DON HANCOCK FOR STATE SENATE

Don Hancock, age 41, is the Independent American Party candidate for Senate, District 3. He has been in the insurance adjusting field for nine years. He stands for laissez faire government, which means non-interference by government in our daily life and business.

DON

As a State Senator he wishes to work for getting rid of BLM control of 85% of the land in Nevada. He will work to get the monopoly of the Nevada Industrial Commission abolished, so that private insurance carriers may compete in the State for Workman's Compensation Insurance. He supports the "Liberty Amendment" in the U.S. Congress, known as H.J. Res. 23, which would get the government out of our business, and abolish the graduated income tax.

He wants to stop the Equal Rights Amendment (ERA) because it would create another Federal Bureaucracy and take away States' Rights in our domestic relations, as well as destroying the family structure.

He supports equal pay for women doing the

same job as men, if they have equal qualifications, but is against abortion and euthanasia because they are a violation of the commandment "Thou shalt not kill."

He believes that coddling criminals simply increases the crime rate and advocates mandatory jail sentences for first offenders to get them off the streets, thus lowering the crime rate.

He is unalterably opposed to any State income tax or inheritance tax, and would like to see the sales tax on food abolished.

He supports the Right to Work Law, and is against annexation and bigger metro government.

He sees our freedoms sinking in the thousands of bureaucracy, and warns that maximum effort must be put forth by every citizen to stop these usurpations of constitutional rights by unelected officials or appointees, who rule our lives at every turn.

Thompson, who has campaigned against long delays in the courts, and who is the first district court candidate in Clark County history to make public a full disclosure of his financial worth, said "America is at the crossroad in terms of attitude about equal justice."

"One road will lead to more skepticism and cynicism about equality before the law. The other -- the one we must take -- will lead to restored confidence in all our institutions by reaffirming our commitment to justice without favor," Thompson said.
