

### New Year Message

By Dr. Joseph P. Sternstein  
Pres. Zionist Org. of America

"On the eve of Rosh Hashana 5735, our people in Israel and the Diaspora, Zionists especially, are called upon to indulge in a thorough Cheshbon Hanefesh, a soul searching, more than ever before, regarding the challenges with which we are confronted.

"The trauma of the Yom Kippur War is still with us. Although Israel was miraculously saved from the treacherous onslaught by Egypt and Syria and defeated her enemies on the battlefield, the war resulted in a rising danger to the future of the Jewish nation, its existence and the continuation of Jewish history due to political machinations in the diplomatic international arena.

"Israel and Jewry are facing in the coming year challenges and threats which are particularly directed against Zionism, the Jewish liberation movement, Shivat Zion, and the integrity of our people's heritage.

"Israel and the Jewish people are now isolated on the world political scene. We stand alone against powerful enemies who seek the demise of the Jewish nation. Only the U.S. among all the nations of the world has reached out a sustaining hand to us. But even here in the U.S. there are forces which strive to appease our adversaries because of an erroneous notion

that it will best serve American interests. Our prayers and hopes in the Days of Awe will have to be for our country's leaders to act justly and wisely in order to avoid the snarls of false and dangerous counsels, and to continue to stand

### RECOGNIZING TERRORIST GROUPS HARMFUL

JERUSALEM (WNS) -- Foreign Minister Yigal Allon warned that any international recognition of terrorist organizations will poison the atmosphere in the Middle East and jeopardize efforts for a peaceful solution to the area's difficulties.

Speaking at a special Knesset session, Allon noted that the Palestine Liberation Organization has won recognition from several countries considered friendly to Israel.

Meanwhile at the United Nations, a source said that the Arab states are planning to demand "a more than observer status." for the PLO at the fall

session of the General Assembly.

Previous reports from Cairo had disclosed that the Arab states will seek observer status for the PLO.

squarely by the Jewish nation, America's true friend and reliable ally.

"Our task in the New Year for the Zionist Organization of America and the Jewish community as a whole is to double our alertness to the lurking dangers to Zionism and Israel, and resist resolutely all attempts to undermine our strength and weaken our moral fiber. Our imperative for the New Year must be to move more determinedly ahead on the road for the complete realization of our historic national aspirations.

"May the New Year bring peace, tranquility and fulfillment to our great country, to Israel, to the Jewish communities the world over and to mankind as a whole."
