## Fight Arab Boycott

The efforts by the three major Jewish Defense organizations to combat the Arab boycott against Israel have shown results. The American Jewish Committee, the American Jewish Congress and the Anti-Defamation League have all sought to expose companies that are participating in the boycott and to find means of combatting it.

Perhaps most dramatic was the announcement by the American Jewish Congress that 22 major American corporations have given it written assurances that they will not submit to Arab boycott demands. This is an outgrowth of a nationwide program by the AJCongress to have shareholders in major corporations seek declaration from the companies on whether they are complying with the boycott. The ADL's recent announcement that 200 companies and 25 banks are helping the Arabs wage economic war against Israel has brought replies from some of the firms that they are not complying with the boycott or that they had been participating but will no longer do so.

The Jewish organizations have stressed that they are not against Arab investment in the United States or American firms doing business with the Arabs. But they are against a policy of boycotting Israel or firms that do business with Israel. They are also against companies discriminating against American firms that are owned by Jews or have Jewish directors or employees in order to comply with the boycott.

Rabbi Arthur Hertzberg, president of the AJCongress said the assurances from the 22 companies demonstrated that "it is simply not true that major American companies with worldwide interests cannot stand up to the Arab boycott." American business has the economic power and the technological skills needed by the Arabs which should enable them to break the boycott if more companies should stand up against the boycott.

In addition, the Ford Administration should begin enforcing its policy that American companies not comply with the boycott. This should be coupled with the adoption by the Congress of the bills aimed at eliminating the use of the Arab boycott in the United States.

## Israel Must Not Yield

UNITED NATIONS (WUP) -- Judging by the statements Arab delegates -- both so-called 'moderates' as well as radicals -- have made here during the past two weeks in the anti-Zionist Committee of 20 set up on behalf of the PLO it has become clear to this writer that all of them, Jordan, Egypt and Saudi Arabia, are bent on the demise of the Jewish State in a conspiratorial maneuver to compel Israel via the 'tyranny of the majority' to withdraw piecemeal from the occupied areas as a 'first step' in the attainment of their ultimate goal.

This applies especially to the West Bank, the Gaza Strip and the Golan.

JERUSALEM (MDA) - MAGEN DAVID ADOM (MDA) ISRAEL'S NATIONAL EMERGENCY MEDICAL HEALTH & BLOOD SERVICES RAN A SPECIAL BLOOD DONATING STATION DURING THE WORLD ASSEMBLY OF JEWISH WAR VETERANS HELD RECENTLY IN JERUSALEM.

Peace, any peace, with Israel whom they have constantly termed a 'cancer' in their midst, is anathema to them. Hence their refusal to enter into direct negotiations under any circumstances.

That all the Arab states are indeed set on the demise of Israel has been borne out here at the UN by the very fact that all of them -- yes, including Egypt and Jordan -- have given Yasir Arafat and his PLO spokesmen a starring role in all Middle East deliberations and, apparently, acquiesced to their public clamor for the undoing of the Third Hebrew Commonwealth.

The tragedy here lies in the shameful fact that the Arabs have succeeded in mustering a majority in the General Assembly in support of the murderous PLO terrorists who might also have gained full Security Council backing if not for the United States veto. Anticipating a possible future veto versus the pro-PLO recommendations which the Committee of 20 is to place before the Security Council by June 1, the Syrian Ambassador suggested in his speech last week that the recommendations be brought to the full Assembly for adjudication.

That Israel is fully aware of the ultimate Arab intentions as linked to their espousal of the PLO came to light in an Israeli Mission statement released here at the UN this week. It referred to several PLO declarations broadcast over an Arafatian radio station in Beirut during the past month calling for the destruction of Israel. Among these was a statement by Yasir Arafat's deputy Salah Khalaf who declared, among other things, the following:

"There is something the world must know. Let us all die, let us all be killed, let us all be assassinated but we will not recognize Israel. This is something we cannot bargain about..."

Referring to the PLO Covenant, Khalaf stated in another broadcast: "When we went to the UN, there were those who were opposed (to our program). But for our part, we said that we would work in all forums in order to route the Zionist enemy out of everywhere. The important thing is that we should stick to our principles...The Palestinian resistance will set up a national authority on all the territory which is liberated, in order to continue on the way to the liberation of all the land of Palestine...We shall not recognize the Zionist entity on any piece of land."

Here we have the reason why it is impossible for Israel to yield to any UN demand for the turning over of even an inch of territory within historic Eretz Yisrael to the PLO and it is to be hoped that the United States will understand why.

"We must never allow an Arafatian state to arise in our midst," Memachem Begin declared at a reception tendered him by the United Zionists Revisionists of America at the Fifth Avenue Synagogue in New York last week. "Such a state," he said, "would be turned into a Soviet-controlled region" which could lead to "the Angolization of the entire Middle East."

Recalling the Nazi Holocaust and the Six Million, the former Irgun here warned that "if an enemy says he will destroy you, he means it." He scored the idea of a settlement with the Arab states on the mere acceptance of so-

thank each and everyone of them for a pleasure beyond anticipation.

The realization that we were not alone in our exultation came first when the good Rabbi heaped the highest praise on our Bat Mitzvah girl. They were not the stereotyped words for an honoree on occasion. The Rabbi spoke phrases from the heart that had to come only after personal association during the years she was involved with Hebrew School and Temple affairs. For his kind expressions at this appropriate occasion Rabbi Shnairson will be indelibly etched in the hearts of all the Tells and Friedmans.

The icing on the cake came when Temple President Oscar Goodman pointed out the presence of four generations at the Mitzvah. He was referring to our glowing wife's mother, Bessie Goldstein, a mere 90, from New Jersey, who insisted on being at her great-granddaughter's happy celebration.

Then, following the Services, at the Oneg Shabbat in the Entratter Social Hall came the compliments for Bonnie's presentation. From those well-versed in Synagogue Services execution came unsolicited commendations.

Kay Wallerstein, who never hesitated to call a spade a spade, said Bonnie was outstanding. A credit to our religion. It was music to our ears. The melody continued on and on, from Jack and Bonnie Novak, Dr. Coblenz, Percy Villa, Leah Pearson, Dr. and Lois Shelksohn, Dr. and Mrs. Joe Kadans, Paul Valentine and a host of others. How it made us feel grand and glorious.

The food and refreshments, hosted by Don and Rita, provided a fitting climax to a magnificent evening. Overflowing platters of hand-cut Nova Scotia lox and savory smoked white fish, bowls of whipped cream cheese, hundreds of fresh bagels, trays of candy and cake were satisfaction to the most relishing palate. For this delectable service we are extremely grateful to the caterer, Jackie's Deli in Commercial Center.

To interested relatives and friends who attended, to the regular Friday congregants, to the dedicated leaders of our Temple, to the wonderful Jewish community of Las Vegas, to the loving parents, grand parents and great grandmother of the Bat Mitzvah and especially to Bonnie, we (Jack and Bea) say "Thank You" for a joy unsurpassed.

called "non-belligerency. There's only one road to real peace," he stated, "and that is through direct negotiations."

Mr. Begin noted that throughout all history nations have met at the peace table and negotiated directly on the consequences of conflicts -- the victor always emerging with some gains acquired from the aggressor. "Far too long," he emphasized, "the Jew has been an exception to the rule: The time has come when all nations must realize that the rules which apply to them must apply to us as well."

It is gratifying to know that the Israelis in their majority as reflected in the Knesset oppose the establishment of a separate PLO Arab state on the West Bank and the Gaza Strip. And so it stands -- come what may!
