MONDALE: SUPPORT OF ISRAEL SHOULD NOT BE PARTISAN

NEW YORK (WNS) -- The Democratic and Republican parties should make it clear that support of Israel is not a political issue "but an American position," Sen. Walter Mondale, the Democratic candidate for Vice President, stressed to about 60 Jewish leaders at a meeting at the American Jewish Committee offices. The Minnesota Democrat said that the U.S. must both support Israel and seek peace in the Middle East but not tie its aid to Israel to any blue print or timetable for decision. Mondale said Israel has declared that it will make peace and he argued the U.S. should not "crowd" or "push" the Jewish State but allow it to make its own decisions on a settlement.

As for the Palestinians, Mondale said "Israel should decide with whom she will negotiate. I don't think Israel can be criticized for refusing to negotiate with an entity that is not a state" and that calls for Israel's destruction, he said.

Peter J. Strauss, president of the American Jewish Committee's New York Chapter, said the organization will also invite Mondale's Republican opponent, Sen. Robert Dole of Kansas, as well as President Ford and Jimmy Carter, to speak before the group.

TELL TALES

"One Man Plus The Truth
Constitutes A Majority"

BY JACK TELL

PROUD ZIONIST
*Wake Up 5th Assembly
Dist. Registered Voters*

In order to prove beyond any doubt that government belongs to the people and the people want what is rightfully theirs, Jack Tell decided to run for State Assembly in District Five.

Introducing a new concept in public office seeking, the one-plank platform Tell stands on, is that the voter is boss. Employed by the voter, the office - holder is relegated to the position of office boy, and nothing more. He will no longer be a leader of those who elected him. He will be following the dictates of his employer, the voter, delivering a message to the Assembly, in the form of aye or nay vote, when the legislature convenes in Carson City, come January.

The glamour will be removed from the post. The Assemblyman, just like a casino dealer, must abide by a strict but simple set of instructions, determined by a majority of the voters, concerning controversial issues as they arise. What is more, the public in general, and specifically the special interests, the lobbyists and those with ulterior design, will know in advance how the Fifth District vote will be cast at the Assembly.

Naturally this will eliminate temptation to accept a bribe, or a motive in offering one. Why pay for something that may be gotten for nothing? It will eliminate also the political hopeful who spends ten times the amount to get elected to an office that pays a pittance salary.

When the founders of our country signed the Declaration of Independence on July 4, 1776, they intended "certain unalienable rights, along with Life, Liberty and the Pursuit of Happiness, that Government, instituted among men, derive their just powers from the consent of the governed."

Unfortunately, it has not worked out that way. It started with Alexander Hamilton's theory and policy that the powers of government should be dictated by those doing the governing, who were "the wealthy, the good, and the wise." Hamilton was opposed by Jefferson, the first great Democrat, who had complete faith that a people enlightened by education, could govern themselves better.

Down through the years, because of uncertainty, or unfamiliarity with the issues, or due to plain laxity, the voter has allowed himself to be coerced into electing figure heads. This led to unscrupulous politicians gaining office for their own selfish purposes.

Then came Watergate, the grand-daddy of all scandals. The old order changed overnight. John Doe, the man in the street, the average citizen, has awakened to the realization that our country belongs to him. He could fight city hall. He was not going to be told anymore. He
