

ISRAELI SHIP THROUGH SUEZ DELAYED

TEL AVIV (WNS) -- A 7000 ton Greek freighter, carrying a cargo of tractors and cement from Rumania to Eilat did not go through the Suez Canal as planned but docked in Haifa instead.

Israel is delaying the test of Egypt's intentions at the strong urging of the United States not to add to the discomfiture of President Anwar Sadat who is under severe attack and heavy pressure from Arab opponents of the interim agreement he signed with Israel.

The test was also delayed because of the excessive publicity surrounding the movement of the ship, Valentina P., chartered by Israel's Zim Lines. The vessel's master was known to have been briefed on a Suez passage and the necessary insurance arrangements were made for the passage from the Black Sea through

the canal. The docking in Haifa means that the tractors and cement will be sent to Eilat by truck. Maritime circles here believe that Israel will eventually test the Egyptian undertaking to permit Israeli cargo through the canal.

KISSINGER PROMISES DELIVERY OF ARMS

WASH. (WNS) -- Secretary of State Henry A. Kissinger has said that Israel will receive the weapons that the United States held up for delivery pending the completion of the Ford Administration's reassessment of its Middle East policy.

"Items held up by the reassessment have been released," Kissinger told newsmen after a two-hour meeting with Israeli Defense Minister Shimon Peres. The weapons are believed to be F-15 fighters,

"Lance" missiles and laser-guided bombs. Kissinger, after the especially scheduled meeting, also denied that the Israel's request for the long-range "Pershing" ground-to-ground missiles was something brought up during the Sinai negotiations "and its discussion should not be considered a payment for the negotiations." He said Israel's requirement, which includes the possibility of the "Pershings" are now under review.

Kissinger's remarks were in response to a charge by the Pentagon that it did not know the "Pershings" were an Israeli requirement. The Secretary of State said that Israel's list of arms request had been "reviewed prior to the reassessment, by all the National Security Council group now." Defense Secretary James Schlesinger had indicated that he would not approve transfer

of weapons now in the hands of American forces and that Israel and other countries would have to await for new production before they could acquire sophisticated U.S. weapons. Schlesinger apparently told this to Peres during their three-hour meeting.
