To us, five plus six equals natural, so we'll let our readers decipher an offering from G. Dibblee of Henderson, who points out an interesting feature of the year 5735. He says it may be the only number whose digits can be re-assembled into its own factors with none left over, and the digits consist of the first three or four odd primes. In an English-Jewish newspaper, this is Greek to us. Dibblee adds, GOD is mathematical, 5735 will be the year of deliverance. We hope so.

For those who want to improve their conversational skills in either French or Spanish, UNLV will continue classes in these popular languages which had started last January.
