

### ISRAEL REACTS COOLY TO EMBARGO LIFT

JERUSALEM (WNS) -- The lifting of the embargo against delivery of American-made warplanes to Israel announced by Secretary of State Alexander Haig was received by official circles here with a reference to a previous statement made by Premier Menachem Begin. At that time, the Premier called the embargo "unjust and unjustifiable," adding that the planes which the U.S. withheld including 14 F-16s and 2 F-15s, "are no American planes. They are Israeli planes made in America."

But the sources pointed out that Jerusalem was not about to thank the United States for lifting the embargo imposed after the raids on Iraq's nuclear reactor June 7 and on terrorist headquarters in Beirut.
