

A NEW EDITION OF THE WORLD'S MOST POPULAR RECEIVER

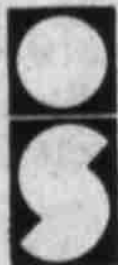

The Harman/Kardon 330B (as did its predecessors) opens up the world of true high fidelity to music lovers who can afford but a modest outlay for equipment. Careful attention to every detail assures listeners that they have an instrument that delivers music with the fidelity and drama of the original performance. Here's a statement we make with confidence: The 330B offers a direct challenge to competitive receivers costing much more. It provides increased power, increased sensitivity and ultrawideband sound, without an increase in price! The 330B's sound is clean, transparent and sharply defined so that you not only hear the difference . . . you literally feel it.

BY NOW, ALMOST EVERYONE IS FAMILIAR WITH THE INCREDIBLE PERFORMANCE OF THE NEW ESS AMT-1 LOUDSPEAKER. BUT NOT EVERYONE KNOWS OF THE NEW AMT-5!

This new ESS model retains every characteristic that has earned ESS Heil air-motion transformer loudspeakers acclaim throughout the world: Incredible clarity and definition; instantaneous transient response; high efficiency; wide smooth response to beyond 20,000 Hz; and the design simplicity that enables the Heil air-motion transformer to carry a lifetime guarantee. The ESS amt-5 marks a value breakthrough in the ESS series of Heil air-motion transformer loudspeaker systems. Now the extraordinary performance and lasting worth of an ESS Heil air-motion transformer loudspeaker is available in a size and at a price to allow its inclusion in many more home music systems.

ARABS BROKE PLANE AGREEMENT WITH FRANCE

PARIS (WNS) -- The admission by Egyptian President Anwar Sadat that Libyan Mirages were used in the Yom Kippur War has caused the French government to announce that it will "re-examine" its arms sales to Arab countries,

especially Libya. The Franco-Libyan contract for the sale of 110 Mirages contained an article forbidding Libya to hand over to any third country the French-made plane or to engage them in the Middle East conflict.

France and Libya. But the issue became a public scandal here when Sadat accused the Libyans of wanting him to return the Mirages while he still needs them. Sadat said the planes were in Egypt during the Yom Kippur War and used by Egyptian pilots. He said they "are still needed as the war (with Israel) is not yet over and fighting could break out again at any moment."

During the Yom Kippur War, Israeli Ambassador Asher Ben Natan said that Israel had shot down five Libyan Mirages and had captured two Egyptian pilots who had flown them, and who said they had been trained under Libyan identities at a French air base near Dijon. The Israeli charge was denied by

Meanwhile sources said the French government is considering lifting the arms embargo on participants in the Mideast conflict in existence since 1967.

NAZI WAR CRIMINALS LIVING IN U.S.

WASHINGTON (WNS) -- Rep. Elizabeth Holtzman (D. N. Y.) has claimed that the Immigration and Naturalization Service has confirmed her charge that it has "failed to conduct a thorough, result-orientated investigation" of alleged Nazi war criminals living in the United States and that any additional steps taken were only the result of her charges.

Ms. Holtzman has alleged that 60 reported war criminals are in the U.S. with little or no federal effort to apprehend them. INS Commissioner Leonard Chapman has replied that her charges were based on a "misunderstanding" of his agency's authority and are "without foundation."

Why talk about a heat pump in the middle of summer...

when all you want to be is cool.

Simply because the heat pump is the most efficient, low-cost heating and cooling system on the market. In partnership with good insulation, the heat pump means efficient energy management, the year-round. In winter, it takes usable warmth from outside air and pumps it inside to heat your home. And in summer, it works in reverse and pumps the heat out of your home.

The reason the heat pump is the most efficient heating and cooling system is because it produces two or more units of heat for each unit of electricity required to operate it. This is the kind of efficiency we need to meet the energy challenge!

So, if you're considering a new home, or are converting your present system, look into the advantages of the heat pump. Your heating-cooling contractor can give you all the details.

Or your Nevada Power Customer Technical Services Department will be glad to tell you more about it. Just give us a call at
