

JERRY KAUFMAN FOR DIST. COURT JUDGE

JUDGE JERRY

Municipal Judge Jerry Kaufman released his recommendations for "Rape Law Legislation."

Judge Kaufman stated that, "Approximately 50% of all rape victims never report their horrible experience. This is because they are embarrassed or because their spouse rejects prosecution, or they are oftentimes ridiculed or harrassed on the witness stand. In a great many of the cases they are in fear of their future safety."

Judge Kaufman noted that defense attorneys interrogate the victim with regard to her previous sexual habits and experiences, and the victim is then put in the position of defending herself and her own reputation. Many states are now passing laws to surpass such evidence.

"If we are to make our streets safer for our women and children, we must pass laws and insure their endorcement to protect the defenseless woman who is attacked," said Kaufman.

Judge Kaufman recommends the following

POLITICAL HOPEFULS

JIM DEITCH FOR BD. OF REGENTS

Elaine Mills, long identified for her support of a growing University of Nevada, Las Vegas, has endorsed the candidacy of James Deitch for the university's Board of Regents.

Ms. Mills, who garnered 1,979 votes in the September 3 primary, and only narrowly lost a runoff spot in the November 5 general election, said she has confidence that Deitch "will carry out the goals and objectives I felt were important in the office of Regent."

Among those goals are:

- A law school for UNLV;
- A balanced athletic program giving each individual a chance to participate in sports;
- Expansion of the intercollegiate programs with emphasis on women's sports and life long sports; and,
- Fair consideration on the question

legislation: (1) Previous sex habits of victims should be inadmissible; (2) a psychiatric confirmation by a three-man medical board should be required before any convicted rapist is allowed probation or parole; and (3) sentences should be stricter with the degree of assault and bodily harm.

"Rapists should not get off because a woman is afraid to testify because of ridicule on the stand. The terrible act of forcible rape is the issue and not the previous morality of the victim," stated Judge Kaufman.

"It is my position, in light of my opponent's record, that a judge should take an active part in the administration, adjudication and promulgation of the laws. It is a judge's duty and responsibility to see enacted such legislation regarding the use of evidence in their courts. The judge then becomes the conscience of the community and should insure the strict compliance with the law," concluded Kaufman.

JIM

of negotiation rights for teachers. Strongly urging those who voted for her in the primary, Ms. Mills said, "I fully endorse Jim and hope that on November 5 when you cast your ballot for Regent, District 'C', that you will vote for Jim Deitch."

"I feel that he will be approachable by those genuinely interested in UNLV and that he is willing to work with the community in regards to the university," Ms. Mills added.

By her endorsement, Ms. Mills joined Murray Posin and William Robison who also made impressive, but unsuccessful bids for the opportunity to oppose incumbent Helen Thompson in the general election.

Deitch, reacting to the endorsements of Ms. Mills, Posin and Robison, said "I am gratified because the support of those who also opposed Ms. Thompson indicates that I am not alone in my belief that UNLV's future demands -- and deserves -- more consideration by the Board of Regents than obviously has been given it by the incumbent from District 'C'."
