

"I've fought for Nevada's tourist industry because the millions of visitors who come here are vital to our economy.

My opponent, Jim Santini, says I was wrong when I voted against gasoline rationing urged by the Consumer Federation.

I believe if they ever issue ration stamps, there won't be any gasoline for our visitors to drive to Nevada.

The cold, hard facts are tourism means a stable economy and jobs to our State.

The choice is up to you."
