

UNEF MANDATE RENEWAL OCT. 24 TESTS SOVIET INTENT

JERUSALEM (WNS) -- The renewal of the UNEF mandate on October 24 would be a test of Soviet intentions towards the progress to peace set in motion by the second interim Sinai accord, Premier Yitzhak Rabin told members of the United Jewish Appeal Study Mission. He said that Egypt appeared to be serious in its determination to implement the accord. On the other hand, attempts were to be expected by Syria, and perhaps also by the Soviet Union and the Palestine Liberation Organization, to stymie the implementation and blight the atmosphere of

gradual reconciliation which the accord was intended to set in motion. Rabin, who addressed the UJA leaders at their closing conference at the Knesset, said Israel deduced from public statements by Syrian leaders and also from "diplomatic channels" that Syria "does not want negotiations with Israel." The Premier said Israel would continue to observe the Syrian disengagement on a reciprocal basis. He expressed hope that the date set for the next UNDOF renewal on the Golan Heights -- November 30 -- would be "overcome." If a "stabilization" could be achieved through the

two "critical dates" -- October 24 and November 30 -- then the "positive" trends which had so far developed in the six weeks since the Sinai accord was signed could be exploited, hopefully, for further advance, Rabin said. Referring to events in Lebanon, Rabin said it was "strange" that not one world Christian leader had "said anything" about the fate of the more than one million Christians who were being threatened there. He expressed hope that Lebanon's integrity and status quo could be maintained and that the Lebanese would finally "overcome" their internal difficulties.

TIMETABLE FOR IMPLEMENTATION

TEL AVIV (WNS) -- This is the timetable for the implementation of the Sinai interim agreement, as reported by the army spokesman: Oct. 1 meeting of the joint Israel-Egypt military committee. (Unofficially it was reported that the first ship with Israeli cargo on board would cross the Suez Canal from north to south on that date.) Nov. 11 -- Israeli forces to evacuate the Ras Sudar area oil fields. Nov. 16 -- Egyptians to enter Ras Sudar area. Nov. 24 -- Italian

technicians to enter the Abu Rodeis oil fields. Nov. 30 -- Israel to evacuate the entire oil corridor between Ras Sudar and Abu Rodeis. Dec. 1 -- Egyptians to enter oil corridor. Dec. 28 -- Egyptian engineering corps to enter the Gidi Pass to build a surveillance station there.
