VAT TAX ON PRODUCTION SET AT 8 PERCENT

JERUSALEM (WNS) -- The new value added tax (VAT) which is scheduled to go into effect July 1 has been set at eight percent by a special committee of the Labor Alignment.

The decision, subject to approval by the Knesset finance Committee, represents a compromise between the Histadrut's proposed 6 percent rate and the 10 percent requested by the Ministry of Finance. VAT is a levy applied to every stage in the production of an article from raw material to finished goods. It will not be levied on goods designed for export.

Meanwhile Arab merchants said they would call a general strike if VAT is imposed on the West Bank and East Jerusalem. Heads of local Arab Chambers of Commerce claimed that the application of the new tax in the administered territories would be "in violation of international law" and would impose an unbearable economic burden on Arabs. The VAT is scheduled to

be introduced into the West Bank as added customs duty and in East Jerusalem on the same basis as in the rest of Israel.

In other economic developments, Rabinowitz said the government plans to crack down on tax cheats.
