

**ROGERS URGES USSR "FAVORED NATION"**

WASHINGTON (WNS) -- Secretary of State William P. Rogers has asked the House Ways and Means Committee to "permit us to handle" the Soviet emigration issue in "diplomatic channels" on the basis of Soviet government assurances given to President Nixon. Rogers said he could not make public "the text of confidential communications on this subject but I believe the assurances are firm."

Urging the Committee to approve the Administration's request to grant the Soviet Union most favored nation status within the trade reform bill, Rogers told the Committee that Soviet Communist Party Chief Leonid I. Brezhnev would be unable to make progress during his upcoming Washington talks, if Soviet leaders believe that the U.S. is trying to impede Soviet-American trade agreements.

Rogers said he shared the Committee's deep concern about Soviet emigration policies, but that "the best hope for a satisfactory resolution of this issue will come not from confrontation formal legislation would now bring about but from a steady improvement in our overall relations with the Soviet Union."

He said in recent years Soviet emigration had favorably evolved as U. S. - Soviet relations had improved, and that "failure to grant MFN status would seriously jeopardize our relations with the Soviet Union. It would impede the gradual evolution of the Soviet Union into a more open member of the world community, an

evolution which is the best long-term hope for all of us, including those Soviet Jews who wish to emigrate."

Rogers also said the number of Soviet emigrants dissatisfied with Israel and wishing to leave was "miniscule", contrary to rumors.

**ISRAEL'S POPULATION 3,230,000**

JERUSALEM (WNS) -- The central Bureau of Statistics announced that Israel's population stood at 3.23 million, with the Jewish population reaching 2.75 million, on the eve of Independence Day.

When the state was established 25 years ago, there were 650,000 Jews. The non-Jewish population, including

80,000 East Jerusalem Arabs, has increased by 250,000 since 1948 to 480,000.

The figures do not include the one million Arabs living in the administered territories.

Since 1948, 1.48 million immigrants have settled in Israel, half coming from Asia and Africa, and the other half from Europe and

America, the Bureau announced.

**ASSESSMENT DIFFERENCES**

-- Assistant Secretary of State Joseph J. Sisco and Israeli Ambassador Simcha Dinitz, differed widely and sharply in their assessments of the origin of the Six-Day War.

(Get a checkup before the heat's on.)

Right now your air conditioning serviceman can easily work your call into his schedule and get your unit ready to deliver dependable cooling through the summer ahead. We know that many people

wait until the heat's on to install electric air conditioning or have their units serviced. Later on, your dealer or serviceman may have a waiting list. Although Nevada Power does not service, sell or install air conditioning

equipment, we do want you to get the greatest value from your electric service. One way we can help is to remind you to get the jump on summer by calling your serviceman early.
