

FAMILY DOCTORS OFFER 24 HOUR, 7 DAY SERVICE

Family Doctors of Nevada, Ltd., is becoming a focal point for many and varied and somewhat unusual medical and non-medical public service projects.

The first innovation was 24-hour, seven days a week service for all primary health care and emergency services complete with X-ray, lab and electrocardiogram facilities.

One of the Family Doctors of Nevada, Ltd., first public service projects was the introduction of a low cost office physical for many Clark County Athletic programs. Since boys and girls are required to take physicals for almost every sport in which they engage, Family Doctors felt that money should not be a deterrent to participation.

Senior citizens were also included with a 20 per cent discount for citizens over age 60. Since this announcement, hundreds of senior citizens have taken advantage of the discount which includes having Medicare forms prepared free of charge.

"Without doubt, senior citizens living on fixed incomes are the hardest hit by inflation," Dr. Zang stated. "And yet, because of the medical problems associated with old age, they are the group most often requiring medical services."

Family Doctors of Nevada, Ltd., is the only primary health care facility in Nevada to participate in the Department of Health, Education and Welfare's "Early Periodic Screening, Diagnosis and Treatment Program" for persons newborn to age twenty-one.

During a recent flu outbreak, Family Doctors offered a special price on flu shots in hopes of containing the flu before it reached epidemic proportions. Family Doctors' staff undertook the project because of the cost of flu inoculations for an entire family would have been otherwise prohibitive.

But not all of Family Doctors of Nevada, Ltd., public service projects are medically related. Recently, they became involved in the Art in Public Places project so-sponsored by the Reed Whipple Center and the Clark County School District's Sixth Grade Centers. Under the pro-

STUDENTS TOUR FACILITIES — Not all Family Doctors' service projects are medically oriented. Dr. Stephen Zang recently guided over 100 third grade students from Will Beckley School through the Family Doctors facility explaining how businesses can benefit from use of a computer. Family Doctors also participates in the sixth grade center's Art in Public Places project by keeping a permanent rotating display of the children's art work.

gram directed by the 6th Grade Center Art Director Frank Atkinson, twenty to thirty sixth graders have their art work displayed at Family Doctors. This permanent exhibit is rotated at regular intervals and is comprised of various themes given the students by Mr. Atkinson.

When Mrs. Annie Norwood's third grade social studies class embarked on a study of economics in business, Dr. Zang invited them to

tour their facilities and learn how computers can benefit even small businesses. Over 100 students received tours through the Family Doctor's facilities.

JERUSALEM (WNS) -- Former Premier Golda Meir was hospitalized for a few days at the Hadassah Medical Center here with a "frozen shoulder," an illness common among elderly,
