

ARAFAT'S NEW TAKEOVER SCHEME AT UN

UNITED NATIONS (WUP) -- Yasser Arafat's new scheme for the 'takeover' of 'Palestine' was put before the newly-established anti-Israeli Committee of 20 last week by his UN spokesman, Zehdi Labib Terzi, who, appearing as the first speaker in the general debate, presented guidelines as to what action the Committee should take.

In essence, the new PLO scheme involves the creation of a powerful 'fifth column' within not only the occupied areas but also in Israel proper, to be implemented through the instrumentality of either

UNRWA or the International Committee of the Red Cross (ICRC) in the following manner:

1. "Palestinians displaced in 1967 would be permitted immediately and without delay to return to the West Bank and the Gaza Strip.

2. "Preparations for the second phase relating to the Palestinians displaced in 1948 should be taking place while the first phase was being implemented."

Terzi told the Committee that "the return of the Palestinians to their homes and property...is a

prerequisite to peace." With this he meant that there can be no negotiations either here at the UN or in Geneva before all the Palestinians return. In simpler words, he called upon the Committee to inform the Security Council that its primary duty is to invoke its power in the direction he has laid out, namely, that "the Palestinians should be physically in Palestine in order to be enabled to exercise their inalienable national rights."

The one-sided pro-PLO Committee is scheduled to be in continuous session,
