Dear Sirs: Since the Las Vegas Combined Jewish Appeal has no interest in full time low-cost or free Jewish School for Jewish children and has refused any worthwhile support in this direction, I cannot, in good conscience, make any contribution to the Las Vegas Combined Jewish Appeal.

It is my hope that your organization will give substantial support to such a school so that Jewish children, from low and moderate income families, can have such an education and retain their identities.

Should this come about, I will be happy to contribute money to you.

Very sincerely yours,

**HAVE YOU EVER ACTUALLY SEEN A SECOND?**

The Seiko Quartz gives you accuracy you can see because the second hand moves in precise one-second intervals. Conventional watches with sweep-second hands simply can't show the movement of time as accurately. Quartz watches are at least four times more accurate than any other type of wristwatch. The Seiko Quartz is accurate not just within seconds per day or per week, but within seconds per month. Shown: Seiko Quartz No. CM002M—\$225. Other Seiko Quartz models are priced from \$150 to \$575.
