

**GOVERNOR'S NEW YEAR MESSAGE**

GOV. MIKE

Dear Friends:

I am pleased to again extend warm greetings to all people of the Jewish faith on the happy occasion of Rosh Hashanah of the year 5737.

As our nation celebrates 200 years of independence, we should all remember that the beliefs upon which our democracy was built spring directly from the ancient Hebrew teachings. The contributions of Judaism to the growth and prosperity of America form a significant chapter in our national history.

This year, once again, Rosh Hashanah comes at a time when men of good will have achieved a measure of enduring peace. On this occasion of hope, I wish all of you a happy, healthy, prosperous New Year.

Sincerely,  
Mike O'Callaghan  
Governor of Nevada

**WORLD JEWRY CAN INFLUENCE UN**

UNITED NATIONS (WNS) -- Chaim Herzog, Israel's Ambassador to the United Nations, believes that if world Jewry demonstrates an interest in the proceedings at the UN it will cause a diminishing of the anti-Israel tone of the world organization.

"I am convinced that if Yugoslavia or Cuba, for example, feel that the Jewish people will react very strongly against their anti-Zionist outburst, they will change their tune," Herzog said in an interview. He noted that "our attacks on Libya as the center of world terror have brought Libya to disclaim publicly terrorism and hijacking and created a situation whereby the hijackers of the KLM plane to Cyprus had nowhere to go."

Herzog declared: "The world must be made to realize that the Jewish people is mobilized to meet renewed anti-Zionist attacks. The Jewish people must realize that it has to mobilize for the purpose of standing up as a proud and unified people against its enemies."

However, the Israel envoy said he expects that Israel and Zionism will continue to be attacked in the upcoming General Assembly session. But he said that Israel's struggle against last year's resolution equating Zionism with racism "has been successful. The mention of Zionism or the anti-Zionist resolution has

been eliminated from all resolutions in the past year," he said. "The reason is that the African countries are aware of the fact that the Arab initiative in this matter spells doom for the Decade Against Racism and Racial Discrimination."

Herzog said he did not believe that the Arabs would press for Israel's suspension from the Assembly. He added he did not expect the United States, the Soviet Union or China to change its stand on the Mideast. "The American willingness to use the veto has strengthened the U.S. posture and prestige

in the United Nations and brought the U.S. again as a major figure in the world organization," he said.

Herzog said the extreme tactics of the Arabs have caused a

"backlash" in Israel's favor. He noted that Israel's rescue of hostages at Uganda's Entebbe Airport "is forcing the world organization to deal with the problem of international terrorism."

TEL AVIV (WNS) -- A Syrian soldier defected to Israel after being wounded by other Syrian soldiers who pursued him to the demarcation line on the Golan Heights.
