DON SHAW FOR ASSEMBLY

Don Hartwell Shaw, 46, of 4976 East Stanley has filed for the NEVADA Assembly District #20.

DINGUS DON (as He was known when he wore a beard) asks, Why do the People who move here because they like "Our Life Style" keep trying to change NEVADA to be just like from where they came? why do they encumber our police with unpopular and unenforcable laws that only detract our "Old Buddies" from protecting us? Also, why isn't being a Deputy Sheriff the most honorable profession in NEVADA as it was when he first came here in 1938????

DON, who has worked in every county in NEVADA has many concrete proposals to offer: I. A. Since the thing most feared by the crook is swift justice, he proposes that "Not over 24 hours from arrest to arraignment, nor over 30 days from arrest to trial.

B. Bail should be denied during a postponement of the trial and the lawyers who postpone should spend each night in the cell with the defendant during the postponement.

C. Appeals should be made orally before the Supreme Court Within a week of a conviction and their decision should be required "Post Haste."

II. A. The Highway Department should place large signs on the highways at each state line stating: NEVADA DENIES BAIL TO EX-FELONS.

B. As a defendant is getting out on bail, behind the property desk should be a sign, stating: IF YOU COMMIT A CRIME WHILE OUT ON BAIL WHEN ARRESTED AGAIN YOU WILL BE DENIED BAIL; and he should be asked to sign a statement that he or she understands the sign.

III. WELFARE should be returned to the "Benovolent Organizations" on a competative bid basis for the cost of administration. The State Welfare Department should only be the auditors and abuse investagators.

Although it is illegal in Nevada to have an illegitimate child, we now pay a bonus to those on Aid to Dependent Children (ADC), Why?

Once our "In-state" welfare had to be earned If you contributed to our society and had a misfortune that required welfare you were taken care of; but, if you floated in here to live the "Good NEVADA" life on welfare -- we floted you right out again. NEVADA has always taken care of its own but there are more people on welfare now than we had population after World War II.

IV. HISTORY. There is the ever continuing HASTLE about annexation, consolidation, and "THE CITIES."

NEVADANS have always believed in local control of government but as the opulation fgrows the local control disappears into the "PORK-BARELLS."

To keep from being annexed the people north of Owens incorporated North Las Vegas as did the people east of Kietzke Lane incorporate SPARKS. Now the peoples of Paradise, Winchester, Whitney, Sunrise, Sun Valley, East Verdi, and the Sparks township east of Truckee street are fighting like Heck to keep from being annexed.

There must be something wrong with our CITIES if the majority of our people have always NOT wanted to be taken into the CITIES!

V. CHANGE ?? Our biggest problem is returning government to LOCAL control.

no private obligations, I can say to the voters -- my time is your time."

Upon filing for State Senate, Mulroy stated: "During my 22 years in Nevada it has been my privilege to make many friends throughout the state, but much more widely within Clark County. In my different capacities, I believe I have earned the respect of persons in many walks of life, addressed assorted gatherings and have a good relationship with the press, TV and radio. I hope my record would indicate that I have been well accepted by the community."

Mulroy resides at 2024 Hassett Av., with his wife, Teresa and son, Robert. A daughter, Kathleen, son-in-law, Leonard and granddaughter, Teresa, are resident of Weaverville, North Carolina.

JAMES BARTLEY FOR ASSEMBLY

JAMES

JAMES M. BARTLEY has filed for Nevada State Assembly as a Democratic candidate in Assembly District 13.

The nine year resident of Las Vegas and his wife, Sylvia, reside at 3532 Valencia.

Before coming to Las Vegas, Bartley practiced law in his native City of Joliet, in Illinois. Currently he is in private practice here in Las Vegas with George E. Franklin, Jr.

Mr. Bartley stated, "One of the most important and most needful areas to be considered in the next Assembly, insofar as southern Nevada is concerned, is the redistribution of services and tax income, so that the people of Clark County receive their fair share of the needed services, and money, for local government without increasing the taxes, and in particular, property taxes. In the past, the majority of State tax income has been generated in Clark County, with the major part of the money and services being used in northern Nevada, even though the need is greater in Clark County, with its large population, and consequently, more social problems to be solved." He went on to explain that we should not be heedless of northern Nevada's needs because we have a majority in the Legislature, but we do want to correct the imbalance that has existed for too many years.

"When I moved to Nevada, I had planned to avoid becoming to involved in politics. However with Clark County, for the first time, having a majority in the Legislature, and with my knowledge of local governmental requirements, I believe I can be of assistanceto th e people here in Clark County" Bartley said.

destiny and the downright fear that the lawmakers and the policy-makers of this state... could care less what the people want," Anthony said after filing for office. "An assemblyman should and must be the amplification of YOUR voice, too many assemblymantoday want to be your leader instead of being what they should be. . . . your representative."
