

JERRY KAUFMAN CHAIRS MARCH OF DIMES

A 40 year old Las Vegas attorney has been appointed the Nevada State Chairman for the March of Dimes.

Jerry Kaufman, who brings to the volunteer position a background of extensive community service, will work closely with both the Northern and Southern Nevada Chapters of the public health organization.

Announcement of the appointment was made by the President of the National Foundation -- March of Dimes, Joseph F. Nee, at a regional meeting of state chairmen in Phoenix this week.

"I hope to involve the smaller counties in the state more directly with the chapters in Las Vegas and Reno," Kaufman commented. "And I will be working closely with both existing state chapters so that a more unified state effort can be achieved regarding our goals of birth defect research prevention and treatment."

He said the Southern Nevada Chapter funds the Neonatal Intensive Care Nursery at Sunrise Hospital which cares for critically ill and defective infants; sponsors a genetic counseling clinic and has established educational programs for doctors, parents and the general public.

It has also purchased a mobile immunization van for the Clark County Health Department and established a birth defects registry.

The Northern Nevada Chapter will begin a genetics counseling clinic in April, is providing a pediatric nurse practitioner for the Washoe County Health Department; supports Tel-Med, a health education library; and funds educational programs for doctors, students and the general public.

Kaufman has been a board member of the March of Dimes for 10 years and served as its chairman in Southern Nevada from 1971-73. He was state president of the Easter Seal Society for one term and serves on the Eagle Board of Review, Boy Scouts of America.

He was elected to "Outstanding Young Men of America" publication in 1972 and was recently appointed to the Title I Steering Committee for Higher Education by the Nevada Board of Regents.

A resident of Las Vegas for 10 years, he received a degree in metallurgical engineering
