would like

to see what is there at this time.

I am sending 25 cents to cover cost. Hoping you will do this.

Thank you,
Mrs. Julia Nicholas
St. Louis, Mo.

(ED. NOTE: Starting next week we are

expanding coverage of entertainment news, as is our custom at this time of year. Your quarter and nice note makes you a subscriber until October. J.T.)

Dear Jack:

Thanks and stay well
Don Borax

(Ed Note: It is we who thank you, Don, for two year subscription, and for your loyal support. J.T.)

Dear Mr. Tell:

Thank you for putting our write-ups in your paper.

We do appreciate this so.

Frances Silver
(P.R. of Yiddish Club)

Dear Free Press:

I am presently confined in the London Correctional Institution, London, Ohio and am in need of a radio. I have very limited funds with which to pay for an ad but would like to put one in your paper; also I would like to receive your paper if at all possible.

My ad reads as follows: "Young man presently imprisoned, 37 years at hard labor with very limited funds (\$9 a month) would like to purchase a stereo receiver via small mon-

thly payments or a donation of one. Help? Write:

Bob Creager
#126186
London Correctional
Box 69
London, Ohio 43140

P.S. I was busted in 1967 for possession of drugs and have been in prison for five years now. I am appealing my case but without success. I am payed \$9 a month for my labor and so cannot afford your paper but would like to read it. Any help from you would be most appreciated.

Peace & Freedom
Bob Creager
(ED. NOTE: We re-

pent this letter, sent to the Las Vegas Free Press, in case an Israelite reader would like to help someone in trouble. J.T.)

Dear Mr. Tell,

Thank you very much for the News Release we received in your paper. It was greatly appreciated. We also liked the advertisement we had in your paper.

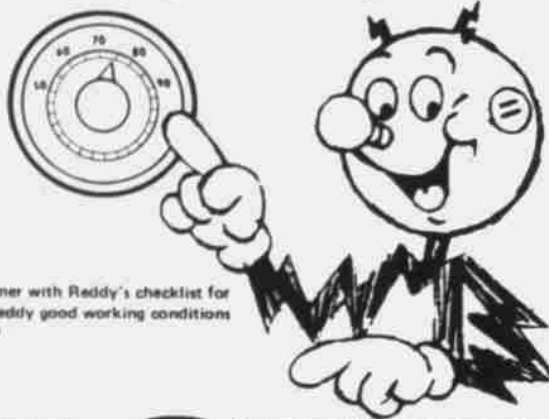

Sincerely,
Vivian Levin

REDDY'S CONSUMER TIPS ON... AIR CONDITIONERS

Take the heat off your budget this summer with Reddy's checklist for good air conditioner performance. Give Reddy good working conditions and give yourself a cool house at less cost!

- 1 Have your air conditioning equipment inspected and serviced at the beginning of the season. You could prevent an expensive repair bill later.
- 2 Outdoor sections of cooling equipment need space so Reddy can keep up a good air flow. Keep plants, walls or other obstructions away from them.
- 3 Leave space enough around return air grills inside the house. Air should be able to flow freely, or the compressor could be damaged.
- 4 Weatherstrip windows and doors, especially large glass ones. Keep them closed as much as possible.
- 5 Uninsulated ceilings can let in up to four times more heat than insulated ones do. The cost of insulation is usually recovered by lower cooling (and heating) costs.
- 6 Does your thermostat setting have to be as low as it is? 78 degrees is usually recommended as the ideal temperature for comfort and cost.
- 7 Once you decide on a setting, leave it there. If the entire family is away all day, however, you could raise the setting five degrees.
- 8 Reddy has to work extra hard to combat heat from direct sunlight. Awnings over windows provide the best protection from sun's rays. Drapes or venetian blinds also help. Keep them drawn during the sunniest part of the day.
- 9 Clean filters or replace filters at least once a month.
- 10 Use kitchen exhaust fans when cooking to get rid of excess heat and moisture. Clothes dryers should also have outside vents.
- 11 Study the manufacturer's instruction book -- this tells you most accurately how to efficiently run your cooling equipment.

HAPPY SUMMER!
