The spokesman said June 8 that Waldheim is "in the process of getting further information" and he will make a further statement at a later time. PARIS (WNS) -- The French Administration condemned June 8 the Israeli air attack on the nuclear reactor in Iraq. French Premier Pierre Mauroy said the raid was "a very grave matter which can only further increase tensions in the area. We condemn it and regret it." He indicated, in response to questions, that French President Francois Mitterrand's visit to Israel might have to be reconsidered.

I REALLY WISH I KNEW WHY PEOPLE HAVE FUNERALS

Students of human behavior tell us that ceremonies for saying goodby have existed as long as man. Ceremonies mark events in the lives of people and communities. Weddings mark new families; baptisms and bar mitzvahs welcome children and adolescents into society. Death marks the end of life. The funeral acknowledges that a life has been lived. People express their feelings about life through ceremony. Funerals also provide a socially accepted way for people to come together to support the grieving family. Many people welcome social support. If there were no funerals, how would you find a way to tell a family that you cared about their loss.
