McGovern Lashes Back

Sen. George McGovern angrily lashed out last week at supporters of his rival for the Democratic Presidential nomination -- Hubert Humphrey -- for "distorting" his record on Israel.

At a news conference, Sen. McGovern, Democrat of South Dakota -- declared that he had been a strong supporter of Israel since 1957

when he entered the U.S. Congress.

He made the following statements as to his position on the Mideast:

ON U.S. MILITARY AID: "At a time of massive Soviet arms shipments to other states we have an obligation to furnish Israel the advanced aircraft and other equipment necessary to prevent attack. Our sale of these weapons should not be made contingent upon Israeli agreement to American diplomatic demands."

ON JERUSALEM: "The U.S. should recognize Jerusalem as the capital of Israel and move its embassy there. The city should remain unified under Israeli administration, provided only that full and free access to the holy places of all faiths be continued."

ON ARAB ISRAEL BORDER: "There can be

no peace in the Mideast until the Arab states agree to new and recognized boundary lines capable of deterring any future aggression."

ON ECONOMIC AID: "Israel needs substantial assistance to meet its defense needs and receive new immigrants. Our government can do more than it has. In this connection I have proposed an \$85 million program to help defray the costs of settling new immigrants from the USSR to Israel."

ON THE UNITED NATIONS: "Israel needs our diplomatic support in the arenas of diplomacy including the U.N."

ON THE SOVIET MIDEAST PRESENCE: "Soviet weapons and the stationing of their personnel present a difficult obstacle to negotiations. American aircraft carriers can be used to illustrate deep U.S. concern and commitment plus the capacity for speedy intervention in a tense situation."

REDDY'S CONSUMER TIPS ON... AIR CONDITIONERS

Take the heat off your budget this summer with Reddy's checklist for good air conditioner performance. Give Reddy good working conditions and give yourself a cool house at less cost!

- 1 Have your air conditioning equipment inspected and serviced at the beginning of the season. You could prevent an expensive repair bill later.
- 2 Outdoor sections of cooling equipment need space so Reddy can keep up a good air flow. Keep plants, walls or other obstructions away from them.
- 3 Leave space enough around return air grills inside the house. Air should be able to flow freely, or the compressor could be damaged.
- 4 Weatherstrip windows and doors, especially large glass ones. Keep them closed as much as possible.
- 5 Uninsulated ceilings can let in up to four times more heat than insulated ones do. The cost of insulation is usually recovered by lower cooling (and heating) costs.
- 6 Does your thermostat setting have to be as low as it is? 78 degrees is usually recommended as the ideal temperature for comfort and cost.
- 7 Once you decide on a setting, leave it there. If the entire family is away all day, however, you could raise the setting five degrees.
- 8 Reddy has to work extra hard to combat heat from direct sunlight. Awnings over windows provide the best protection from sun's rays. Drapes or venetian blinds also help. Keep them drawn during the sunniest part of the day.
- 9 Clean filters or replace filters at least once a month.
- 10 Use kitchen exhaust fans when cooking to get rid of excess heat and moisture. Clothes dryers should also have outside vents.
- 11 Study the manufacturer's instruction book -- this tells you most accurately how to efficiently run your cooling equipment.
